Masonic Block, Corner Third and Court Streets, The Dalles, Oregon.

## NEW YORK'S SCANDAL

### Gussie Astor as Chief Actor in a Prospective Tragedy.

#### HENRY VANE MILBANK MEDIATOR.

#### Drayton's Friends are Opposed to Publishing Minute Details.

#### THE WHOLE SELECT 400 AROUSED

#### Terms of the Separation as Dictated by Mrs. Drayton to Her Husband. The End.

NEW YORK, April 2.—On Thursday, Harry Vane Milbank published a statement as the friend of H. A. Borrowe, which seeks to justify the position taken by Borrowe, in connection with the Drayton-Borrowe scandal, saying, among other things, that the agreement entered into between Mr. Drayton and his wife, dated October 28, 1881, contained the following clause: "The wife has an income of \$35,000 per annum under all circumstances. She retains one-half, and agrees that the other half be deposited with trustees, \$5000 of which shall be paid to the husband, and \$12,000 to herself for the maintenance of the children. Out of the money she receives the wife is to keep up the establishment for the husband and family. The husband's \$5000 is for his personal expenses, such as clothing, amusements, traveling, medical attendance, etc. The wife agrees, should she hold any written or verbal communication with Mr. H. A. Borrowe, that the \$12,000 for the children shall be paid to the husband, and he shall have control of the same and of the children. The husband on his part, agrees that for the \$5000 he will go to Europe with his wife, and make his dwelling with her there." Mrs. J. Coleman Drayton, who seems to be the excuse for the scandal and the duel which did not take place between her husband and Borrowe, is the second and the smartest of the three charming daughters of William B. Astor, who shone in New York's social heavens at the same time a few years ago. All three made fashionable and what were supposed till now to be happy marriages. J. Coleman Drayton comes of good New York stock, and at the time he married Miss Astor was practicing law. Whether or not the money which came with his wife took away the keenness of Mr. Drayton's zest for legal distinction is not known, but the courts of New York have not seen so much of him as European courts of daintier fashion since his wedding day. Although the Draytons have a beautiful home in this city, they have of late years spent most of their time abroad, principally in London and Paris, at the latter place a leader in society at the American colony. It seems to be the feeling that Mrs. Drayton has been much abused. According to the newspaper gossip of the day. When Miss Gussie Astor was a New York belle her dominant characteristic was modesty. So marked were the simplicity of her manners and the engaging candor of her life that a portrait of her, pressing a milk-white dove to her bosom, was circulated among her friends, with the title "Innocence" beneath it.

#### Not an April Fool.

HAMBURG, April 1.—Prince Bismarck is 77 years old today, and in this city, as throughout Germany, the anniversary is being celebrated with enthusiasm. Bismarck is at Frederichsruh with the princess, his wife and his son, Count Herbert and the countess. The prince has recovered from his recent attack of illness and is able to enter with interest into the events of the day. Early in the day the reveille was sounded under the window of the prince's apartment by the Ratzberg Jeger. Every train brought large numbers of delegates, including several Hamburg guilds and representatives of organizations in all parts of the empire. Tenants of the estate have testified their loyalty by birthday gifts, more acceptable to the prince from sentiment than value, and messengers are kept busy in the delivery of telegrams.

#### In the Senate.

WASHINGTON, April 1.—Senator Morgan's resolution for an inquiry into the operations of the silver laws, offered yesterday, came up, but at Morgan's request it was laid over until Monday. After routine morning business, the Indian appropriations bill was taken up.

#### Poor Marian Dudley.

MILWAUKEE, April 1.—For some time it has been quietly talked among the friends of Marian V. Dudley, the poetess, that she was consigned to an insane asylum without proper examination. Yesterday the state board of control was in the city, and it was said that the members came for the purpose of investigating complaints made by Mrs. Dudley herself relative to her confinement. She claims perfect ability to care for herself and alleges that she was committed with the object of giving to other people the control of her property, which is said to be valued at \$10,000. The complaint as to the mental condition of Mrs. Dudley was made by her aged husband last January, and after a private examination by the physicians she was committed to a private asylum without a jury trial and without an opportunity to be heard in her own defense.

#### Speekels not in it.

PHILADELPHIA, April 1.—The opposition which has developed among the wholesale grocers, sugar brokers and others interested in this city, by the absorption by the sugar combination of the three sugar refineries of this city, has crystallized into a movement to make a fight in congress against the trust. The first step will be the introduction in congress of a bill in the house to repeal the duty of one-half a cent on refined sugar, which, it is claimed, serves no other purpose now, since there is but one interest, but to allow the trust to control the prices absolutely of both refined and raw sugars. An effort has been made to build a new independent refinery, but the projectors have found it rather difficult to secure subscriptions to the stock of the enterprise on account of the well-known methods of hostility employed by the trust to crush out rivals.

#### A Heavy Salvage Claim.

SAN FRANCISCO, April 1.—The steamer Keweenaw, Captain Jenkins, which was towed in Wednesday night with the loss of a rudder, will have a heavy salvage claim to meet. The amount is said to be not less than \$75,000. The disaster happened about six miles west of Point Reyes at 9 o'clock on Tuesday night, and at 4 a. m. on Wednesday the stern post was also carried away. The vessel is now lying at the wharf and discharging a cargo of coal valued at \$19,500. The ship itself is worth a little over \$200,000. During the storm the vessel rolled helpless and rudderless in the trough of the sea, which swept clean over the upper decks, wrenching pipes and iron stays badly and smashing skylights.

#### Buchtel Highly Honored.

NEW YORK, April 1.—The king of Greece has conferred on John D. Buchtel, of this city, the cross of Chevalier of the Royal Order of the Savior. This is an exceptional honor hitherto not bestowed upon an American. Mr. Buchtel has received from the Greek minister of foreign affairs at Athens the silver cross of the Knights of the Royal Order of the Savior, and also a diploma signed in autograph by King George I, and countersigned by L. Delyannis, Greek minister of foreign affairs. The honor was recently conferred on Prince Bismarck.

#### Pretty Rough Boxing.

BURLINGTON, Ia., April 1.—One of the longest and most stubbornly-contested fights ever fought in this part of the country resulted in a draw. The contestants were John Worley, of Burlington, and Jack Davis, of Keithsburg. The first six rounds were cyclone fighting and for the next twenty it was give and take with lightning rapidity. After about four hours' fighting the count of rounds ceased to be kept, and at the end of the fifth hour the battle was called a draw. Both men were terribly punished.

#### The Fakir and His Pills.

CHICAGO, April 2.—Four boys on the west side have died from swallowing sugar-coated pills, left on the door steps at houses by a fakir. The boys followed him up, and when he left a box, containing four each of the sweet-covered pellets, at a door, the boys would take them. One of the boys devoured the contents of forty-four boxes.

#### The Evangelical Church Fight.

CLEVELAND, April 1.—The Dubs-Bowman Evangelical church bishops' fight was again passed on today by the circuit court. Judge Upson held that the general conference of the Bowmanites at Indianapolis was the true general conference.

#### Found Dead in Bed.

WASHINGTON, April 1.—Charles Drake, ex-chief justice of the court of claims, was found dead in bed this morning at his residence in this city. He was 81 years old.

#### Death of an Ex-Confederate.

ATLANTA, Ga., April 1.—George N. Lester, attorney-general of Georgia, is dead. He was a member of the Confederate congress.

## THE CHICAGO BOMB.

### A Much More Destructive Missile than the French Bomb.

#### A CLUE TO THEIR MANUFACTURE.

#### Schooled in the Use of the Materials, can be Prepared at Home.

#### THOSE OF PARIS FROM CHICAGO.

#### Police Aware of their Manufacture, Yet Unable to Trace up their Disposal.

CHICAGO, April 2.—Since the arrest of the anarchists Ling, Spies, and Parsons, in 1887, their trial and sentence to death or the penitentiary, Chicago, has not been accused of being headquarters for the bomb-throwing school, etc., but for some time past there has been considerable comment in police circles, about a "dynamite school" in the city. It will be recollected that the Alarm, the paper published by Spies & Parsons, gave formula and directions for making bombs. This school, it is said, takes the pupil in and actually instructs in all the details of manner, feature and use of the deadly weapons. There is said to be in Boston a similar school. The stories concerning the Chicago bomb factory seems to find corroborating evidences, within a few days' past, by dispatches from Paris to the effect that the bombs which have been found there were made on the Chicago model. The police inspector of this city, when questioned concerning the dispatch, said he was aware of the fact that bombs were made in Chicago, vastly more destructive than anything that the French dynamiters have ever constructed said he: "On one occasion a carload of bombs were taken away from a certain place where they were manufactured, and no one has yet been able to locate them. I believe they are in the city ready to be used in case of trouble. There is another lot of about 900 bombs secreted, but where the police have not yet been able to tell. I believe these bombs are divided up among the most faithful and trustworthy of the anarchists. Besides this stock which I believe is stored in the city, there are additional resources for the people who use them. At present there are probably 200 men in the city who know how to make bombs, and can make them on their own kitchen stoves at night. The whole mechanism of the thing is so simple that the poorest kind of a mechanic could easily make one in an hour." There is scarcely a leader in the labor movement in Chicago who does not believe in the necessity of force to attain success in that movement. The majority of them say it is almost impossible to win a strike without resort to force. As a rule the American mechanic and the foreigners who have become Americanized, believed in using force against men who attempt to take the places of the striking workmen. Fortunately there is no prospect of any trouble in Chicago at present. The prospect was never better for a long continued agreement between the workmen of the city and their employers.

#### Road to Siuslaw.

EUGENE, Or., April 1.—The Siuslaw and Eastern railway company has submitted a proposition to the people of this county for the construction of a line of railroad from this city to Florence. The proposition asks that a free right-of-way through the city and a subsidy of \$100,000 be given by the people, for which the company promises to build the road and have it in operation in a reasonable length of time. The matter is being considered by the leading citizens, who seem to be making a decided effort to secure the required amount.

#### A Perfect Tornado.

KANSAS CITY, April 2.—It is estimated that \$1,000,000 would not cover the damages of the tornado of the past forty-eight hours, in this state, Kansas and Iowa. Tonawanda was wiped off the face of the earth, and Augusta was buffeted out of all semblance to its former self. The town was asleep when the storm swept down, and not a house or building was left standing. The storm raised everything in its path and left dead bodies lying in its wake. Four bodies have been recovered from the ruins.

Another cut in goods today at the store of N. Harris.
