> The Hood River Democratic Club. HOOD RIVER, Jan. 20, 1891.

The democratic club of Hood River in a special session held Jan. 30, 1892, uranimously appointed the undersigned committee to draft the appended resolutions, expressive of their views and wishes in connection with the present status of democratic affairs in The Dalles, and the immediate requirements of our party in Wasco county:

Resolved, First, That early, efficient, organized democratic clubs in the various precincts of Wasco county are very desirable, and to further this end we earnestly desire the chairman of the Wasco county democratic committee to be of unquestionable integrity and business sagacity.

Second, That the main hopes of complete success depends on our getting in our ranks those elements (hitherto almost neglected) comprising the young voters and business men.

Third, That the powers that be, to the best of our knowledge and belief, are al-

lied with mere office seekers. Fourth, That this club, from its numerical strength and standing will cer-tainly make itself felt in the future councils and conduct of the democratic

councils and conduct of the democratic party of Wasco county.

Fifth, That in Mr. Maier, of The Dalles, there exists elements of unexceptional strength as chairman of the democratic county committee of Wasco county, and in him will be united everything which tends towards democratic success in the coming campaign.

Sixth, That the Hood River Democratic club unanimously endorses Mr. Maier, and earnestly requests the best efforts of every lover of pure democracy in The Dalles towards the election of Mr. Maier as chairman of the Wasco County Democratic committee. County Democratic committee. C. S. STOWELL,

C. PAYTON, M. V. HARRISON. Comm.

C. G. ROBERTS, Pres. GEO. T. PRATHER,

The Governor Should Call the Legislature.

The Salem Journal says: "There is a harmonious relation between the governor and the legislature on the subject of a portage railway. Both are committed to it. It was recommended by him and passed one house, and was defeated in the other; not upon its merits, but as a mere by-play of politics. If the Frank Gabel, the well known sheep same legislature were called together, it could in two weeks provide for a portage railway at The Dalles. The people of A train of fifteen cars of cattle passed Eastern Oregon are entitled to it for the through the city today on its way to marketing of their present and their next harvest. ### DIED.

In this city this forenoon, at the residence of her son-in-law, George W. Stewart, after an illness of about a week,

Fresh smelt and saurkraut at W.

A sailor on a coasting vessel which plies between Galveston and ports on the gulf has some very interesting specimens which he secured while on the coast of Yucatan. Among them is a large jamfilled with enormous spiders, which he says are looked upon with greatest fear by the Indians of the cenmentioned. Now, you are invited to the tral portion of that country, and which

are undoubtedly the largest ever seen.

The body of the spider is fully five inches in diameter and the legs are short and thick, being especially adapted to running and climbing. They are about two inches long and are as big around as an ordinary lead pencil. The animal is of a grayish brown color, but is most peculiarly marked by deep red bands, which cross its body, extending clear around diagonally from shoulder to hip, crossing each other at the middle

of the back and the center of the belly. The fierceness of the insect and the marking on the back have induced the Indians to name it the "Devil's Soldier." and they say that it is undoubtedly the worst foe to man in that whole country, making it almost impossible for any one to go into the interior, for it abounds in such numbers that no place is free from

it, and its bite is certain death. Only one instance is known to Indians where a man has been bitten and 'did not die, and this man was wildly insane ever afterward. The spider makes its home among the rocks, and when anything approaches it rushes boldly out and makes an attack so fiercely that it is almost impossible to escape it. It runs with great rapidity and climbs sticks and trees as easily as if it were on the ground.—Atlanta Constitution.

Many Pretty Bed Coverings,

There are, and probably always will be, many who prefer the all white bed. and for these many pretty bed coverings are provided. Linen shams, with borders of elaborate drawn work, are used with plain white Marseilles spreads. Antique lace of firm, fine texture is always suitable and makes a dressy bed, used either over white or some delicate color. The figured China and India silks used during the last year or two are also still in favor for bed and bolster coverings, but a newer material for this purpose is the Hollywood sheeting, a fancy double width material of soft, cream-white cotton, whose rough surface is exceedingly effective when wrought with the simple showy patterns employed for this work.

A very handsome one designed for a white and gold guestchamber has a conventional pattern scattered over it. worked in shades of yellow and brown. The pattern is first outlined with a long chain stitch, the leaves and shadings marked, then the intervening spaces filled with a simple filling stitch, which is very rapidly done and is yet exceedingly showy. The spread extends over
