### HEARINGS ARE CLOSED

The Board of Engineers Dressed Down to a Fine Point.

COMBATED BY MR. HERMANN.

Effort to Leave out an Important Oregon Appropriation.

THE COQUILLE CASE RECALLED.

Mr. Hermann Shows That the Board of Engineers are not Infallible—Oregon all Right.

WASHINGTON, March 14.—It is now known that further hearings, from delegates sent to the capital to urge this or that appropriation, before the committee of the house on great waterways projects, is closed. The first practical consideration of the bill by the committee was held on Saturday. Of course the public are not advised of what occurred, but enough is known to give Oregonians in Washington to understand that the most important parts relating to the Columbia river are preserved. Representative Hermann has contested every point in the interest of Oregon, inch by inch, and one of the committee has said to an Oregonian that "Oregon is all right." It has leaked out that he rather sharply criticized the board of engineers Saturday, when the committee proposed to leave out the appropriation for the Siuslaw, upon an estimate that the project would require at least \$300,000. As such a large sum could not pass congress where the commerce is so limited as at Siuslaw, the committee thought best upon the engineers showing to reject Siuslaw entirely. This brought out a most earnest protest from Mr. Hermann, and a long discussion followed. Mr. Hermann, with much feeling, antagonized the engineer's conclusions and demonstrated how in the case of the Coquille river in Oregon, a larger waterway and more difficult to control at its entrance, only \$10,000 was first appropriated, and that this sum not only purchased the plant but extended the work toward the sea in spite of the engineer's report, and that for three different congresses no appropriation exceeded \$10,000. He also cited the reports to show the remarkable results at once obtained. He criticized the engineers for their unnecessary estimates, which in many ways acted as a discrimination; and, when brought up in congress, produced a prejudice against the Siuslaw. He demanded fair treatment for all, and after his argument was concluded, on motion of Gen. Catchings, of Mississippi, the action of the committee was reconsidered and Siuslaw was retained for continued appropriation. It is a victory to retain it in the bill.

### OH On Troubled Waters.

WASHINGTON, March 14.—Senator Sherman expressed himself Saturday in a private conversation on the Behring sea controversy. As he is chairman of the senate committee on foreign relations his views may be taken as oil to soothe the troubled waters. He says: "I regard the treaty now pending with the highest favor. It is an example of arbitration, which ought to be adopted in controversy with two countries bound by so many ties as Great Britain and the United States. War or even contention between them for a cause so trivial as one year's fishing for seals would be a crime against civilization. Manifestly, it is the interest and desire of each to preserve the Alaskan seal fisheries from destruction by Canadian poachers. The cupidity of a few vessel-owners, pending arbitration, threatens to disturb the peace and amity of two great nations. Diplomacy ought to be able to provide some modus vivendi during the present season. It may be unpleasant and ungracious for Great Britain to resist by her ships and sailors the reckless acts of a few of her subjects, for whose conduct Lord Salisbury disclaims any responsibility, but we are under no such restraint and are able to prevent such poaching on the rights that we purchased of Russia, and which Russia and the United States have openly asserted and enjoyed for 100 years."

### Circuit Judges to be Confirmed.

WASHINGTON, March 14.—It is thought that Senator Hoar, chairman of the judiciary committee of the senate, will be well enough to attend a meeting of

his committee today, at which time they are to take up the nomination of the circuit judges, made some time ago, and probably act one way or the other upon them. There is no opposition of any moment to any of the judges except Judge Woods, of Indiana. The opposition to him is mostly of a partisan stripe, although it is said that some very serious charges have been filed, of which the republican members feel the necessity of taking some notice. There is some opposition manifested to Judge McCormick, of Texas, but it is not serious enough to affect the action of the committee. There is no doubt of the quick confirmation of W. B. Gilbert, of the ninth.

### Telegraphic Flashes.

Two years ago A. B. Gillespie, the postmaster at Rock Creek, Wyoming, almost murdered a man who criticised his service. Saturday C. B. Griffin, a waterworks employe, complained because Gillespie refused to hand out his family mail to him. Griffin was ordered out of the place, but before he reached the door his head was smashed in by the postmaster with an iron bludgeon. Gillespie is in jail, and two surgeons are working over his victim.

The mine horror near Brussels was augmented by fire on Saturday, and all hope of rescuing the imprisoned miners has been abandoned. The fire shot through the shaft in an immense column, with tremendous roar, illuminating the country around for a great distance, and destroying surrounding buildings by the heat which soon spread into a consuming conflagration. All the heavy machinery at the mouth of the pit was destroyed, and fell crashing down the shaft.

Colonel A. K. McClure, of the Philadelphia Times, in a conversation in Charleston, S. C., says Hill cannot be nominated. If he were, every Northern state would help to defeat him. He would have the largest majority against him in New York of any state. The only possible achievement of the Hill movement is to defeat Cleveland, and even that might not be successful.

Suit has been filed in New Orleans on behalf of the heirs of one of the Italian Mafia, who assassinated Chief of Police Henessey, against W. O. Parkinson and others, claiming damages of \$100,000, for killing one of the brigands in the Frish prison a year ago. This is a specimen of Italian Mafia modesty. They should ask more.

Secretary Blaine's condition is so precarious that many of his best friends admit that he must soon retire from the cabinet. As soon as he is able to travel he will go south, and remain until the season opens at Bar Harbor.

### The Storm's Path.

The superintendent of the New York Central railroad stated that the main tracks were clear of snow and trains were running with an average delay of two and a half hours; but that the storm at Syracuse had not abated, although the wind is not so high.

The thermometer ranged down to 30 degrees at Clinton, Miss., Saturday. Ice formed and the ground was frozen. It is feared that great harm will be done fruit trees, as they are in full bloom.

It is denied at the office of the state board of agriculture that the late cold snap injured winter wheat in Kansas. It was not far enough advanced to be affected by the cold.

A blizzard is raging in Northern Austria and Hungary. Snow has made the roads impassable, and trains are imbedded. Traffic in Vienna was suspended for hours.

The cold wave touched New Iberia, La., Friday night, and the mercury fell to freezing point. Heavy frost and ice were seen Saturday morning.

### Women's Luncheons.

It is noticeable that at the luncheon rooms of the several women's exchanges, as well as at several of the restaurants in the shopping districts, broken orders are possible. This is especially true of the menus of the exchanges, which are managed by women solely for women. It is a concession to an accepted fact that women ordering and eating alone greatly dislike to pay for a mouthful more than can be consumed. One croquette, a half serving of salad, chocolate without bread—these are some of the ways a woman adjusts her bill to her appetite.—New York Times.

### Where Dullness is Profitable.

"How are things in your business?" "Dull, I'm glad to report." "Glad to report?" "Yes, I'm a saw sharpener."—Kate Field's Washington.

### MURDER BY LYNCHING.

Missouri Adds Two Victims to the Court of Judge Lynch.

MISSOURIANS ON THE RAMPAGE.

A Pretty Good State for Law Abiding People to Emigrate From.

REPORTS CONCERNING GEN. ALGER.

Bluffed out, if He Quits, by Tramped Up Army Scandals—How to Cool Off an Ardent.

BAYVILLE, Mo., March 13.—The lifeless form of a colored girl was found dangling from a tree on the road near here Saturday, and was identified as that of the 15-year-old servant of W. R. Heimer, who resides near here. The girl became offended at the action of a colored man employed in the house, and in seeking revenge, decided to put "Rough on Rats" in his coffee. She put poison in the coffee intended for the family meal, and nine persons drank the concoction and all are nearly dying. The girl acknowledged she intended to kill the colored man, and said she did not care particularly who else suffered. Friday night a guard started to take her to jail at this place, but fell in with a masked party who relieved them of the girl and strung her up to a tree at the first crossing.

### ANOTHER CASE.

OZARK, Mo., March 13.—It has just been learned that John Bright, who killed his wife a few days ago, has been captured, tried, convicted and executed, Judge Lynch presiding.

### KILLED HIS BROTHER.

WARRENSBURG, Mo., March 13.—During a family quarrel Joseph Emery was shot and killed by his brother, Charles, yesterday.

### FOUNDED TO DEATH.

BUTLER, Mo., March 13.—In settling a dispute with his brother Johnson, Samuel Keen to death.

### Reports Concerning Alger.

NEW YORK, March 14.—A press dispatch from Washington says Gen. Alger's friends have persuaded him not to allow his name to come before the convention as a candidate for president, fearing that his rivals will make it unpleasant for him because of the alleged scandal created in army circles by the indictment of dead generals. The fact is his record can be shown to be pure, but his friends think it would work injury, as a lie always travels faster than the truth, in politics as well as other things. If he declines, his enemies will say that "the discovery of this record has had a great deal to do with cooling the ardor of Gen. Alger as a presidential candidate, and a great many of his friends think he can no longer be considered in the race."

### Douglass Will Represent Hayti.

WASHINGTON, March 13.—Frederick Douglas, who has been selected by the government of Hayti as the representative of that country at the World's Columbian Exposition, has received his commission and has accepted the position offered to him by the government of the country to which he was a short time ago accredited as the minister of the United States. Mr. Douglass, who is naturally much pleased by the honor thus conferred upon him, is greatly interested in the duties of his new position, and is determined to use every effort to make the display from Hayti fully complete.

### A Riot in Vienna.

VIENNA, March 13.—Thousands of workmen today joined in the annual procession to the graves of the victims of the rebellion of 1848. The police forbade speeches. Many socialistic symbols were deposited on the monument. Everything was orderly until on returning to the city, when the police broke into the procession to arrest a man. This incensed the crowd, and instantly the police and processionists had a serious collision, in which the police were finally victorious.

From reports received from Germany and Spain it is learned very heavy snow storms are prevailing throughout those countries. Telegraphic communication between France and Spain is interrupted.
