### LOCAL BREVITIES.

Baker City has organized a young men's republican club.

W. E. Sylvester started this morning to build himself a residence on his lot on Fourth street.

J. F. Hampshire went down to Portland yesterday morning where he will remain till the New Year attending to office work at the other end of the boat line.

The secretary of the North Pacific Trunk Factory has issued a call for a meeting to be held on the 2nd of January next to elect officers for the coming year.

Robert Mays, jr., arrived today on the noon passenger from San Francisco where he has been attending the university. He will remain till after the holidays.

Jacobson & Co. will have their show windows filled tonight with steam toys all in running order. It will be well worth your while to visit the store and have a look at them.

Senator Blackman of Hepper passed through the city today on his way home. He went down to Portland yesterday taking with him Phil Heppner who is suffering from typhoid fever and whom he placed in the good Samaritan hospital.

The usual quarterly meeting services will be held tomorrow in the brick school house as follows: Lovefeast 10 a. m. Preaching 11 a. m. by Rev. R. C. Moler followed by the sacrament. Rev. Moler will preach in the Court house at 7 p. m.

Read and do not fail to do it, for it is money in your pocket. E. Jacobson & Co.'s ad in holidays issue. They are selling their complete holiday stock at the lowest possible prices. Go and see their large display, for visitors are always welcome.

A bet has been made between Jake Craft, Joel Koontz and Pap Chandler to run a foot race for a turkey on Christmas morning. The turkey will be set on a barrel in the middle of the street opposite the Columbia Packing Company's market and the race will start from the Grange store. The man who gets there first gets the turkey. The race must be run in the middle of the street, mud or frost.

A representative of the CHRONICLE called today at the office of W. J. Roberts, civil engineer, and was shown some new instruments he had just received from Boston. The first was a temple transit with a seven-and-a-half-inch horizontal circle, graduated on silver to fifteen minutes of arc, and reading to fifteen seconds by double verniers with microscope attachment. It also has a six-inch vertical arc reading to 15 seconds, a long bubble for leveling attached to a telescope of high power, a five-inch magnetic needle, and with gradient and tangent screws is very complete. The other instrument was a seventeen-inch wye level of Buff & Berger's make, designed for very nice work. These instruments are adapted for use on engineering works of large magnitude, such as canals, tunnels, long span bridges, etc. They are interesting objects in their intricate make-up and will

be very useful to Mr. Roberts in his profession. With these instruments Mr. Roberts is fully equipped to do anything and everything in the line of civil engineering.

And now John Booth, the leading grocer, steps to the front and says he will give a box of fine French candy with every pound of tea purchased and he claims to have the choicest selection of teas in the city.

They know how to tax people over in Washington. The property of Winans Brothers, who simply own a couple of fish wheels and some river front near Big Eddy is assessed at \$23,000. The same property if in Oregon would be assessed at about \$3000.

H. Herbring calls special attention to his holiday goods in the line of ladies and gent's silk handkerchiefs, silk mufflers, silk windsof scarfs and fishes, gent's ties and scarfs, kid gloves, fascinators, silk mittens, muffs, jackets, silk umbrellas, tidies, table covers, fancy felt slippers, embroidered slippers and other useful and ornamental articles too numerous to mention. Mr. Herbring's taste in selecting goods is proverbial and his prices are always reasonable.

This forenoon one of the workmen employed digging the trench for the water main on Second street caught a service pipe on the end of his pick and wrenched it from its connection with the main. The result can be easily imagined. A stream of water rose high in the air which threatened for a time to deluge that end of the town. At the suggestion of a citizen one of the workmen drove a small plug of wood into the hole when the rush of water was effectually stopped.

About midnight last night, and after A. C. Sanford had gone to bed, some one was heard softly ascending the back steps and laying his hand on the door knob turn it in the lock. Mr. Sanford, who was awake called out, "Who is there?" but the would-be intruder beat a hasty retreat knocking down a number of household articles that came in his way. If the intruder was in search of money, Mr. Sanford says he called at the wrong place but that gentleman keeps a gun and he proposes to point it in a direction where it will do the most good next time he is visited in a similar manner.

The property of the North Dalles shoe factory is still in the hands of the sheriff and will likely remain there till the question in dispute has been settled in the courts. It may not be generally known that the shoe and leather company made a trust deed of the property to J. M. Arthur and T. F. Osborn of Portland, and N. Wheelon of this city. The deed was to secure the fulfillment of the contract on the part of the shoe company and to secure the subsidisers. The trustees claim the contract has not been fulfilled and refuse to recognize the bill of sale given to Mr. Wright by the shoe and leather company. This explains Mr. Wheelon's connection with the matter. He claims the property by virtue of the trust deed as one of and on behalf of the trustees.

**Humason is in The Dalles.**  
The Portland Telegram of the 15th has an article about a man named Frank B. Humason, a member of the Salvation Army who, it says has been missing since the 2nd of October and who, it is feared, has been foully dealt with. The friends of Humason are informed that he is in this city where he has been for some two months, employed most of the time as a deck hand on the Regulator. After he left Portland he went to Vancouver where he was taken sick and remained under the weather for a short time. On his recovery he engaged to work on the Regulator where he remained up till the 17th. Humason is well and may be found at the Cosmopolitan hotel in this city.

**Sadder But Wiser Men.**  
**Editor of the Chronicle:**  
The gallant fifteen headed by that all-round rascal B. F. Durphy "who marched them up the hill and marched them down again," have doubtless come to the conclusion by this time that there are other sections of this country where men are grown who are not to be frightened at the hooting of owls. It was amusing as well as instructive to note how hastily those men came to the conclusion that the climate was more invigorating on the Oregon side of the river. As an object lesson it teaches "Never bite off more than you can chew" comfortably.  
LOOKER ON.

The money lender protects himself against free coinage of silver by stipulating for payment in gold, but the laborer has never been able to do that, is one of Harrison's epigrams, says the Astorian. Another epigram reads: "In foreign trade the stamp gives no added value to the bullion contained in coins."

**A Preventive for Croup.**  
We want every mother to know that croup can be prevented. True croup never appears without a warning. The first symptom is hoarseness; then the child appears to have taken a cold or a cold may have accompanied the hoarseness from the start. After that a peculiar rough cough is developed, which is followed by the croup. The time to act is when the child first becomes hoarse; a few doses of Chamberlain's Cough Remedy will prevent the attack. Even after a rough cough has appeared the disease may be prevented by using this remedy as directed. It has never been known to fail. 25 cent, 50 cent and \$1 bottles for sale by Snipes & Kinersly, druggists. d.w
