Staple and Fancy Groceries,
Hay, Grain and Feed.

Masonic Block, Corner Third and Court Streets, The Dalles, Oregon.

WANT THE TEST MADE

The Silver Bill to Come up Again Under
Cloture Rule.

PURELY A POLITICAL ISSUE NOW.

Deeming Confesses the Work of the
"Ripper."—A Nymphomaniac.

HORRIBLE RECITALS OF CRIMES.

Illinois, Nebraska, Kansas, Kentucky
and Missouri in Another Fierce
Storm.—Other News.

WASHINGTON, March 28.—Today, or tomorrow, an effort will be made to again bring the silver bill up in the house, by adoption of the "cloture rule," to force a vote. All the democratic papers of the east opposed to free coinage are holding the republicans responsible for endeavoring to secure a vote on the direct question. It may be that the republicans will not vote as a unit on this matter, but it is probable that enough of them will go on record to adopt the cloture rule, and then when the vote comes direct on the free coinage issue they will stand squarely on republican platforms opposing the Bland bill. It is said that senators are anxious that the bill, cloture rule and all, shall be kept out of that body, as there are but ten republican senators to vote for free coinage. The republicans of the house who voted to table the bill based their action on the ground that the proceedings had reached a stage where the democratic party could no longer dodge the question, and that the vote on the motion to table would show as fully and plainly where the party stood as a vote direct on the passage of the bill would have done. A very large majority of the democratic members voted for free coinage, while but eleven republicans voted for it, and these from silver producing states. Of the democrats who voted to table the bill, many are avowed free-coinage men, but want to postpone action until after the presidential election. The democratic party is as fully committed to free coinage of silver as the republican party is committed against it, and the platforms that will be made by the two parties in June will accentuate this difference still more sharply. There is a sentiment against any further agitation of the matter, and there are people who do not want the bill to go to the president as it probably would in case it passed the house. Speaker Crisp said Saturday he did not think the rule relative to the bill could be brought into the house and called up today, but that that it would probably come up tomorrow.

WORK OF SATURDAY'S STORM.
OMAHA, Neb., March 28.—Communication by telegraph and telephone has been almost entirely cut off in the city by the severe snow storm now raging. Poles in all part of the city have been broken down and the mass of wires is blocking travel. The street-car service has been abandoned. The storm started early this morning with rain, which quickly turned to snow, with a driving wind from the north. It is undoubtedly the worst storm of the season.

BOARDS DRIVEN THROUGH BRICK WALLS.
CERRO GORDO, Ills. March 28.—A disastrous cyclone visited this vicinity today. A track 200 feet wide was swept through the most thickly inhabited part of the country. Barns and outbuildings of all descriptions were demolished, but fortunately no lives were lost. The damage to property will be very heavy, but no accurate estimate can be made at this time. Boards and rails were driven through the walls of brick houses as if shot out of a cannon.

TWENTY-FIVE BUILDINGS RUINED.
MONTICELLO, Ill., March 28.—A tornado, accompanied by a severe hail storm, visited Platt county today, damaging many thousand dollars' worth of property and leveling buildings. The tornado swept over Cerro Gordo, near here, and destroyed twenty-five buildings. Barns and out-houses were carried from their foundations and destroyed. No loss of life is yet reported, but there were many narrow escapes.

ROUGH IN KANSAS.
KANSAS CITY, March 28.—Dispatches report a severe wind and rain storm throughout the state. At Leavenworth houses, signs and fences were blown down. The telegraph facilities are impaired so that the details from other points are not obtained. The wind blew a gale here but caused no damage.

DAMAGES IN OTHER PLACES.
ST. LOUIS, March 28.—Dispatches from the greater portion of Missouri report severe rain and wind storms today. Many instances of minor damages, which aggregate considerable, are reported. The storm has also reached into Arkansas and the Indian territory.

KENTUCKY CAUGHT IT.
SPRINGFIELD, Ky., March 28.—Several farm houses were demolished here this afternoon by a storm which prevailed throughout this section.

Ezra Wants to Come Back.
PORTLAND, March 28.—Ezra Durand, the Portland organ dealer, who skipped recently is in Mexico. He has written to one of his confidential clerks for a list of persons to whom stock was sold, and promising if they would prosecute him criminally to return to Portland and settle up. He says he is making \$300 a month selling pianos in Mexico, with an early prospect of \$500 and possible \$1,000. His proposition cannot be accepted according to law, and it is doubtful if he tells the truth concerning his prospects.

OREGON PRIMA DONNA DEAD.
PORTLAND, March 28.—Pretty little Louise C. Edgar, whose charming voice was an attraction in music loving circles of this city when Jennie Winston first appeared at the Casino, now New Park, died in New York last week. She was a native of Portland, greatly admired, and has at different times been connected with leading opera companies of America.

U. P. R. Steamers Tied up.
SEATTLE, Wash., March 28.—Steamboat men from the Columbia river and sound say the Puget sound and Alaska steamship company will pay the Union Pacific \$300 a month for withdrawing its steamers from the sound. This will save the Union Pacific \$650 per month, as it now pays the Northern \$250 for wharf accommodations and \$100 for office expenses here per month, which will be a clear gain, in addition to the subsidy.

PRESIDENT ELLIOT BACKS DOWN.
BOSTON, March 28.—A special to the Advertiser from Salt Lake, says the report of President Elliot's Mormon speech was not correct. His side claim that he

spoke with reference to Mormonism alone, claiming that "as polygamy has been completely abandoned as a doctrine of the Mormon church, and has been made a crime by the voters of the Mormons, he thought they should now be treated regarding their property rights and freedom of thoughts and worship precisely like the Roman Catholics, Methodists or any religious denominations." To this the Salt Lake Tribune claims that the first report was perfectly fair, and stated the speaker's sentiments correctly. Moreover, the same reporter was complimented a day or two afterwards by a prominent saint for giving so fair a statement of what was said in the Tabernacle March 16th. A stenographic report in the Deseret News substantiates this. Besides, the reporter was with President Elliot the following day and there was no complaints whatever from him.

ENGLAND HAS NO RIGHT
Salisbury-Intentions—Why Care we for his Intentions?
LET HIM PERSIST IN REFUSALS.
The Whole Controversy a Blunder From Beginning to End.
IMPUDENCE V. THOUGHTLESSNESS.

A Right Which we Acquired From Russia—England has no Sort of Standing—Minor Mention.

NEW YORK, March 28.—The question has been raised, and is one which must be insisted upon soon: "What has England to say about seals in Behring sea, anyhow?" Well informed people have insisted from the first that it was a mistake to consider the idea of arbitrating with England as to a right which we acquired from Russia, and in which England had no sort of standing. It was an exhibition of characteristic British impudence to make such a proposition, and of characteristic American thoughtlessness to entertain it, for the fraction of a second. In doing so we consented to the impeachment of our own title, to a slur upon the integrity of the transaction by which this title was conveyed to us, and to the admission of England's right to enter a claim in the premises. It was a miserable blunder from beginning to end. It is not too late, however, to withdraw from this sinister entanglement. Thanks to Lord Salisbury's latest performance in the field of his peculiar diplomacy, and to the interlude of plain, straightforward American assertion, with which Mr. Harrison has favored us, there seems to be a perfectly legitimate opportunity for us. No one can complain if we take advantage of this opportunity to retire from the whole wretched complication and stand once more upon our rights and our recovered manhood. If Great Britain wishes to take the responsibility of a fight, let them begin. It will react upon them with such force as to shatter royalty, bankrupt their kingdom for damages, and cause the world to admire brother Jonathan as he has never been admired before.

MEXICAN JUSTICE.
CITY OF MEXICO, March 26.—Six men, who were caught recently pulling spikes from the track of the Mexican Central railroad, were summarily shot by soldiers of the rural guard. The poorer class of Mexicans have been in the habit of stealing the spikes and selling them for 4 cents apiece.

A SWISS VILLAGE BURNED.
BERNE, March 28.—The village of Level, in the canton of St. Gall, has been almost entirely wiped out of existence by fire. More than sixty cottages are already destroyed. The people are utterly helpless to stay the progress of the flames.

TELEGRAPHIC FLASHES.
Snow fell briskly in Grass Valley, Cal., last night.
Saturday's storm was practically severe all along the coast of New Jersey.
The District of Columbia is to make up a cargo of foodstuffs for the starving Russians.
The Ellis island investigation will let Assistant Secretary Nettleton, of the treasury, out of his place.
London seems to be quite solicitous concerning the fate of Americans, in the event the silver bill fails.
The democratic delegates to the Minnesota state convention, are instructed for Cleveland. The vote is 445 to 4 so far in seventy-five counties.
Deeming was started from Australia yesterday. Several attempts were made to lynch him, women especially acting violently. Deeming's lawyer denies that his client has confessed.
Severe storms are again reported in North Wales, England and Scotland, with drifts from two to five feet high. The storm is terrible off Berwick, and it is feared the Newcastle steamer has foundered, with loss of lives.
B. L. Upehur, the "son of his father" young man, who figured so conspicuously last week as the friend of Drayton, in the Burrowe scandal, was locked up in a New York station house yesterday, and booked on a charge of drunk and disorderly.
