SUPPORTING MILLS FOR SPEAKER.

The Tariff Question Will Bring him a Strong Backing.

THEY WILL NOT BE MISSED.

An Action Brought to Dissolve the Companies—The Train Broke in Two—Will be a Total Loss.

PITTSBURG, Nov. 24.—The high winds continue but no further damage is reported today. The telegraphic service is still paralyzed. Reports from various sections of the state, indicate the worst blizzard in years. The sunny side school house near Carlisle was blown down and a number of pupils injured, and the teacher having her leg broken. At Coultersville, a few miles above McKeesport a farmer lad named Bailey, about 15 years old, was crushed to death under a falling building.

He Will Support Mills.

WASHINGTON, Nov. 24.—Bynum, of Indiana, comes out with a card withdrawing from the speakership. In his card Bynum says: "I never pressed my candidacy and consented to only use my name until it became evident that the contest was narrowed down between Mills and Crisp.

I shall heartily support Mills. While none of the candidates are strong tariff reformers, none so prominently represents the position of the party on this question as Mills. His defeat would in a great measure be accepted as an abandonment of the tariff issue upon which we must win in 1892, and there should be no semblance of wavering or halting at this critical period."

They Will not be Missed.

CHICAGO, Nov. 24.—Attorney-general Hunt today filed a petition in the circuit court to wind up and dissolve the Chicago Mutual Life Benefit association, and the North American association on the ground that they have been conducting their business in a fraudulent manner and chiefly to pay the salaries of their officials. The Mutual Life has unpaid losses of \$123,000. The North American has liabilities amounting to \$78,700 and assets to the amount of \$18,000.

The Train Broke in Two.

BLAINE, Wash., Nov. 24.—Last evening at the Royal City logging camp a train became detached from the locomotive and rushed down hill crashing into the rear of the tender, knocking it from its trucks and pinning the engineer and two choppers between the cab and the tender. The three men are seriously crushed and mangled.

Will Be a Total Loss.

SAN FRANCISCO, Nov. 24.—The latest advices received from the Southern Pacific collier, *San Pedro*, which went ashore off the Victoria coast state that the vessel had a hole in her side, and it is feared she will be a total loss. There is no insurance on the steamer or cargo of coal. The vessel is valued at \$350,000.

Quiet in China.

SHANGHAI, Nov. 24.—The latest advices from the upper Yang Tse Kiang river, indicate that everything is quiet. There has been no more outrages on foreigners nor are the missionaries apprehensive of further attacks. The negotiations with regard to indemnities are progressing. There is still, however, much unrest in Hunan.

Fonseca's Proclamation.

LONDON, Nov. 23.—A dispatch received from Rio Janeiro says: Fonseca, in a proclamation dated November 21, has

appointed February 29, next, as the day for holding the general elections, and summons congress to assemble May 3. The president says the requirements of the constitution, amended to secure the independence of the judiciary and the executive, provides safeguards for upholding the presidential vote, limiting the prerogatives of congress, enlarging the powers of the executive and reducing the representation. The president insists that decorations and distinctions will be respected. A telegram from Pernambuco says a railway was cut near Rio Janeiro last night and a portion of it removed. It is supposed the work was done by revolutionists. It is reported the insurgents in Rio Grande are fitting up an expedition to capture Desherro, on account of its harbor.

Negotiations between the two parties have practically ended. Both Fonseca and the junta are now preparing with the greatest possible speed for a trial at arms. As cabled Friday, Fonseca sent a force to attempt a landing near Barbeasa, just south of the province of Santa Catherina. Whether the object is to defend Santa Catherina, or make a landing movement from the coast on Pernambuco, is not known. It is claimed that the allegiance of the navy to Fonseca is growing more and more doubtful, and that the dictator himself is alarmed by the evidence of lukewarmness on the part of his naval commanders. He dare not remove any of them for fear of arousing a general mutiny, and on the other hand, the Rio Grande junta is known to have received secret assurances of naval support and sympathy, which is one reason that accounts for the boldness of its attitude.

Two Men Agree to Fight a Very Peculiar Duel.

WAS STOLEN BY GYPSIES.

The Testimony of the Baltimore's Sailors all in.

AN EARTHQUAKE IN JAPAN.

Four Thousand People Killed—Influenza in Europe—The Cruiser Philadelphia Unsafe.

GUTHRIE, I. T., Nov. 23.—Particulars of a strange duel have just reached here from the Cimmaron country near the western border of the territory. A gambler named Basset had a quarrel with a ranchman named Weaver over a game of poker in which the latter accused the former of cheating. Both men drew pistols, but by-standers stopped them before they had a chance to use them. The men were both game and both dead shots. It was decided that a duel was the only thing that would settle the trouble, for it would be sure to be renewed whenever they met. The ordinary duelling code did not satisfy them, and they entered into a peculiar agreement. By its terms they were to withdraw to a room and friends were to load one revolver. A blanket was placed over the table and two revolvers placed under the blanket, one empty and the other loaded. The men came into the room and tossed a dollar for choice of pistols. Weaver won the choice. The terms were that both men should draw the revolvers from under the blanket, aim and fire at the same time. One would be sure to fall dead, while the other would be unharmed. The positions were taken and the revolvers drawn. Basset fired first, or at least he was quickest to snap his gun, which failed to respond, showing that he had received the unloaded pistol. Without flinching, he placed his revolver on the table and folded his arms, calmly looking Weaver in the face. Weaver took his time and deliberately aimed at the center of Basset's forehead. After what must have been an eternity to the latter, Weaver slowly raised the pistol and fired the ball through the ceiling saying that Basset was too brave a man to die and he did not believe he had cheated. The men became fast friends, and all danger of trouble is past as far as they are concerned.

Return of a Boy Stolen by Gypsies.

ERIE, Penn., Nov. 23.—A train brought to Erie tonight a young farmer from Somerset county, who was en route to his home near Ogdensburg, N. Y., whence he was stolen by gypsies when three years of age. The young man, now twenty-two years old, was secured in the way of a transfer from a band of gypsies. He was adopted by George M. Nichols, of Somerset county, and the story of his adoption was published a few days ago in an Elmira paper. A copy fell into the hands of his brother, and he was identified by a birthmark and injury which he had received when a child. The parents of the stolen boy are Mr. and Mrs. John Sapphire, and they live on the old farm from which he was kidnapped.

The Testimony Completed.

VALPARAISO, Nov. 23.—The testimony of the Baltimore's sailors was completed today, with the exception of that of those physically unable to appear. Judge Foster is seemingly impressed with the clearness of the testimony to the fact that Regan was killed by a policeman's bullet, but it cannot be proved whether it was by accident or intentionally. Patric Shields, a fireman, has filed a claim with the United States consul for \$5000 damages for injuries received from the Chilean police.

Result of the Earthquake in Japan.

SAN FRANCISCO, Nov. 23.—The steamer China arrived from Hong Kong and Yokohama this morning bringing details of the great earthquake which occurred in Japan on October 28th. The latest official figures up to November 7th show that 4134 people were killed in the various districts where the earthquake was felt, 6125 injured, 31,472 houses totally demolished, 8157 partly destroyed, 5534 burned and 182,499 people rendered homeless.

The Cruiser Philadelphia is Unsafe.

NEW YORK, Nov. 23.—The *Times* says the metacentric height of the cruiser Philadelphia is so low that she is only prevented from turning bottom up by carrying all the water she can hold in her double-bottom space. Naval Constructor Minton estimates the cost of necessary alterations at \$275,000, and involves a lowering of the protective deck.
