A NEW WAR SHIP.

One of the Most Formidable War Vessels Afloat.

THOUSANDS AT THE LAUNCHING.

Cyrus Field's Condition is Slightly Improved.

THE STEAMSHIP OREGON BURNED.

The Vessel is Almost an Entire Loss—The Prohibitionists Re-organizing.

PHILADELPHIA, Dec. 2.—The United States armored cruiser New York was launched this afternoon from the yard of Cramp ship building company, in the presence of fifteen thousand people, among whom were the secretary of the navy, treasury and interior departments.

Miss Helen Page, daughter of Seaver Page, secretary of the Union League Club of New York, broke the tradition bottle of wine upon the great steel ram of the cruiser as she slid from her wooden cradle into the Delaware river and christened her "New York."

When the New York is finished she will be the most formidable cruiser vessel that floats the stars and stripes and in addition she has the largest and most powerful engine of any steamship ever built outside European ship yards. If the design by her builders is fulfilled there is nothing afloat today of her class that will be able to steam from her or to engage with her with any great hope of victory. The New York will carry a battery of six six-inch breech-loading rifles, twelve four-inch rapid-firing guns, eight six-pounders, four gattling and six torpedo tubes.

Cyrus Field's Condition Improved.
NEW YORK, Dec. 2.—Cyrus W. Field's condition is somewhat improved this morning. Edward Field has not only robbed and deceived his partners, but has stolen every cent his trusted father had. Field realized the fact that he is penniless in his old age and as he lay on his death bed yesterday he said to an old friend: "I am as poor as the day I came into the world."

At noon Doctor Fuller said there was a favorable outlook for his living considerable time with even slight hopes of an ultimate recovery. A friend of the Field family this afternoon said the family has decided to take Edward M. Field's case before the judge and jury at once as they want Field's sanity passed on publicly so it can't be said his insanity is being used as a pretense for saving him from the results of his financial wrong doings.

The Ship is Almost an Entire Loss.
OLYMPIA, Dec. 2.—The steamship Oregon which was burned last night is a sorry sight. This morning nothing is left of the wood-work but the charred timbers. The body of the third cook named Charlie, was found in the ruins burned to a crisp. The captain thinks the fire caught in the galley from paint which was stored there being accidentally ignited. The crew escaped with difficulty but it is thought that not more than one man was burned. Water is still being pumped into the hold.

All the Same Kansas.
PORTLAND, Dec. 2.—A convention of prohibitionists for the purpose of re-organizing the prohibition party in the state was called to order this afternoon. A permanent organization was effected by the election of A. M. Lucas, of Monmouth, as chairman, and J. B. Lober of Portland, secretary. After the appointment of a committee on platform, the convention adjourned until this afternoon.

Made a Big Haul.
PARIS, Texas, Dec. 2.—The through Texas express, which was robbed Monday night at Glendale, Missouri, reached here last night. The express manager, who relieved Messenger Mullen, says that the haul made by the robbers may run up into the hundreds of thousands of dollars.

Foolish Freak of a Sailor.
SAN FRANCISCO, Dec. 1.—Fred Jones, a young Englishman, deserted his ship last night by jumping into the bay, having first pushed a ladder overboard and a pine plank on which he expected to swim to the city. After floating about in the dark for three hours, and narrowly escaping death by passing steamers, he was picked up by a fisherman. Jones was somewhat drunk, even after his trip.

A Man Kicked to Death.
SAN FRANCISCO, Dec. 1.—Alfred Sparke, an upholsterer, was kicked and beaten about the face and head last night, and sustained injuries from which he died twelve minutes later. The punishment was inflicted by William Flaws, a cook in the employ of John Fisher, a restaurant-keeper on Third street. Flaws was arrested, charged with murder. The men were intoxicated and quarreled over a dice game.

Victims of the Explosion.
LONDON, Dec. 1.—Efforts to recover the bodies of those killed in the gas explosion in Blackburn market yesterday are being pushed as rapidly as possible. Already four bodies are recovered, and it is certain a large number are still in the ruins. People who were injured are progressing favorably.

Divided on the Reciprocity Treaty.
CITY OF MEXICO, Nov. 30.—Regulations relative to the free-zone frontier will remain in force, as they are necessary for the welfare of the Mexican frontier towns. Natives are equally divided on the reciprocity question. German, English and French merchants, who are in the majority oppose it.

WILL NOT APOLOGIZE.

The Chilean Government Still Maintains a Defiant Stand.

AN ARMY ON A FURLOUGH.

Parnell's Brother Will Try and Settle the Irish Question.

THINK THE VESSEL IS LOST.

A Ship Nearly Eight Months Out From Scotland—Died From the Effects of Smoking a Pipe.

VALPARAISO, Dec. 1.—The United States ship Yorktown arrived here yesterday. Her crew received a royal welcome from the men of the Baltimore, which will in all likelihood sail for the north. The intendente of Valparaiso has requested Captain Schley to furnish the evidence of the Baltimore's surgeons in regard to the nature of boatswain's mate Riggins' wounds, to aid in determining whether the latter's wounds were caused by a pistol or a rifle bullet. Rifles are carried by Chilean police. The Chilean doctor who attended Riggins swears his death was caused by a revolver bullet. Notwithstanding this there is a silent witness to the contrary in the hole made in the shirt and necktie of the Baltimore's sailor, who was holding Riggins in his arms after Riggins was stabbed. This hole was made by a rifle bullet of 42-caliber, and proves conclusively the shot was fired by the police. This is sustained by the evidence of the Baltimore's surgeon, who measured the bullet wound.

In the course of conversation with British Minister Kennedy today, he said he regretted the attacks made in some Chilean papers, and by Thompson in the London Times, on American Minister Egan. Kennedy added that when Minister Egan's conduct became thoroughly understood the opinion of the world would be considerably altered in regard to it. Thompson, since his arrival here, has attacked Egan on the strength of information from irresponsible sources. He might have secured reliable information by calling upon Minister Kennedy, but never took that trouble.

A Chilean official said today his government has no intention of making an apology or paying indemnity as suggested by the United States. The attitude of the whole government is still defiant. No steps have yet been taken to cut down the army or navy, and even the volunteers sent home were instructed to retain their arms.

Parnell's Brother has a Mission.
NEW YORK, Dec. 1.—John Howard Parnell, eldest brother of the late Irish leader, arrived from the South yesterday on his way to Ireland. He will be accompanied by his mother. Parnell's mission to Ireland is one which is destined to bring him into much prominence. As head of the Parnell family he is desirous of bringing to an end the factional spirit which relies upon his brother's name for its existence. It is his purpose to open a negotiation for the reunion of all the Irish members under the leadership of William O'Brien or some other equally acceptable man.

A Vessel Thought to be Lost.
SAN FRANCISCO, Dec. 1.—It is feared here that the new iron ship Josephine Troop, which left Glasgow 232 days ago for San Francisco with a cargo of Scotch splint coal, has been lost at sea. The length of time that has elapsed since she left Glasgow, taken into consideration with the inflammatory cargo she carried, and the fact that four vessels with similar cargoes and bound from the same port to San Francisco have been burned at sea within the year, leads to the belief that she has succumbed to the ravages of fire.

Died From Smoking a Pipe.
PITTSBURG, Pa., Dec. 1.—Mrs. Mary McVay, of Braddock, died yesterday after having voluntarily fasted 150 days. She was nearly 70 years old, and had for six months been suffering from cancer of the lower jaw, and had refused all food and drink except buttermilk. She incurred the cancer as the result of smoking a pipe, which she did inveterately for forty-five years. Through the habit of holding the pipe for hours in the same position between her teeth, she allowed the nicotine to drip upon the same spot in her cheek.

A Slight Not Intended.
ROME, Dec. 1.—It is reported that Count Kaloky has explained to Count Nigra, the Italian ambassador, that in a recent speech in the Austrian delegation he did not intend to allude to the integrity of Rome, but simply expressed a wish for cordial relations between the Vatican and quinal, so as to dispel the international anxiety.
