Pendleton has a pumping system of city water works. We presume it is for sale cheap as the city council has under consideration a proposal by the Blue Mountain irrigation company to furnish 864,000 gallons of water per day from May 1st to October 1st, and 360,000 gallons per day from October 1st to May 1st of each year, for a consideration of \$5000 per annum, the contract to extend over a period of ten years.

Referring to a remark concerning our fellow townsman Hugh Glenn, that lately appeared in the Oregonian, the Times-Mutineer says: "During our residence in this city of over a quarter of a century we never knew before that Mr. Glenn was a well-demonstrate before that Mr. Glenn was a "democratic war-horse," or really exercised any influence in politics. He has never been elected to any office by the suffrages of his fellow citizens, and the position he now occupies as member of the water commission was an appointive one by the mayor. As one of those named in the bill he is in the office by virtue of the adoption of the amended charter, and not by the votes of the elec-tors of the municipality of Dalles City. Therefore his opinions on political mat-ters carries little or no weight."

Wrecked by a Mirage.

A mirage in the Carribean sea was the cause of the total loss of the new American barkentine Steadfast, while bound from Port of Spain to Philadelphia. When the Steadfast sighted the lofty peaks of St. Croix the atmosphere assumed a peculiar light color, and it be-came impossible to detect the sky from the island, everything assuming a sim-ilar shade and color resembling the cirrostratus clouds, hiding the entire lower portion of the island. The peaks and mountain appeared to be twenty miles

The tops of the mountains seemed to be inverted, the tall cocoanuts appearing to grow from the sky to the earth. The sugar grinding mills were pouring their smoke downward, and the workmen working upside down. The Steadfast was kept under easy sail and perfect control. Everything went well until a grinding sound was heard, and a sudden tremor went through the ship. The vessel crashed over the reefs and was soon fast on the rocky shore, where her wreck still remains. The mirage made the island appear twenty miles away.—Bos-

The Cost of Italian Opera.

Talking of money reminds me that Signor Vianesi says he left the Paris opera, where he has been conductor for the last four years, because the salary was not large enough and the work too exacting. He received \$2,400 a year for ten months work, and very hard work at that. He comes to America and gets \$8,000 for seven months. Mr. Abbey's salary list is a formidable one. Miss Van Zandt gets \$1,000 a performance, Van Zandt gets \$1,000 a performance, Miss Eames, \$500; Lasalle, the French baritone, \$800; Mme. Albani, \$600, and five other singers from \$400 to \$500. There is a chorus of eighty, averaging \$20 a week, or \$1,600, and an orchestra costing \$2,000 a week.

The expenses of giving opera with such a company cannot fall below \$5,000 a performance, so that even at five dollars for a parquet seat, the price for the

Let us apply this charming specimen of backwoods logic to the Mulineer man himself. He has never been elected to any office by the suffrages of his fellow citizens.
