Mount Hood would make a magnificent public park or reservation, and the project of having a large tract of government land including a large share of the hoary old peak has been agitated for some time past. To secure such a donation from the government, it is not necessary that there should be a special act of congress on the subject, as many suppose. Under an act of congress approved March 3, 1891, which act authorizes the Blakeley & Houghton, druggists. president of the United States to set apart and reserve certain public lands bearing the forests, the president can set apart and declare the establishment of such lands and reservation by a public from and after this date.

Dated February 8th, 1892.

O. Kineasly, chamber of commerce, Alpine club or any other reputable and representative body of men, asking for the establish-

pared for use at the commencement of transact such other business as may of the railroad work at Astoria a few days since it was found necessary to saw off the top so as to leave a flat surface for the driver to fall upon, and of course there were many anxious to secure the piece cut off to preserve as a relic. It was captured by Hon. Sam Elmore and carried up to his cannery office door, where he handed it to one of the employes named Ah Dock, with the instruction to place it in the office. The Chinaman looked at it inquiringly, and then gazed upon the numerous other chunks of wood lying around. "Whlat for?" he asked laconically. Mr. Elmore proceeded to explain that attached to the relic were associations that gave it con over one-half thereof, cast for Congressman at the June election in 1890. rupted by, "Tlinsic! What you mean?" inquired Dock. "Oh put it in the office, and I'll come down and explain some other time. I'm in a hurry now," said Mr. Elmore, as he went his way up town. Mr. Elmore is going to have the relic dressed and framed.

The Pacific coast is becoming celebrated for its fisheries. Census statistics show that the fisheries of California are more important than those of either Oregon or Washington. Of the capital invested, \$2,684,210 represented California vested, \$2,684,210 represented California interests, the value of products of that state being \$4,463,369. Oregon ranks next in importance, having a capital invested of \$2,296,632, and a product of \$1,033,574. The amount of capital invested in Washington is given as \$517,397 and products \$891,860, and compared with 1890 the fisheries of this region have with 1890 the fisheries of this region have as a whole greatly advanced, although a few special branches show a decline.

may properly come before said convention. The various counties are entitled to representation in said convention as follows:

Senator Dolph can attend all the banquets of the plutocrats, to join his voice to those of their other attorneys in favor of higher taxation and worse class legislation, insinuatingly says the Telegram, "but when a great meeting of the central labor union is held to protest against Chinese immigration, he sends a letter of regret. Indeed, it is not only suspected but asserted by true exclusionists in congress that Dolph's measure to exclude Chinese is calculated not to exclude them. This was to be expected."

Granite from the mine lately discovered in the coast range of mountains above Willamina, by Mr. A. H. Sale, will be used in construction of the new Court house for Multinomah county, provided it stands the test. As Mr. Sale is a man of experience in such matters, the result of the test will likely prove satisfactory, as he knows what granite it, when he sees it.

We notice an ominous silence lately on the part of the Spokane Review, Albany Herald, Baker City Blade and other republican papers that up till a short time since have been advocating free coinage of silver, says the Telegram. Then it adds: "Do they not dare to bark any more because Sir Oracle is about to open his mouth?"

Speaker Crisp went far out of his way to conciliate the Georgia "cracker" yesterday says the Oregonian, when he ordered his name called and made a tie by his vote, thus defeating a motion to lay the silver bill upon the table. This ought to secure the speaker against any more trouble with the farmers' alliance.

Creighton of Three Mile this forenoon, just after the adjournment of the republican convention, when Mr. C. said: "A strange occurrence happened at our house last night." "What was that," said the reporter. "Why, a tramp came to the house a while after night fall, and as he was naked we had to keep him all night." "Naked!" gasped the reporter. "Yes, naked." "Absolutely so?" "Yes, absolutely naked. Just the way you and I came into the world." "Oh, that's it," said the CHRONICLE man, as the full truth of being beautifully sold dawned upon his thick vision. "What persuasion is it?" "A boy. Weight ten pounds."
