LOCAL BRIEVITIES.

D. C. Ireland of Portland, is in the city. Capt. Wilson of the steamer Regulator, arrived up on the noon train today. It is currently reported on the streets of this city that Senator Hilton is a candidate for congress. The farmers are as busy as can be plowing up new ground and putting old in condition for sowing. The police judge reports everything quiet in his department, which the tax payers will be rejoiced to learn. Mrs. A. Jones had a grand opening dinner today at her new place under the Union street lodging house next door to Byrne & Floyd's drug store. James Couch a Chicago pioneer aged 92 years, owner of the well known Tremont House was run over by a truck on the 10th inst., while alighting from a street car and was fatally injured. J. W. Messinger, a well known farmer of Sherman county, and prominent leader in the Grange, and Alliance, and in every movement intended to benefit the producing class, paid the city a visit today. We have had the pleasure of a visit from Mr. James S. Brown who together with Mr. Albert Weaver has lately arrived from Georgia and taken up land on the Wapinitia Flat. The CHRONICLE heartily welcomes these gentlemen to Wasco county. E. Jacobsen & Company have a really excellent domestic cigar, called the "Granger," put up expressly for the firm with twenty-five in a box which they sell retail at the low price of five cents each. It is undoubtedly the best five cent cigar in the market. Representative Wilson of Washington wants a new state carved out of the Northwest. His idea is to create a state out of the eastern half of Washington and the northern half of Idaho with Spokane as the capital. The new state would be as large as Idaho and include some of the finest agricultural land in the Northwest. Keely and Dubois of Dry Hollow offer for sale about 35 head of good grade roan Durham cattle. The cattle are all genuine and about a dozen cows have been broken to milk. The band consist of from yearlings up—no old cattle. They will be sold all together or single as may suit the purchaser. They are an extra good lot of gentle cattle and will be sold at reasonable prices and on good terms.

The weather is perfectly delightful and the mercury is reveling in the sixties. Several of our lady friends were out on a walk in the suburbs of the city yesterday and surprised themselves by finding three varieties of wild flowers, the Golden Star, Sisyrinchium and Erigeron in full bloom. What locality can equal this in latitude 45° 38' 18" north. Our farmers are busy with the plow and gardeners in preparing and planting. The great Adelaide Patti concert takes place in Portland on Friday the 26th, and the price of a seat at the entertainment is fixed at \$10.00 each. All down stairs and six rows up stairs, are selected as the choice ones. No seats will be sold until the 18th, when undoubtedly there will be a rush. Ten dollars for two hours pleasure is rather steep, but facinations in that line catch. The management will clean up not less than a clear \$10,000. The band boys gave a street parade at 4:15 this afternoon, dressed in linen dusters and jockey caps, with "Darkey Jim" bearing the band boy's Concert banner. J. C. Stewart will act as drum major, supporting, as best he can, a Cleveland plug hat, kindly loaned for the occasion by that prince of genial young bachelors William McCrum. Dan Lewis has loaned McCrum his Indian blanket to keep his head warm while Stewart is using the hat. Dr. True and his grand aggregation of cracked windpipes and decayed teeth will forego the pleasure of humbugging the people for the night, but not for the purpose of "assisting" the hand boys, it should be distinctly understood that the report that this is the case is a fake, a misrepresentation. Miss Mason's soiree is postponed till tomorrow night, and thus the way is clear for the band boy's benefit concert, with the only Dan Lewis as Star, and Professor Alexander in his wonderful prestidigitational feats.

Demorest Contest. As some of the Contestants have asked for longer time for preparation, it has deemed best to postpone the contest for a short time. There will be further notice of time and place given in a few days.

Advertised Letters. Following is the list of letters remaining in the postoffice at The Dalles notified for Friday, February 12, 1892. T. NOLAN, P. M.

Steamboats Collided. Wednesday night last the steamer R. R. Thompson, in attempting to cross the bow of the steamer Astorian, at a place on the Columbia known as Coffin's point, ran into the Astorian, tearing out the port deck and knocking in the guard. Fortunately the damage was such as no leak was sustained and both boats proceeded on their respective ways. The Astorian plies between Astoria and Portland and is run in opposition to the Union Pacific steamers. A great deal of bitter feeling is said to exist between the two companies and this is indulged in by the officers. The officers of the Astorian claim that it was not an accident but an attempt to sink their boat, and rid the field of a dangerous rival.

Republican Club. A number of persons met last evening in the county court room, pursuant to a call, for the purpose of organizing a young men's republican club. The meeting having been called to order by T. A. Hudson, B. S. Huntington was unanimously chosen temporary chairman. On taking the chair Mr. Huntington said he had had no intimation previous to entering the room that he would be asked to fill the chair, but he would just say that a club such as it was proposed to organize was just the place where such difficulties as frequently arise at the beginning of a campaign can be removed. T. A. Hudson was the chosen temporary secretary. The following constitution and by-laws were then adopted:

ARTICLE I. Section 1. The name of this club shall be known as the Young Men's McKinley Club of The Dalles. Sec. 2. The object of the club shall be the promulgation of republican principles and the triumph of the party at the coming county state and National election.

ARTICLE II. All republican electors of Dalles City or Wasco county shall be eligible by signing the roster and the payment of one dollar.

ARTICLE III. The officers of this club shall be a president, vice president, secretary and sergeant-at-arms, who shall hold office for one year, or until their successors are elected and qualified.

ARTICLE IV. Their duties shall be those generally understood to pertain to those offices in similar organizations.

ARTICLE V. There shall be appointed by the president an executive, or ways and means committee to consist of three members of the club, also a committee of three on membership.

ARTICLE VI. The meetings of this club shall be held at such time and place as shall be designated by the executive committee.

ARTICLE VII. Special meetings may be called by the president and secretary or on the request of five members in good standing, notice of which shall be given by the secretary or in one or more of the daily papers.

ARTICLE VIII. The dues shall be fifty cents per month and such other dues or assessments as the club shall deem necessary.

ARTICLE IX. Seven members shall constitute a quorum for the transaction of ordinary business, but the levying of an assessment shall require a majority of members in good standing whose dues are paid up.

ARTICLE X. Any alteration or additions in these by-laws may be made by a majority of those present by giving notice in writing at a previous meeting.

After a recess, during which forty one persons signed the roster the following gentlemen were unanimously elected permanent officers: B. S. Huntington, president; M. A. Moody, vice president; Thomas A. Hudson, secretary; G. Y. Bolton, treasurer, and Thomas Joles sergeant-at arms.

The club was then addressed by Mr. W. McCannont a young lawyer from Portland who is here attending circuit court. Those who missed Mr. McCannont's speech missed one of the ablest efforts in the line of political oratory The Dalles people have been treated to for many a day. At the close a very hearty vote of thanks was tendered to the speaker.

The chairman then appointed C. L. Phillips, M. T. Nolan and G. J. Farley as the executive committee and L. E. Crowe, T. E. Bronson and J. E. Barnett committee on membership.

A motion to adjourn then closed a meeting that was said to be the largest of the kind seen in this city for the past ten years.

Miss Clara B. Story will instruct a limited number of pupils in oil painting, water colors, crayon, charcoal and pastelle work and China painting. Studio, room 3, over McInerney's dry goods store. 2-3-14

Queer Theory About Insanity. "There is something in the atmospheric conditions that develops insanity and murderous impulses," said a student of human nature. "That is my theory. It is like the grip and other diseases that prevail at certain times and under certain conditions. There are all sorts of diseases and impulses in people, and it only needs the conditions to develop them. Insanity is a peculiar disease, and to a greater or less degree exists in a pretty large proportion of mankind. In most cases it is shown in a harmless idiosyncrasy and excites no more comment than mild ridicule, but in many cases it has a homicidal tendency that is suddenly and unexpectedly developed. Can this be through natural and general causes or is it imitation that produces these mind waves? I believe it is the former—that general causes similar to the conditions that produce the grip wave, the cholera wave, the horse distemper wave or any other disease of a season also tend to unbalance the badly balanced mind."—New York Herald.

Princes Who Cannot Borrow. In regard to the Prussian royal family there is an excellent law, which, had it existed here, would have saved us much money. No royal prince is allowed to borrow, and no one is allowed to lend money to him. If any one does lend he cannot recover. Acting on this law, Frederick the Great never repaid any Prussian who had lent him money when he was heir to the throne, for he deemed that such a person had not only violated the law, but ought to lose his money for having done an improper action. Were one of our princes to borrow money, and an application to be made to parliament to repay it, the strong probability is that the house of commons would follow the example of Frederick the Great. I would indeed go further. I would inflict a heavy fine on any one asking to be repaid by parliament and on any minister asking for a vote for any such purpose.—London Truth.

The Antiquity of Wheat. The Chinese cultivated wheat 2,700 years before the beginning of the Christian era, always considering it as a gift direct from heaven. Scientific agriculturists are of the opinion that it was widely known and cultivated by prehistoric man. At the present time it is the principal bread corn of the leading European nations, and is fast supplanting the use of maize, or Indian corn, in the American states. The Egyptians attributed its origin to Isis, and the Greeks to Ceres.—Exchange.

Little Girl—Why, when Dickie White and Johnny Brown called off sides for th' spellin match Friday Dick chose Nellie de Pretti the first one, an she's the worst speller in school.—Good News.

Children Cry for Pitcher's Castoria. When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

They Speak From Experience. "We know from experience in the use of Chamberlain's Cough Remedy that it will prevent croup," says Messrs. Gadberr & Worley, Percy, Iowa. They also add that the remedy has given great satisfaction in this vicinity, and that they believe it to be the best in the market for throat and lung diseases. For sale by Blakeley & Houghton, druggists.

Examination of Teachers. Notice is hereby given that for the purpose of making an examination of all persons who may offer themselves as candidates for teachers of the schools of this county, the county school superintendent thereof will hold a public examination at his office in The Dalles, beginning Wednesday, February 10th, one o'clock p. m. All teachers eligible for State Certificates, State Diplomas and Life Diplomas must make application at the quarterly examinations. Dated this 1st day of February 1892. TROY SHELLEY, County School Superintendent of Wasco County, Oregon. 2-1-2-12

La Grippe! The tendency of this disease toward pneumonia is what makes it dangerous, La Grippe requires precisely the same treatment as a severe cold. Chamberlain's Cough Remedy is famous for its cures of severe colds. This Remedy effectually counteracts the tendency of the disease to result in pneumonia, provided that proper care be taken to avoid exposure when recovering from the attack. Careful inquiry among the many thousands who have used this remedy during the epidemics of the past two years has failed to discover a single case that has not recovered or that has resulted in pneumonia. 25 cent, 50 cent and \$1 bottles for sale by Blakeley & Houghton, druggists. daw
