THE LATE BAD STORM.

Several Vessels Wrecked in New Zealand Waters.

THE NEW ZEALAND MINISTRY.

Movements of the Pacific Whaling Fleet in Distant Ports.

RATE OF COLONIAL PROGRESS.

More Fighting Expected in Tany County, Missouri.—Other Murders Event.

SAN FRANCISCO, March 18.—Late Auckland advices report the loss of the brigantine Ryno, off Flint island. The vessel was owned in Auckland and engaged in trading among the islands. The crew was picked up after a week's hardship. The bark Star of Erin, Captain Hopkins, bound for London with a cargo of oats, wool and tallow, went ashore on Waipapa reef, and is a total wreck. The vessel and cargo were valued at \$200,000. The crew were saved. Earl of Onslow, governor of New Zealand, has been succeeded in office by Lord Glasgow, who is expected to arrive at Wellington about May. As Lord Onslow has left for England, Chief Justice Prendergast has been sworn in as acting governor. Considerable speculation has been indulged in by colonists as to the policy of the recent changes in the New Zealand ministry and the transfer of Hon. A. J. Cadman from the office of native ministry, which it is proposed to abolish, to the office of minister of marine. It has caused some dissatisfaction. Industrial statistics of the colony show a good rate of progress during the past five years. The United States cruiser San Francisco and the frigate Pensacola were in the harbor at Honolulu when the Monowai left there March 11th. The whaling bark California, from New Bedford, which has been out eleven months, discharged 500 barrels of sperm oil at Honolulu on the 10th. Sir Edward Arnold, who was a passenger on the Belgic en route to Yokohama.

The Storm in the South.

FORT WORTH, March 18.—The snow and wind storm which has raged several days from Wyoming to Texas has been exceedingly severe upon live stock. In southern Colorado the loss of cattle and sheep will be very great. Thousands were frozen to death in New Mexico and northern Texas. It is estimated that 20,000 cattle perished along the line of the Denver, Texas & Gulf road, between Trinidad, Colo., and Fort Worth, and as many more north and east of Trinidad. The storm, however, has been a salvation to the wheat crop in northern Texas, which looks finer than at any time during several years.

The Senator is in Earnest.

WASHINGTON, March 18.—Senator Felton was asked last night as to the prospects of the passage of his bill withdrawing the government subsidy to steamship companies that receive subsidies from corporations. He said: "I am working with members of the commerce committee to get a favorable report on my bill. I see that some people are inclined to doubt my sincerity. You may say that I am thoroughly in earnest about the matter."

Bodies Rightly Buried.

LIVERPOOL, March 18.—The bodies of Mrs. Williams and four children, exhumed at Rainhill after being murdered and buried by Frederick Deeming, alias Williams, were buried this afternoon in the parish churchyard in the presence of a large concourse of people. At the post-mortem examination Albert Deeming, a brother of Frederick, nearly fainted at the sight of the bodies. It transpires that Deeming treated his wife brutally soon after marriage.

Poison in the Food.

NASHVILLE, March 18.—Poison in the food at supper last night resulted in the death of two daughters of Mrs. R. Melrose this morning. Other members of the family are in a critical condition.

Burned to Death.

LONDON, March 18.—The butcher shop of a man named Weston was burned this morning. His wife, two children and a servant, in the apartments above were burned to death.

Silver Continues to Fall.

WASHINGTON, March 19.—Secretary Foster's visit to Europe, so far as a solution of the silver question through European agency is concerned, has produced nothing beneficial. It was announced on his departure that he intended to visit the leading continental financial centers with the intention of urging upon their government and their financiers the necessity for an international silver congress. And yet he went no farther than London. It was also announced that he would hold an important consultation with Mr. Goschen, the British chancellor of the exchequer. He did have a conference with that official, it is true, and yet that it was in the slightest degree reassuring, so far as the success of his mission is concerned, there is not so far even an intimation, all of which goes to prove that our secretary of the treasury's mission has been a bootless one. Meanwhile, silver continues to fall, notwithstanding the fact that the United States treasury is purchasing silver bullion at the rate of \$5,000,000 a month, on which certificates are being issued.

Will Employ Elephants.

NEW YORK, March 19.—A Berlin letter furnishes some personal details concerning Dr. Finsch, who meditates going to Emin Pasha's assistance with an armed force raised and supported at his own expense. It says: "Dr. Finsch is barely 35, is of medium height, but strongly built. He has made long journeys in the Cape, Chile and Peru. He is a German-American, a botanist and an ornithologist, and he has inherited several million dollars from his father. The great expedition he is now fitting is destined for Lake Albert and Wadella, where Emin probably now is." It then continues: "The 200 Soudanese whom he hopes to enlist, with the khedive's permission, are to carry small-bore magazine rifles. Dr. Finsch has bought four tame elephants for \$1,000 each in Bombay. They are to carry the guns and other heavy baggage." The employment of elephants in African exploration is something new, and ought to simplify greatly the problem of carriers which has caused so much trouble in early expeditions.

Russell Will Stick to Cleveland.

BOSTON, March 18.—At a dinner of the Ancient and Honorable artillery last night Captain Taylor created enthusiasm by introducing Governor Russell as the next president of the United States. Russell disclaimed aspirations, and asserted his loyalty to another whom he would earnestly support. In response to cries of "Cleveland" the governor smiled significantly.

Telegraphic Flashes.

Velasquez, one of the generals of the late Balmaceda, is to be banished from Chile.

A resolution has passed the New Brunswick legislature favoring the union of New Brunswick, Nova Scotia and Prince Edward's Island.

Sarah Bernhardt is working the diamond racket in competition with Ed Huntley. It has been worked so often that it has become a very state chestnut.

Delegates to the conference of the miners' federation decided today that after the men resumed work on Monday they should work only five days a week.

Chicago boodle council men are very much alarmed—a special grand jury will be impaneled to hear their cases, and they are getting out of sight as speedily as possible.

Digging open the grave of Judge Terry in the hope of finding the ex-sheriff who was offered \$25,000 to commit the murder is a favorite pastime with sensational news dispatchers. Judge W. B. Tyler, formerly attorney for Sarah Althea don't take any stock in the story.

The French government fears the communists will take advantage of the anarchistic disturbances to cause trouble on the anniversary of the fall of the commune, May 27th. Special military and civic precautions will be taken to prevent it.

The Tany County Lynching.

OZARK, Mo., March 18.—Sheriff Cook has made no arrests in connection with the Bright lynching at Forsythe, but has summoned a posse to start after men known to have been in the mob. The people of Tany county are taking sides. Further bloodshed is feared.

Paid the Penalty.

BERNE, March 18.—The first execution in Switzerland since 1868 took place today at Lucerne. The culprit was an Italian named Gatti, who murdered Mlle. Degen, a teacher. He was executed by guillotine.

IN THE COMMITTEE.

Action Upon the Columbia River Improvement Bill.

OTHERS MADE SPECIAL ORDERS.

To Complete the Cascade Locks and Build the Dalles Portage.

THE CONTRACT SYSTEM TO COME.

The Cascade Will Receive an Appropriation but not So the Dalles Portage.

WASHINGTON, March 18.—Senator Dolph's bill to complete work on the Columbia river and Senator Mitchell's for a boat railway around The Dalles have both been made special orders for next week. These bills will pass the senate, but the house will not take any action on them. It will be impossible even to secure a favorable report from the house committee on rivers and harbors, but it is a good thing to have the senate committed to these great measures being done under the contract system; that when the time comes the house will look with favor on contracting these great works, and the senate will be ready to take favorable action. In the house rivers and harbors committee, Mr. Hermann moved to put in an appropriation for a portage railway around the dalles. This was defeated. The only members voting for it were Clarke, Blanchard and Mr. Hermann. Then Chairman Blanchard called another to the chair and moved to appropriate the sum secured by Mr. Hermann for continuing the work on the cascades and applying it for a portage railway around the dalles. Only two members of the committee, Blanchard and Clarke, voted for this motion, and it consequently stands where it was before. The cascades will receive the appropriation, but there will be no portage railway around The Dalles. It has been a hard fight for the Oregon representative, because the opposition shown by Penoyer, and his communications to the committee have made it very hard for him to contend against the large democratic majority on this important committee.

Portugal is Bankrupt.

PARIS, March 18.—The bankruptcy of Portugal is almost an official act. Foreign experts maintain that the national treasury is empty, that the April coupons will not be paid, and that the payment of interest will be suspended for three years. Paris bankers do not believe that the payment will ever be resumed. The bank of Portugal will assist several banks, owing to whose weakness the financial crisis is due. The manager of the Bank of Commerce has left the city. His whereabouts are unknown.

Valuable Horses.

GRAND RAPIDS, Mich., March 18.—The great \$20,000 stallion race, booked for the August meeting here, has been declared off. Word has been received from C. W. Williams, of Independence Ia., the owner of Allerton, declining to enter the race. He says he is afraid, should he bring Allerton here and enter him in a race with Axtel against him, the other horses would crowd him in favor of Axtel. He will, therefore not take Allerton away from home until he has met Axtel alone. Senator Stanford has refused the \$100,000 offered for the stallion Advertiser.

All Saved but Twenty-Five.

HALIFAX, MARCH 18.—The captain of the mail steamer Conscript, who arrived this morning from St. Johns, N. F., states that out of 200 unfortunate sailors who were carried to sea in small boats by the breaking up of the ice, all have been accounted for but twenty-five. Of this number, fifteen bodies were recovered by rescuers and the remainder have never been heard from.

To Unseat the Democrat.

WASHINGTON, March 18.—The house elections committee has decided to seat Noyes, the republican contestant from New York, and unseat Rockwell, dem.

Coffins all Shut Down.

MAHANOV CITY, Pa., March 18.—All the colleries of this district shut down today until further notice. How long the suspension will last is not known.
