Staple and Fancy Groceries,
Hay, Grain and Feed.

Masonic Block, Corner Third and Court Streets, The Dalles, Oregon.

THE GHOST OF BANQUO

The Free Silver Corpus Taking a Rise in the Senate.

SENATOR STEWART TO BRING IT UP.

Acting Upon His Own Responsibility—
Precipitating the Issue.

THE BILL CANNOT POSSIBLY PASS.

South Dakota, Even, Declared In Opposition to the Measure—Democrats Divided.

WASHINGTON, March 30.—The notice in the senate yesterday by Stewart of intention to call up his free coinage silver bill Monday created a sensation, notwithstanding the fact it was expected, in view of the set-back the Bland bill received in the house, that the struggle must sooner or later be transferred to the senate. As far as can be learned Stewart appears to have acted on his own responsibility in precipitating the issue. It is said by some silver men that Speaker Crisp urged them to pass the silver bill in the senate, and let it come over to the house when it would be in a position much more favorable for action if it came before the house in the shape of an original report from the coinage committee. Some republican silver-senators are unable to see the force of this reasoning. They fear the speaker is playing for a party advantage which might be expected to follow the passage of the silver bill by the republican senate even by the instrumentality of democratic votes. The democratic senators are as yet undecided as to the attitude they shall assume when the bill is called up by Stewart. Carlisle remarked that the outcome of the effort to pass the bill was extremely doubtful. This view appears to be generally entertained on this side of the chamber. There will probably be a general consultation among the democratic senators before Monday for the purpose of reaching an agreement upon a united line of action. The republican side are of the opinion the bill will not pass. Hansbrough of South Dakota, who has been included in all estimates in the ranks of the silver men, said very frankly he would oppose with his vote any effort to pass a free coinage bill, and believed that not ten republican senators would vote for such a bill. He called attention to the fact Perkins, successor of Plumb in the senate, was an anti-free coinage man and he felt confident that even with the full strength which the democratic silver senators had shown in the last struggle the bill would not have more than a majority. As a matter of fact, he believed the democrats were divided on the question, and he expected when it came to a test vote, many of them would vote against the Stewart bill. Stewart himself is not very sanguine of the success of his move. He says, however, the country is entitled to know exactly how the senators stand on the silver question, and he proposes to put them on record if he can.

Celebration in Prague.

PRAGUE, March 29.—In spite of the interdiction by the government, the native Czechs gathered in great numbers last night to celebrate the anniversary of the birth of John Comenius, a distinguished seventeenth-century educational reformer. The police charged the crowd with drawn swords. The latter resisted with sticks, and were only dispersed after a desperate battle and many arrests. The crowd assembled by another point, denounced Minister of Education Gausch and cheered for Comenius. The police charged again and another battle ensued, resulting like the former. The crowd then started for the Jewish quarter to wreak vengeance on the Hebrews. On the road they were met by a detachment of mounted police. Refusing to turn back, the police spurred their horses in the crowd, slashing right and left with swords. They met a stubborn resistance, and it was only after drawing off, re-forming and making a second charge that the rioters were put to rout, very many of them with sword wounds or injuries caused by being trampled upon by the horses. They were removed to the hospitals and their wounds dressed, and then locked up. All is quiet today. No further trouble is feared.

A Fine Suggestion.

CHICAGO, March 29.—President Bonney, of the World's congress auxiliary of the Columbia exposition, has issued an address regarding the celebration of the discovery of America by a dedication of the exposition grounds. It asks the whole continent to participate in recognition of the day. The address proposed that "the most representative American institution, the public school," be everywhere the center of local celebrations. To make this possible the world's congress invites the co-operation of educators and teachers throughout the nation. An executive committee has been appointed to promote the celebration and prepare a uniform programme for use in all localities. The committee will also, through state superintendent of education, solicit the governors of states to proclaim October 12th a holiday.

Famine Stricken Russia.

ST. PETERSBURG, March 29.—The committee on relief for the children of the famine-stricken peasants reported in many districts the children were so poorly nourished that they were too feeble to undertake the long walk, which in many instances requires an hour's time, to the schools where the soup was dealt out. The unfortunates have been reduced by eating the most unwholesome and disgusting things from which animals would revolt, including filthy rags and quantities of earth. Teachers in the public schools have received no salary since last fall, and are in almost as bad a condition as the children.

A Decided Failure.

NEW YORK, March 29.—A San Antonio dispatch says it is generally believed in Mexico that the Mexican International Company, composed of English capitalists, has failed in its sly game to get control of the harbor of San Quentin, lower California. The International company evidently was merely a cloak for Great Britain's plan to secure a coaling station. W. P. Sutton, United States consul-general for northern Mexico, arrived yesterday from lower California. Speaking of the Mexican International company scheme, he said: "I did not see any indication of serious or systematic work about the place. It looks to me at present like a decided failure."

A Worthy Place.

CORVALLIS, March 30.—There were 25 applications for the presidency of the state agricultural college at this place, recently rendered vacant by the death of Prof. B. L. Arnold. The applications came from college professors and presidents in all parts of the United States, and represented a most desirable body of men to choose from. The state board of education will report to the board of regents of the agricultural college on the 20th, their recommendation, and if satisfactory a president will then be elected.

A Walking Tourist Coming.

NEW YORK, March 29.—Dr. Emil Doon, who for several years lived in London as correspondent for a number of scientific German and Austrian periodicals, is contemplating a walking tour this spring from New York to San Francisco. He will make the journey in the interest of science and will publish his experience in book form. He expects to make the journey in 180 days.

Hostile Brothers Czar.

LONDON, March 29.—It is reported on good authority from St. Petersburg that the czar has had a serious quarrel with his brother, Grand Duke Vladimir, who has resigned all his offices, intending to live abroad. The quarrel was due to the czar's presenting the crown estate of Pavlovsk, tenanted by his uncle, the late Grand Duke Constantine, to the younger Grand Duke Constantine instead of Vladimir, who also claimed it.

Howling Down the Truckee.

RENO, March 29.—The wind is howling down the usually quiet Truckee river, and the air is heavily laden with mountain dust. The weather is cold and disagreeable, and if one can go by the judgment of the oldest inhabitant, the worst storm of the season is following.

Sensational Rumor.

WASHINGTON, March 29.—A report that the president had been shot this morning spread consternation throughout the city, until it was learned the story was utterly without foundation.

Charity for Jay Gould.

EL PASO, Tex., March 29.—Certain citizens will give Jay Gould a lot for a residence. He announces that he will build a summer residence on it.

Ratified.

WASHINGTON, March 29.—The senate by a unanimous vote has ratified the Behring sea treaty without any restrictive conditions.

TERRORISM IN PARIS.

Anarchists Threats and Actions Grow Worse Daily.

VISITORS LEAVING THE CITY.

A Reign of Terror is Almost Certain to be Inaugurated.

JUDGE BENOIT TOLD TO MOVE OUT.

The Anarchist Party Claim That the Trouble is Caused by Individual Members.

PARIS, March 29.—The police are extraordinary active after the anarchists. The money loss to the city on account of the recent explosion is very great. Many visitors are leaving the city. It is not known where the next blow will strike. There is no denying the fact that the expressed intention of the anarchists to inaugurate a reign of terror has caused great consternation. An important meeting of the authorities was held at the ministry of the interior today. The situation was discussed in all its bearings. It was arranged to execute stringent measures for the prevention of further outrages. The residences of prominent officials are guarded day and night. Thevenet, ex-minister of justice, has received a threatening letter. Judge Benoit, against whom the recent explosion in the boulevard St. Germain was directed, has been notified to quit by his landlord, who says if the judge remains the tenants will leave. Figaro publishes interviews with two leading anarchists. They declare the members of the party are acting singly on their own responsibility. There was no preconceived plan to cause the explosions. Both expressed themselves delighted with the moral effect of the explosions, which, they said, would direct greater attention to their doctrines.

Portland Public Building.

WASHINGTON, March 29.—Senator Dolph recently called at the treasury department to ascertain what was being done about the site for the public building at Portland. He was assured by the secretary that the matter would be taken up in a short time and disposed of. For several months a large bundle of papers marked "Portland, Or., Public Building" has laid upon the desk of Assistant Secretary Crouse, awaiting action by Secretary Foster. Some of the time, the secretary has been too busy to do anything about it; some of the time he has been sick and away from the department, and the decision is still waiting. It is expected that Mr. Crouse, or some other treasury official, will be sent to Portland to make a report upon the site if there is any further dissatisfaction shown, after the secretary decides on the present case.

Storm in California.

SAN FRANCISCO, March 30.—Reports from San Rafael, Marysville, Gilroy, San Luis Obispo, Dunsuir, Cala., and Carson and Reno, Nevada, say that for the past twenty-four hours the heaviest storm of the season has been raging. The wind had so great a force that large trees have been rooted up and fences and signs innumerable torn down. The oldest settlers state that the storm has been the severest experienced in their recollection. In San Francisco bay several ships dragged their anchors, but were caught by the tugs.

An Indian Claimant.

WASHINGTON, March 29.—Senator Mitchell today, introduced a bill for the relief of the legal representative of Chief Winumbenoot, of the Umatilla tribe. It proposes to appropriate \$1235 for property destroyed in July, 1872, during the Bannock Indian war.

How a Fortune Dwindled.

NEW YORK, March 29.—Geo. Hulchins, of Ancora, N. J., died about three years ago leaving his entire fortune to Henry George for the dissemination of "Progress and Poverty," and other of Mr. George's books. The fortune, owing to the sudden depreciation in Northern Pacific stocks, amounted to only about \$6000. Through litigation, will contests, etc., all that is left is about \$280, which George is now suing Woodhull for.

A State of Anarchy Prevails.

LONDON, March 29.—A Times dispatch from Montevideo says: Refugees from Rio Grande do Sul declare a state of anarchy prevails there.
