TALK EXTRAORDINARY

President Eliot of Harvard Surprises the World.

SPECIAL EMBASSADOR TO UTAH.

Successful Colonies Founded Upon Religious Enthusiasm.

THE DICTATES OF CONSCIENCE.

May Not Practice Polygamy; But Maintains the Religious Equality of Mormons.

CAMBRIDGE, Mass., March 25.—Harvard, and nearly all Cambridge, are amazed tonight over the report of a speech by President Eliot before the Mormons in Salt Lake a week ago. His words are said to have been these: "As I came over the plains I thought of that early journey when the first colonists marched across them under the guidance of a Christian church, and this reminded me of another pilgrimage, though across the water. I refer to the pilgrim fathers. They, too, suffered hardships for a principle; they, too, were fired with religious enthusiasm and sought freedom, also to worship God. In planting a colony it is the women who have the harder part. They died faster than the men in Massachusetts. The successful colonies of this world are founded on religious enthusiasm. Here you founded a colony that you might worship God according to the dictates of your consciences. Here in this valley, has arisen the question of religious liberty. In Massachusetts all churches are equal before the law. There is no reason why this religious liberty may not be enjoyed in all other states and territories, as well as in Massachusetts. Let us devote ourselves to this liberty, civil, and religious, for associations of every sort, and for the individual also. If I could do something to unite the elements in this territory and bring them to seek religious liberty as it is known in other parts of the country, it would be to me a great reward."

Irrigating Canal Opened.
NORTH YAKIMA, March 26.—This has been a gala day in this portion of the Inland Empire. Water was let into the first section of the Irrigation company's mammoth canal, which is completed for a distance of twenty-five miles. A large delegation were present from other portions of the state, as the headgates were lifted and the waters of the Yakima coursed through the canal, cheered by shouts of the people, music of brass bands, and the roar of cannon. The canal is thirty feet wide on the bottom, and sixty-two feet wide on top, and is the beginning of the greatest irrigating system ever attempted in this country.

Clash of Interests.
EL PASO, Tex., March 25.—C. P. Huntington and a number of Southern Pacific officials arrived Monday from New York. It is understood they are to have a conference with Jay Gould. The object is not known, but it is surmised Huntington will protest against Gould extending the Texas Pacific into Mexico. It appears the Southern Pacific has a contract with Gould, that he will not parallel the line to the Pacific coast. This Gould interprets as applying only to the United States, and the proposed line through Northern Mexico to Guaymay will not nullify the contract.

Virtue at a Discount.
LONDON, March 25.—The suit of Miss Daisy Hopkins against the Rev. Mr. Wallis, proprietor of Trinity hall, Cambridge, for \$5,000 damages for false imprisonment, in connection with her arrest on the charge of "walking the streets with university men," was concluded today with a verdict against Miss Hopkins. The verdict was a great surprise to her friends, who always believed her life to be blameless. The case will be appealed.

Germany's Idea of Silver.
BERLIN, March 25.—The discussion in the American congress of the silver question has attracted much attention in Germany. The newspapers nearly all agree in the belief that free silver will be a bad thing for the United States.

It is reported that Lotan and Simon have agreed to submit their slates in Multnomah county to John P. Ward, as political arbiter in the coming campaign. Before Simon leaves for Europe the matter will be perfectly arranged.

An Injury to Commerce.

WASHINGTON, March 25.—There was quite a spirited hearing before the senate committee on commerce today, in which Senators Squire and Allen, of Washington, undertook to show why a portion of the Puget sound collection district should not be taken off and added to the Astoria collection district lying along the Columbia river. This question was fought out at great length in the senate more than a week ago, and the bill was reported back to the committee on commerce. This time the committee will probably decide not to report the bill again, although the ground is taken by many members of the committee that Senator Dolph did right in favoring the bill on account of the letter from the secretary of the treasury advocating it. In deference to the sentiment that hangs about the state, it was thought best to leave the Puget sound collection district intact, containing the whole state of Washington. Notwithstanding the manifest injury to the commerce of the Columbia river.

A Remarkable Cure of Rheumatism.
Messrs. Cane and Sherman, of Alexander, Texas, write us regarding a remarkable cure of rheumatism there as follows: "The wife of Mr. Wm. Pruitt, the Postmaster here had been bed-ridden with rheumatism for several years. She could get nothing to do her any good. We sold her a bottle of Chamberlain's Pain Balm and she was completely cured by its use. We refer any one to her to verify this statement." 50 cent bottles for sale by Blakeley & Houghton, druggists.

La Grippe Successfully Treated.
"I have just recovered from a second attack of the grip this year," says Mr. Jas. O. Jones, publisher of the Leader, Mexia, Texas. "In the latter case I used Chamberlain's Cough Remedy, and I think with considerable success, only being in bed a little over two days, against ten days for the first attack. The second attack I am satisfied would have been equally as bad as the first but for the use of this remedy, as I had to go to bed in about six hours after being 'struck' with it, while in the first case I was able to attend to business about two days before getting 'down.'" 50 cent bottles for sale by Blakeley & Houghton, druggists.

Cabinet Meeting Fully Attended Yesterday—Blaine Present.

THE LONDON STAR CHANGES VIEW

Final Vote to be Taken by the Senate Monday in Executive Session—Other News.

WASHINGTON, March 26.—The seriousness of the Behring sea situation is shown by the attendance of Secretary Blaine at the cabinet meeting yesterday, notwithstanding his recent illness. The other members were all present. It is understood a decision was reached that the government would await the reply of Lord Salisbury to the president's last note before proceeding on the assumption that the English government will not co-operate in the measures of protection to the sealing industry. Secretaries Foster and Tracy held a conference prior to the meeting, presumably in regard to orders to naval and revenue vessels assigned to the duty of patrolling in sealing grounds. It is practically settled the warships Charleston, Baltimore, Boston, Yorktown, Adams, Ranger and Mohican, and the revenue vessels Corwin, Bear, Rush and Albatross will be assigned to this duty. Navy department authorities hardly know how far to go in the line of extraordinary preparations until the international correspondence bears a more conclusive aspect. Meanwhile, although they concede that our relations with Great Britain are decidedly strained, few in reality expect actual hostilities to arise. It is also pointed out by naval experts that it will hardly be the policy of the department to concentrate a heavy force of vessels in Behring sea, for even if hostilities should be precipitated by an exchange of shots in those waters, the war would not be fought there, but nearer home, and our vessels would be away. President Harrison has been given assurances that the Russian government will co-operate with this government in the matter of protecting the seals in Behring sea, and that four men-of-war would be added to the fleet of six Russian iron-clads now at Vladivostok. The London Star, which, on the 24th, approved of Salisbury's attitude in declining assent to the prolongation of the modus vivendi, has changed its views, and today advises Salisbury to renew the modus vivendi. It says a renewal will cause the Canadians to scream, adding, "but better let Canada scream, than that a serious quarrel between Great Britain and the United States be opened."

All The Talk.
WASHINGTON, March 25.—The sole subject of talk in official circles is the danger of war with England. Few believe that war will result, but all see the danger of it and look for England to recede from the position she has taken, as they regard that position as utterly untenable. The prevailing opinion seems to be that war is preferable to the United States retiring from the position she has taken. No fears are expressed as to the ultimate outcome should a war be declared, but at the same time, while not expecting it, the United States will not be wholly unprepared should it come. Aside from the activity which was displayed by the navy, in anticipation of trouble with Chili, the officials of the army are beginning to bestir themselves in acquainting themselves with the strength of the enemy. The United States navy is now stronger than for many years and attention is being directed to the army. In the event of war Canada would doubtless be attacked and overrun immediately.

All Same Dumb.
PARIS, March 25.—The trial of Henri Rochefort for libelling the public prosecutor resulted in a verdict of guilty without extenuating circumstances. Rochefort was sentenced to a year's imprisonment and a fine of 300 francs, the maximum penalty for the offense.

A Dangerous Stove.
ADRIAN, Mich., March 25.—By an explosion of a gasoline stove today, Mrs. Henry Lards, and two children, were fatally burned.
