McFarland & French.**MORE LOOSE CONVICTS****Over 500 Convicts Turned Loose by the Tennessee Miners.****THE WILDEST RUMORS PREVAIL.****The Stockades Burned to the Ground But No One Injured.****THE MAVERICK BANK FAILURE.****By an Arrangement of the Other National Banks, the Depositors Lose Very Little.**

KNOXVILLE, Tenn., Nov. 2.—At one o'clock this morning two hundred mounted men came in from the mountains and liberated 200 convicts working in the mines at Oliver Springs. So quietly was it done that the people of the town knew nothing of what had happened until this morning when they discovered the stockade was a mass of smoking ruins—short term prisoners were furnished with citizens clothes and with the exception of a few captured, are all now at large. This makes more than 500 penitentiary convicts turned loose in that locality since Friday evening. The governor of the state was here yesterday, but left for Nashville this morning. It does not appear that there was any resistance on the part of the guards, and nobody was hurt. The wildest rumors prevail, of which one is that the miners will immediately proceed to Tracy City and release the convicts there.

The Maverick Bank.

BOSTON, Nov. 2.—The doors of the Maverick National bank closed this morning. There is no excitement. Lewis Lombard, second vice-president and eastern manager of the Lombard investment Co., says: "The deposits of the company in the Maverick bank is immaterial and that the concern is not affected by the suspension of the bank, except a temporary convenience in the matter of keeping accounts. All customers who hold checks on the Maverick bank on return of the same, will be given checks on other banks in which the Lombard Company deposited. Several such checks were presented this morning and redeemed. The different national banks will immediately call a meeting of directors to ratify the vote of the Clearing House association."

The losses of the Maverick national bank are estimated at upwards of \$2,000,000. The reported surplus and undivided profits are \$1,000,000. The capital is \$400,000 and all of a 100 per cent assessment that the stock holders will be called upon to contribute, but as nearly a majority of the bank shares are owned by President Potter it is doubtful if a full assessment can be collected. The depositors, however, should only lose a fraction of their deposits. The irregularities of the Maverick bank extended back over a period of two years. The banks voted to assess themselves three per cent of the amount of their loan. This will raise about \$4,000,000 for a loan to the Maverick bank.

A Fatal Railroad Wreck.

NEEDLES, Calif., Nov. 2.—The east bound freight train struck a misplaced switch at the end of the Franconia yard yesterday, and the engine and one car was overturned and derailed. The engine was hurled to one side and fell, burying her smoke stack and dome inside of the cut. Fireman Charles Johnson fell under the boiler head and was pinned there by heavy timbers and the machinery, while escaping steam cooked his limbs and part of his body for nearly three hours. Engineer George Cook was thrown through the cab window but landed miraculously without a scratch. It is believed Johnson cannot recover.

A Small Salem Fire—A Well-Known Mason Dead.

SALEM, Or., Nov. 2.—This morning the Stott house was destroyed by fire. The loss is \$2000 or more. The fire caught from the kitchen. The building is the property of Mrs. Finnigan of San Francisco.

CAMILLE, Ga., Nov. 2.—Clark Nix who brutally murdered Geo. Musee one week ago, was taken from the guard who had captured him last night, and lynched.

A Disastrous Fire.

ST. LOUIS, Nov. 2.—One of the most disastrous fires ever known in St. Louis county has been raging for the past three days in the Western portion of the county. Thousands of dollars worth of valuable property has been destroyed, and unless there is a rain within a few days the losses will reach an enormous figure. Many acres of wheat and timber are destroyed and the farmers are fighting for their homes.

To Help the Bank.

BOSTON, Nov. 2.—At a meeting of all national banks at the clearing house this morning, resolutions were unanimously adopted that all the banking associations should as once combine to relieve necessities of the depositors of the Maverick National Bank by making an advance to such depositors upon the security of an assignment of their claims against the Maverick bank.

A Slight Ripple Caused in the Chilian Matter.

No Cause For Alarm.

The United States government requested an investigation of the assault upon the Baltimore's sailors and the investigation was being made. Nothing could be done until the result was known.

The Bonds Illegal.

OLYMPIA, Wash., Oct. 31.—Mayor Horr was informed today by Struve & McMicken, attorneys for the successful bidder for the city bonds, that in their opinion the bonds were illegal as they increased the city's indebtedness beyond the statutory 5 per cent. The question will be carried to the supreme court, as it is claimed; that the attorneys have included in their estimate, the warrants issued for street improvements, which are not properly a part of the debt contemplated by the constitution.

Senator Quay's Libel Suit.

PITTSBURG, Oct. 31.—The preliminary hearing in Senator Quay's criminal libel suit against President Barr and Ed Mills, of the Pittsburg Post, was held today. On cross-examination Quay denied having received \$8880 from Bardsley, said there was no consideration between Bardsley and himself; had no business transactions with Bardsley, but received a certificate from David Martin, of Philadelphia, in exchange for a note. The defendants were held for trial in December next in \$1000 bail.

Gold Under the Missouri River.

KANSAS CITY, Mo., Oct. 31.—The city officials were wrought up to a high pitch of excitement this morning by the discovery of gold in the samples of strata pierced by drilling for the water works tunnel under the Missouri river. A mining engineer, who examined the dirt, asserts that two specimens of the strata contain free gold in sufficient quantities to make the mining of it profitable.

The Rest of the Crew Were Lost.

NEW YORK, Oct. 31.—The British steamer Smeaton Tower, which arrived from Mayaguez, brought two survivors of the Swedish bark Mora, which was wrecked on the island of Mona, August 22. The captain and remainder of the crew, numbering seven, went down with the wreck.

HELP FROM ENGLAND**Is What the Chilians are Said to be Figuring Upon.****AGAIN WATCHING THE LEGATION.****Visitors to the American Legation are Being Arrested.****SOMETHING SERIOUS MAY HAPPEN.****Egan Accused of Trying to Provoke War so Secure Glory for the United States.**

SANTIAGO, Oct. 31.—Though there were no new developments today, the political atmosphere shows no signs of clearing. The junta, through its organs, is now claiming the police of Valparaiso were in no way at fault for the assault on the sailors of the Baltimore, or in their subsequent treatment of them. This, with other matters, notably the expectation that Minister Egan will soon be directed to present an ultimatum to the junta, is naturally causing great excitement. The possibilities of serious trouble with the United States has led the Chilians into what may turn out to be a dangerous, delusive belief. They seem of the opinion that an alliance with Great Britain could be formed. Indeed, the Chilians are already gravely discussing the possibilities and probabilities of such an alliance between Chilian and Great Britain against the United States.

The United States legation is again being closely watched by the police in the manner adopted some weeks ago, when the legation's right of asylum was questioned. No reason, so far as learned, has been assigned for this renewed surveillance. It is probable the government takes this means of keeping fully advised of all who enter or leave the legation, and also to make the right of asylum as difficult and trying as possible. In any event, the fact cannot be lost sight of that this espionage is annoying to the members of the United States legation, as well as to the American colony at large. That the police on duty near the American legation are under instructions to arrest persons leaving that place, in certain contingencies, is manifest from the fact that two ladies calling at Minister Egan's were placed under arrest last night as they came out into the street. After an examination they were permitted to depart.

These conditions are magnified by the conditions of public feeling here and by the status of negotiations between the United States and Chilian, so it is not to be wondered that the Americans are feeling uneasy and apprehensive that something serious may happen, for the members of the junta continue to express the strongest feeling against the United States. A prominent member of the new government, who holds a position in the cabinet, today spoke in a most unfriendly manner concerning America and Americans. He was particularly severe on Minister Egan, whom he bluntly accused of trying to invoke war between Chilian and the United States. On the other hand, however, it is asserted by many persons conversant with the particulars, that Egan has done nothing whatever in the matter on his own responsibility, all his actions being guaranteed by orders which have been sent to him from the state department at Washington, and furthermore, these persons claim that Minister Egan made efforts privately to maintain friendly relations between the two governments.

The report of the intendente of Valparaiso says there were nearly 1000 men in the recent fight. Only fifty of this number were Americans. The intendente claims that the police were blameless in the affair, but notwithstanding this assertion, there is the best evidence to prove they were the chief assailants of the American sailors.

The Grampus and Her Crew Return.

SAN FRANCISCO, Oct. 31.—The steam whaler Grampus, about which there has been so many startling stories of the massacre of her crew by natives in Alaska, arrived here tonight with a catch of twenty-one whales. Every man who started on the cruise returned, except Second Officer J. A. Draytan, who died of dropsy. The whaler returned on account of injury to her rudder, otherwise she would have remained another year on the cruise.

The Dakota Storm.

GRAND FORKS, N. D., Oct. 31.—It is feared the storm of last night has caused heavy damage to the stock ranges and especially to sheep. The president of the Prouty Live Stock Association has just returned from the ranges. He says it will take a month to get the cattle together again. They are now scattered from the Manitoba boundary to the South Dakota line. Threshing is greatly delayed.

Weather Forecast.

SAN FRANCISCO, Nov. 2.—Forecast for Oregon and Washington: Rain in Western portions, becoming general tonight or tomorrow.
