UP THE OKANOGAN.

Promising Prospect for an Active Season Inland.

A RICH REGION TO BE REACHED.

A Tributary Stretch of the Columbia in Aid of an Open River.

CONCENTRATES FROM IDLE MINES.

Opening of Navigation to the Ruby District—An El Dorado Long Neglected.

Rock Island, Wash., March 5.—The prospects for an active season in the well known, but long neglected Okanogan mines, is better this spring than ever before since the discovery of hidden treasures in that extensive, but only partly prospected region. The steamer City of Ellensburg, built almost wholly for the trade of the Okanogan river, which is navigable for a distance of 165 miles above this point, but which has heretofore met with poor success, and was finally tied up because of the death of her owner, recently passed into the hands of J. R. Peters and M. S. Dana her, who have thoroughly overhauled her, and fitted her for passenger and freight service, and will this week start her out upon the trade with flattering hope of success. She is to run regularly from this place, on the Columbia, with proper connections arranged for, and will penetrate the wilderness of the Okanogan to the head of navigation, having assurances of at least ten tons daily of concentrates from one mill alone in the Ruby district, at rates which will set the wheels of operation actively to work in other districts near enough to make the margin of profits sufficient to develop the whole district. The great Wenatchee region will also be tapped, and lively times may be expected. If the cascades and dalles of the middle Columbia are open as predicted within two years, it will not be a day too soon to meet the requirements of a vast traffic, which may be expected from this new source. Until such times, however, the more expensive rail route must be employed, and this will of necessity convert the business by way of the Northern Pacific to points on Puget sound. It is such small beginnings as this, that appeal most loudly for an open river, and the cheering intelligence that the river is to be so soon opened inspires the people to renewed energies to meet the new order of things which may reasonably be expected. The new owners of the City of Ellensburg are experienced steamboat men, familiar with the Columbia river and its tributaries, and that their ventures may lead to prosperity throughout the whole country is the wish of all—present railway combinations excepted.

Upper Columbia Steamers.

PASCO, April 5.—Capt. W. P. Gray of this city, well known to old residents as a pilot and captain on the river, has been for some time looking up the possibilities of again operating a line of steamboats on the upper river. The Record says: "We understand that he has secured a conditional lease of the steamboats belonging to the Northern Pacific that are now lying at Pasco, and it is his intention to begin running as soon as there are indications that a boat can make expenses. The placing of a vital importance to the matter of the river, and the people all along tified in raising a people would be justification of the subsidy for the establishment of the line for the accommodation of the residents along the Columbia and the developments of the bordering lands. There are thousands of acres of good fruit land lying idle that with the modern methods of irrigation can be made valuable if afforded better marketing facilities. A competing line of transportation will increase the area of tilled wheat land; and we hope soon to be able to mention the fact that a line of boats are being operated on the river.

Tried Drugged Oranges.

CARTHAGE, Mo., April 5.—As officer Dacey was taking Ralph Ralston to the penitentiary under sentence for counterfeiting, the nervous prisoner tried to effect his escape by securing some oranges, in to which he managed to inject morphine after which he gave them to the officer, hoping he would eat them and go to sleep. The plot leaked out before being consummated, and did not win.

Coming Events.

St. Paul, April 5.—"When the Great Northern opens its Pacific extension, which will be some time before Chicago is chocked up with world's fair traffic," said a prominent railroader, "the transcontinental's action in the northwest will undergo a radical change. Rates will be less stable and in any event lower, while the fight for traffic will have a sectional effect as well. The Northern Pacific and Union Pacific, as far as the business between St. Paul and the coast is concerned have had their own way, as the line via the boundary at Winnipeg and Vancouver had been round about in character. Yellowstone Park and other excursion traffic has also been confined to one or two lines, giving an advantage not obtainable under sharp competition. But watch the fun fly when the Great Northern has driven home the gold spike. Hill's line will make its influence felt everywhere, even by the Atchison. Hill is as aggressive as he is shrewd, and he is not building railroads for his health."

Work of Jack Frost.

JACKSON, Miss., April 5.—Dr. Mackay, president of the state horticultural society, says that peaches, tomatoes, strawberries, beans and other early vegetables are gone up. The Doctor, who is known over the south as the strawberry king of Mississippi, is perhaps the best posted horticulturist in this country. He has many acres of peaches, and more than 100 acres in strawberries, but says the early crop is killed beyond doubt or peradventure. It is simply impossible to estimate the damage done by the cold snap. All market gardeners have lost most of their tomato plants in the cold frame, but fortunately have extra plants to replace. Dr. Mackay lost 15,000 plants, but has 60,000 more in his hot-bed.

A Belle of Virginia.

RICHMOND, April 4.—Mrs. Phillips Haxall, one of the most beautiful of southern women, and the recognized leader of society in Virginia, died at 6 o'clock this morning, after an illness of an hour. She was regarded as in perfect health a few days ago, when there were symptoms of heart trouble, which is said to have been the cause of the sudden termination of her life. Before her marriage Mrs. Haxall was Miss Mary Triplett, and reigned as the belle of Virginia. She was the innocent cause, several years ago, of a duel that resulted in the killing of John Mordecai by Capt. Page McCarthy, now editor of the National Democrat in Washington. Soon after that occurrence she married Capt. Haxall.

Virginia Ladies' Protest.

WHEELING, W. Va., April 4.—A movement has been on foot among the woman's world's fair clubs of this state which may seriously embarrass the efforts of the West Virginia women commissioners to secure a creditable showing of women's work from this state. The club at Fairmont, one of the principal points in the state, has resolved, "in view of the likelihood that the gates of the Columbian Exposition will be kept open Sunday, and that liquor will be sold on the grounds," to suspend indefinitely. The woman's clubs in many other places in the state will take similar action.

Anti-Chinese League.

NEW YORK, April 4.—The executive board of the national anti-Chinese league has forwarded to all members a series of resolutions recently passed by the league, which prohibit the Chinese from entering the country, and request the Chinese to pass laws prohibiting the Chinese from entering the country, without regard to their occupation, or class, except proper registration and enumeration of those that are here. The resolutions are endorsed by the Knights of Labor and others.

Warmest day on Record.

BOSTON, April 4.—Yesterday was the warmest day on record in Boston, for the month of April. The mercury rose to 77° in the shade, a strong south wind prevailing all day. Not since the establishment of the signal service, twenty years ago, have these figures been reached in April.

Not at all Dangerous.

BUENOS AYRES, April 4.—The excitement in consequence of the radical attempt to overthrow the government is quieting. The decisive action of the authorities in ordering large detachments to the city put a damper on the revolution. No further trouble is anticipated.

Typhus in New York.

NEW YORK, April 4.—Three new cases of typhus were discovered today, and the victims were immediately sent to North Brothers island.

MEETING OF LEADERS.

Banquet of the Iroquois Democratic Club at Chicago.

CLEVELAND HEADS THE TICKET.

Ewing's Poetic Outbreak Inspires Sentiment for Grover.

GEN. DON M. DICKINSON'S EULOGY.

The Necessity of Yielding to the Party's Accredited Representatives.

Other News.

CHICAGO, April 5.—The banquet of the Iroquois democratic club Saturday night is the uppermost topic in democratic circles. Distinguished leaders of the party were present from several states contiguous to Chicago, among whom were Gov. Boyd, of Nebraska; Gov. Peck, of Wisconsin; ex-Postmaster General Dickinson, of Michigan; Hon. Sherman Hoar, of Massachusetts; Gov. Winans, Michigan; Hon. Dewitt Warner, of New York, were present. The first outburst of applause came at a fervent reference to Grover Cleveland, near the end of the address. The first speaker was Hon. Ewing, of Chicago. After nominally speaking to the toast, "Thomas Jefferson," whose anniversary the club celebrated, he wound up his remarks with an exultant poetic outbreak to the effect that "Ten thousand times ten thousand men shall name land." Don M. Dickinson, a member of the club pointed to as land's personal representative, to feel the importance of the m was about to deliver, whether inspired the ex-president. He eulogizing the value of party and the necessity of yielding cisions of the party's accreditatives in caucus. The Dickinson's speech was as the belief that the party as a standard-bearer a surely a representative of party and of the people, plainly intended that it stood that that standard be Grover Cleveland. TI very enthusiastic.

Exciting Election!

TACOMA, April 5.—The coma today is one the u yet held in the "City of will be known in future beginning of an era for administration. It is cast the result. It saloon and gam in is f thwart the purp of people. Th an incessant the campai these element war, from the an, although at the be that the opposi conservative course ni cter element to come out asse.

Woman Bands in Idaho.

BOISE CITY, April 5.—Six women arrested at a ranch near Salmon yesterday, who are suspected of highway robberies. There is no doubt of their guilt. The women, who claim to be sisters, are said to have committed many highway robberies in that section of the country. They were dressed as men while engaged in the robberies. They declare their father compelled them to be bandits. They are known as the Harvey family. The arrest of the old man, it is expected, will occur today.

Panama Station Burned.

PANAMA, April 4.—Culebra, one of the principal stations of the canal, eight miles above here, has been partially destroyed by an incendiary fire. Seventeen blocks, including the canteen, shops, church and canal barracks, were burned, involving a loss of \$20,000. A negro caught looting, was stabbed, and a Chinaman was burned to death.

Strike for More Pay.

NEW YORK, April 4.—The cabinet-makers and varnishers of this city struck this morning. They demand eight hours a day and the establishment of the old rate of pay. One-third of the cabinet-making firms granted the request and about one-fourth of the varnish employers. Over 1000 men are on a strike.

To Penal Servitude.

LONDON, April 4.—Three of the Walsall anarchists were sentenced today to ten years, and one to five years penal servitude.
