SHOT HER HUSBAND.

A San Francisco Police Officer Killed by His Wife During a Quarrel.

FIVE MEN SMOTHERED TO DEATH.

The Burning of a Livery Stable Causes Their Death.

PRESENT OUTLOOK IN CHILL.

A Cablegram From Captain Schley—The Sayward Case—To Help the World's Fair.

SAN FRANCISCO, Nov. 9.—Police officer Jeremiah T. Catter was shot and killed this morning by his wife at their residence. The couple had a quarrel originating it is stated from a report that the police commissioners would examine Catter tonight on a charge of intemperance. Mrs. Catter claims that her husband attacked her and that she fired two shots in self defense one which took effect in his back, killing him instantly. The woman surrendered herself and was taken to jail.

A Livery Stable Burned.

DENVER, Nov. 9.—Mansion's livery stable was completely burned early this morning. Four men, possibly five, who were rooming in the upper portion of the building were suffocated, and between twenty and thirty horses met death in the same way. The names of the dead men could not be learned. A number of other roomers had narrow escapes. It is not known how the fire originated. The financial loss is \$20,000 and the insurance is about half that amount.

No Foundation for the Rumors.

WASHINGTON, Nov. 9.—A cablegram was received by Secretary Tracy from Captain Schley dated Valparaiso, Chili, yesterday, which states that there is no indication of any feeling of hostility toward the Baltimore's company at Valparaiso.

Regarding the report of unusual activity and Sunday work in the navy yards, it is said at the naval department that it has no war-like significance.

RETURNED FROM THE NORTH.

Glove's Explorations and Attempt to Reach the Headwaters of the Alaska River.

VICTORIA, B. C., Nov. 7.—A. J. Glove, late of Stanley's exploring expedition, who has been in Alaska for the past

seven years, arrived this evening from an attempt to reach the headwaters of the Alaska river. He located its source about eleven miles northeast of Mt. St. Elias, and has in the expedition demonstrated the fact that the whole of the country east of Schwatka's field of explorations is available for pack horses. He, himself, took and brought back four horses in perfect condition. Previously nothing but manual labor has been employed in the country traversed. He has discovered and taken photographic views of the whole country lying between the North Yukon and the base of the St. Elias Alps, and finds it more suitable for traffic than was ever imagined before. Glove proceeds direct to Washington to ask the United States government for an appropriation to enable him to open up trails next season. His party was composed of himself and a friend named Dalios, it being the smallest party that ever traversed that region. He took 100 photos and discovered enormously rich copper mines.

Denied a Writ of Habeas Corpus.

SAN FRANCISCO, Nov. 7.—John J. Heyer, who is charged with embezzling about \$6000 from a Jersey City real estate firm, and who was arrested in this city a few nights ago, was denied a writ of habeas corpus today and remanded to the custody of the police. An officer is on his way here with extradition papers to take Heyer back.

Chill Will Exhibit.

SANTIAGO, Chili, Nov. 7.—The minister of foreign relations has assured Lieutenant Harlow that the Chilean government will send an exhibit to the world's fair. The minister declared that one of the first measures introduced at the coming session of congress would be a bill asking for a generous appropriation for the purpose of making a handsome display.

Governor Steele's Successor.

GUTHRIE, O. T., Nov. 7.—In accordance with permission received from President Harrison, Governor Steele today turned over the government property to Secretary Marten, and left for the east. Marten will act until the appointment of a new governor. Struble, of Iowa, is frequently referred to here as the coming man.

Crushed Beneath the Wheels.

SPRINGFIELD, Wash., Nov. 7.—Brakeman Lacey Gander was instantly killed at Tyler, eleven miles east of this place, this morning. The upper deck of the cars was very frosty, and the unfortunate brakeman slipped, and in an instant his life was crushed out. Both arms and legs were cut off.

Old Resident Insane.

ROCKFORD, Nov. 7.—Mrs. Hannah Nelson, an old resident of this city, who has been ill of fever for some time, became violently insane yesterday and was taken to the asylum at Medical Lake last night. It is thought that her insanity is but temporary.

The Newark Leaves the Drydock.

BOSTON, Nov. 7.—The United States cruiser Newark was floated out of the drydock at the Charleston navy yard yesterday, only a portion of the proposed repairs having been completed, owing to an order from Washington that the vessel must be ready for sea, November 10.

Montana's Population.

WASHINGTON, Nov. 7.—A bulletin was issued by the census officer today, giving the population statistics of Montana. The population in 1890 was 182,159, against 39,159 in 1880. All the counties in the state show a great increase.

The Grand Ronde Chronicle man wastes the following rhetoric on a man who wanted to Jew him down on the price of his paper: "We met a tub full of liver and bacon waddling down the street yesterday, and it halted us in the rain and said, 'Mac, I have just one dollar in my pocket that I will give you for a copy of your paper one year.' We moved to amend by inserting six months. The hog shook its head, and then Old Three-Per-Cent went grunting in the direction of his sty."

Nobody ever supposed that the state portage road around the Cascades was built as a speculation, or expected it to pay a dividend into the state treasury. If it shall accomplish the object of reducing rates from the interior, it will not matter whether it does any business or not. So long as the people around The Dalles sell their wheat for within 2 cents of the Portland price, neither they nor any one else need care how it gets to market. The Dalles merchants seem to be taking care of the opposition steamboat line.—Oregonian.

The Dalles CHRONICLE has entered into a determined fight against the Union Pacific Railroad, and favors an open river in preference. The CHRONICLE is right, and we hope that it may keep up its kick until it gains its end. If there were more such papers in Oregon the long-suffering people might hope for freedom from all oppressions of this kind.—Harrisburg Courier.

A CHANGE IN CHILL.

A Decidedly More Friendly Feeling Displayed for Americans.

THE COLORADO INDIANS ARE OUT

And are Slaughtering Game Solely for Their Hides.

A REVOLUTION PROMISED SOON.

Unless Mexico Steps in There is a Lively Time Promised for Guatemala—Other Brief Mentions.

VALPARAISO, Nov. 8.—There is a decidedly more friendly feeling here between Americans and Chileans. The Intendente at Valparaiso has addressed an official communication to Capt. Schley, of the United States warship Baltimore, requesting that the sailors attached to that ship who were wounded in the recent riots, be permitted to appear before Judge Foster and give their testimony. In case it is found impossible or inexpedient to have the men appear before the judge in person, he is requested to furnish copies of their depositions, which have already been taken by Captain Schley. The Baltimore's wounded men are rapidly recovering from their hurts. A feeling of extreme cordiality now seems to exist between the Chilean authorities and the United States naval officers, and there are frequent interchanges of courtesies.

Indians on a Rampage.

DENVER, Nov. 7.—Governor Rout today received information from Rout county that the Utes have left the reservation and are roaming through Lily Park and along the White and Yampa rivers, committing depredations and wantonly slaughtering game. It is estimated that during the past month they have killed 3000 deer, mostly does and fawns. The hides alone are taken, the meat being left to rot. If something is not promptly done to drive the marauders back the settlers promise to take the matter into their own hands.

Revolution Promised in a Few Days.

CITY OF MEXICO, Nov. 7.—From dispatches received here it is learned that General Granadas, Colonel Rubio and Vincente Martinez are at the head of a number of dissatisfied Guatemalans on the Guatemala-Mexican frontier, who are preparing for a revolution against President Barillas, of Guatemala. It is asserted that the revolutionists have a force of 1000 men ready, and have received many promises of assistance. They say that unless Mexico interferes, a revolution will break out in a few days.

The Test of Armor Plate.

WASHINGTON, Nov. 7.—The board of naval officers superintending the armor-plate tests at the Indian Head proving-ground yesterday examined the three plates fired at last Saturday. It was the impression that the high carbon nickel plate, made at Bethlehem, showed a better surface and indicated more compact structure by the appearance of shot holes and cracks than any of the others. A series of tests will occur next week.

Prices of Food in Germany.

WASHINGTON, Nov. 7.—The United States consul-general at Berlin, in his report to the state department, making a comparison of prices of food produced in Germany in September, 1891 and 1890, shows an increase during the year of 43 marks in the price of wheat, 59 in rye and nearly 16 in potatoes. The prices during the current year have been higher than any since 1875.

In a Round About Way.
