. Affairs at Nosth Dallos.

The arrival of Sheriff Stimpson at North Dalles at 3 o'clock this morning found everything quiet at the factory. Mr. Stimpson knocked at the door, but meeting with no response he came across the river and waited till 7 o'clock, when he returned and found ihe factory deserted. The sheriff then put J. S. Woodruff back in his old charge as caretaker. Meanwhile Mr. Stimpson had ordered the captain of the Regulator not to load the machinery that had been hauled to the wharf boat at the Rockland landing yesterday. Sheriff Stimpson is now in possession of the whole machinery by virtue of the attachment in favor of Hugh Glenn and the part removed to the wharfboat will be put back in the morning unless sestlement is made and the attachment dissolved by due order of the court. It is amusing to recall the after January 1, 1892. J. M. Today it is rumored that his honor has issued

eleven warrants for arrest for unlawful assembly or something of that kind, and this number is supposed to cover all inside and outside except the CHRONICLE representative, who was merely there to record history while it was in process of manufacture. It is believed that the claim of Mr. Glenn against the machinery will be settled before many hours. Kingsley Items.

The only trouble the society has had to contend Dr. W. L. Vanderpool of Dufur was in with is the occasional rudeness of the "hobo" element, but hopes are entertained that this will not be repeated. #### A Preventive for Croup.

We want every mother fo know that croup can be prevented. True croup never appears without a warning. The first symptom is hoarseness; then the child appears to have taken a cold or a cold may have accompanied the hoarse-ness from the start. After that a pecul-iar rough cough is developed, which is followed by the croup. The time to act is when the child first becomes hearse; a few deses of Chamberlain's Cough Remedy will prevent the attack.
