Petitions are out for a new grade up Tygh Hill. New petitions have been rendered necessary because the time for opening the road under the last petition and survey has elapsed and the work will all have to be done over again.

The sooner the town begins to encourage industries instead of discouraging them as is done now by those old-second-time-on-earth fellows, you'll have a prosperous town, and not until then.

The Brother Smiled.

THE DALLES, Feb. 1, 1892.

Editor Chronicle: I smiled, yes, I laughed right out right aloud at 'The Graundest Opportunity of a Lifetime' recently offered the public-spirited men(?) of this town to purchase a \$2400 shoe plant for \$12,000.

The country is full of the financial wrecks of butchers, bakers and candlestick makers, who have formed stock companies, so that they might obtain the proud distinction of having a shoe factory in their town, preferring it to a seat in heaven, and who at the end of their first season's work find that their balance sheet stands something like this. Money—none; experience—dead loads.

There is not a shoe factory in this country today, where the stockholders are entirely ignorant of the business and depending solely upon their brains for their success.
