ARE READY TO FIGHT.

It is Acknowledged by Well-Informed Parties to be a Serious Question.

INTERFERING WITH OUR TRADE.

Expect the Matter Will Be Settled in a Few Days.

NO NEWS AT WASHINGTON.

Little or No Excitement Prevails in Official Circles—The Great Northern Scheme.

New York, Oct. 29.—It is generally acknowledged by merchants interested in the Chilean trade, that the present situation is an exceedingly grave one. The *Evening Sun* says: "But little business is transacted by shipping men, and by those interested in the Chilean situation, it was this morning the whole topic of conversation and speculation as to what this country would do in the event of the war with Chili. The most of them are inclined to scoff at the idea of her going in face of the United States, but the feeling prevails widely that the Chileans are ready to fight. Several prominent down town business firms who have commercial relation with Chili, were called upon this morning with a view of ascertaining their feeling with respect to a possible outbreak of hostilities between the United States and Chili. "We have received no advices whatever from our correspondents in Valparaiso in regard to this affair," said Charles K. Flint, "and so long as the matter is of diplomatic negotiations, I do not think any serious consequences need be apprehended." At the office of Grall & Co., it was said, the trouble would no doubt be settled in a few days.

Nashua, New From Chile.

WASHINGTON, Oct. 29.—There is little or no excitement in official circles here this morning over the Santiago press cablegram announcing the receipt by the minister of an unsatisfactory response from the Junta's representation of the United States, and saying that the Baltimore's crew are practically boycotted at Valparaiso. The naval officials discredited the latter statements and believe its foundation lies in the prudent course adopted by Commodore Schley respecting the granting of liberty to his sailors during the present condition of excitement. No word has been received at the naval department from the commodore reporting any new phase in the situation. A cipher cablegram from Minister Egan was received this morning at the state department, but its contents were not made known.

The Great Northern's Scheme.

ST. PAUL, Oct. 29.—The secret of the organization of the Spokane & Southern railway of the state of Washington is out. It is given out that the purpose of the line is to make a great loop for the Great Northern Pacific line. It will run from Portland over the Cascades along the north bank of the Columbia river, until it reaches the mouth of the Snake river, and continue along the north bank of the Snake river to Almont, and thence north to Spokane. The articles of incorporation provide for the building of the road from Spokane to the Snake river which will make a loop for the Great Northern from Spokane, via Seattle, Portland and Almont, and back to Spokane.

Rushing the Cruisers to Completion.

NEW YORK, Oct. 29.—Every body is busy at the Brooklyn navy yard, all possible haste is being made on the part of the Brooklyn navy yard officials to place the Atlanta, Bennington, Concord, Philadelphia, Chicago and Petrel, six cruisers, in a sea going condition. As nothing tangible is known as to the exact determination of the government in regard to the Chilean matters.

The Irish Enjoying Themselves.

CORX, Oct. 29.—The fighting which took place between the McCarthys and Parnelites last night in the streets of this city was more serious than it was first reported. There was a series of scrimages between the contending parties, the most severe being one in which Dillon was disabled and the Parnelite forces routed. Many on both sides being injured.

Thirty Men Killed.

The Driest Weather Ever Known.

MONTGOMERY, Ala., Oct. 29.—The present spell of dry weather is one of the longest ever experienced in this section. The streams are drying up and the railroads find it very troublesome to secure water necessary to run the trains. The employes along the line are all supplied with water from this city, every passenger train carrying barrels full.

A Farmers' Alliance Fight.

CHICAGO, Oct. 29.—A Little Rock special says news was received there of a terrible encounter at the farmers' alliance meeting at Buck's last night. In a quarrel between spectators, rifles, shot-guns and pistols were used with deadly effect. Burt Manning, J. H. Town and three others whose names are not known were killed, and several others were slightly wounded. Politics was the sole cause of the trouble.

New Secretary for Ireland.

LONDON, Oct. 28.—The Right Hon. W. L. Jackson, who succeeds Mr. Balfour as chief secretary for Ireland has stated that he completely approves the policy and Methods of Mr. Balfour, and believes that Mr. Balfour has done much to conciliate and bring into more intimate association the people of Great Britain and Ireland. Mr. Jackson charges Mr. Gladstone with having run away from the issue raised by Irish disunionists, and with then having accepted their dictation.

The King of Roumania.

BERLIN, Oct. 25.—The Kaiser's reception of King Carlos of Roumania has been more than friendly. They are the only two reigning sovereigns of the house of Hohenzollern, King Carlos belonging to a minor branch, which adhered to the Roman Catholic faith. It is understood that the Roumanian king has already received assurance of the hearty support of his imperial kinsmen, should Russia cross the Pruth into Roumania.

More War News from South America.

ST. LOUIS, Oct. 29.—A dispatch from the City of Mexico says: "There is a rumor of an engagement on the frontier of Guatemala and Salvador, between the Salvadorian refugees and the Salvadorian troops, and the former were defeated. Nothing could be heard of the fight at the Salvadorian legation, where the rumor is not believed."

THE CHILIAN AFFAIR.

It Creates Considerable Excitement in Washington.

ARE A MUCH ABUSED PEOPLE

The United States Has Been Playing the Part of a Tyrant.

HAVE NO LOVE FOR UNCLE SAM

The Legation has Some Fifteen Charges on File Against This Country.—The British in Africa.

WASHINGTON, Oct. 28.—Senator Pedro Montt has evidently received his cue from the junta. The burden of one of the complaints at the White house conference last Friday was that Mr. Montt has avoided the state department since the establishment of the provisional government, notwithstanding that the United States was the first to recognize the new Chilean government. His neglect as the official representative of the junta was the subject of much unfavorable comment. He has now officially notified Secretary Blaine that he has received notice of his appointment by the junta as envoy extraordinary and minister plenipotentiary from Chili to the United States. Senator Romero, the Mexican minister, accompanied by Senator Montt, arrived at the state department about noon today. Minister Romero performed his part by formally introducing the diplomat, and Senator Montt did the rest. He informed Secretary Blaine that the reason he had not presented himself sooner was his absence from the city almost continuously since the overthrow of Balmaceda. He also informed the secretary that he had now received notification of his appointment. The official documents which are necessary to establish him in his office are now on their way to Washington. Secretary Blaine received the Chilean with all due courtesy, and any business that requires the co-operation of the Chilean representative will hereafter be transacted through Senator Montt. The interview was short and pleasant. As soon as Minister Montt's credentials arrive he will be formally presented to the president by Secretary Blaine. If the feelings of the Chilean representatives in this city are any reflex of the sentiment entertained by their countrymen against the United States, then the outrage at Valparaiso can be understood. While diplomacy places the seal of secrecy upon their official lips, in ordinary conversation the bitterest hatred and denunciation of our government crops out. I visited the legation today to ascertain if the visit of Senator Montt to the state department was indicative of a more cordial feeling between the two countries, and the beginning of the end of the present bad feeling. I was informed that as this government was apparently running things to suit itself, I would have to look to the state department for information. It was not even admitted that Mr. Montt had called at the department, much less was there any suggestion of the character of the meeting between him and Secretary Blaine. The spirit that predominates at the Chilean legation is not one calculated to bring about an "entente cordiale" with Chili. It is a spirit of self-complacency that will admit of no question of the justice, rectitude, or of the peaceable or dignified character of the Chilean government. According to the idea, as expressed by Mr. Julius Foster, the United States has been playing the part of a tyrant. It is charged by him that she violated the principles of neutrality ever since Secretary Foster ordered the Itata to be held at the port of San Diego. The legation has on file some fifteen charges against this government, ranging from the alleged partiality of Minister Egan to Balmaceda, to the assertion that Admiral Brown had the search light of the Baltimore turned on the bay at Valparaiso to prevent the torpedo-boats of the insurgents from doing their work. The charges are rung on these allegations until the Chileans have persuaded themselves that they are a long-suffering, meek and patient people. Senator Montt has announced that he has decided not to say a word officially. Mr. Julius Foster declares that he is not a diplomat, nor does he believe in diplomacy, but he must obey Mr. Montt's orders.

The British in East Africa.

BERLIN, Oct. 28.—Great disgust exists with the news from German East Africa going to show that the attempt of Germany, to colonize that section is an almost certain failure and that the British are winning back the trade that was at first diverted from Zanzibar. The information coming from traders is equally doleful, and it is believed that much difficulty will be found in inducing the reichstag to vote any more money for the development of the colony. In the meantime Zanzibar has been considerably improved as a harbor, and the new British control promises to effect still greater improvements. There is no concealment that the Germans consider that England has stolen a march in East Africa.
