We have been informed more than once that certain wire working politicions in Sherman county are laying plans for the nomination of Hon. E. O. Me-Coy for the joint senatorship of Wasco, Sherman and Gilliam counties. The report of course may not be true. It is hard to conceive that it can be, but the bare possibility of such an event ought to be sufficient to wake up the recollections of the Sherman county farmers to the fact that to E.O. McCoy, more than to any man living, they owe it that their county is still shut up to the tender mercies of the railroad company as regards transportation connection with Portland and the lower river. If Sherman county republicans are so lost to their own interests as to put up Mr.

Gentlemen mon \$3.00. electors of Sherman county, the Chroicle gives you this as a pointer to which you will do well to take heed. The nomination of Mr. McCoy will only prove clutches of the railroad company till the crack of doom. The Chronicle makes this statement without the shadow of a personal feeling toward Mr. McCoy. It is a matter of deep regret with this Journal that a solem serve of dots. Journal that a solem sense of duty compells it to condemn the official record of a man whose private and social life has deservedly won him many warm personal friends. As a servant of the people Mr. McCoy has been weighed in the balance and found wanting.

The bullion value of the United States silver dollar is today worth sixty-nine cents the lowest point, we believe, it has ever reached. The value of silver has always been fluctuating and unstable. This is history not theory. By the law of Menes, King of Egypt the value of gold was fixed at two and one-half times that of silver. In the times of Solomon it was so abundant as to accounted as it was so abundant as to accounted as nothing, and in Ecbatana the tiles on the roof of temples were of solid silver. In the fifth century the ratio of gold was six to eight times that of silver. In Greece in Plato's time it was ten to one. bring out the power of the hazel rod. During the middle ages and down to the sixteenth century the ratio was ten to thirteen to one. The discovery of silver mines brought down the ratio to sixteen to one and since 1873 the product of silver has doubled and the actual ratio of silver is now only twenty-two to 1 of gold. Throw open our mints to free coinage and what with our own annual product and the absorption of the world's surplus siiver will descend still lower till the country is reduced to an absolute silver basis and every dollar of gold driven out of it.

A few proper plan for spending that sum, in a way that will do the most good-to the railroad company-is to allow an army of dude clerks to draw as much of it as possible until the high water comes in the summer and then devote what is left to pumping the water out of the canal. The Chronicle offers this died on the 30th of June last in Pau, suggestion to the "Majah." Now see if he does not adopt it.

He Locates Oil Wells in His Dreams. Butler county has an "oil smeller" who can give points to persons who Some months ago Cunningham & Co. were drilling a well on the farm of Ira Stauffer. One night while the well was drilling Casper Keichner, a crippled jeweler of Zelienople, dreamed that the well was dry, and in the same vision he saw a spot on the farm of John Shriver. near the Stauffer farm, whore a well was flowing 1,000 barrels per day.

Keichner related his dream to Cunningham & Co., but a smile was all he got for his trouble. When the well on the Stauffer farm was completed it was a first class duster. In their adversity the owners of the well went to Keichner and asked him to show them the spot on the Shriver farm where in his dream he had seen the coveted 1,000 barrel well. weeks ago the pay streak was reached, the well actually flowed 1,000 barrels a day and the place is the richest oil farm in Butler county today.—Pittsburg Cor.
