The Washington Independent urges the ton can afford to pay a tax of \$1,100,000 90 inches under the same conditions. annually for this purpose and save money by it. All true enough, perhaps, but then Washington won't do it. The legislators of that state are too much concerned with building up the Sound eastern part of it.

Examination at Vale, in the Malheur murder case passed off quietly. The militia will reach Baker City today. The prisoners, Wm. and John Bailey and Lee Mullen, were held at Vale, as of the examination, and all fears of the governor. lynching are dispelled. Al. Mullen and John Corder were dismissed as to the charge, but were held as witnesses, in the sum of \$1,000 each. J. N. Randleman was also held as a prosecuting witness in the sum of \$300.

An exchange says: The republicans of Benton county last Monday nominated a man that knows more about the clerkship of Benton county than any other man in the state, and that man is Bush Wilson. For twenty-eight years he has held that office and given general satisfaction to the people of the county irrespective of politics. That he will be elected for two years more there is no question. There is not a man living that can defeat Bush Wilson for clerk, in Benton county.

Senator Dolph yesterday secured the passage through the senate of his bill road -lands, are entitled to purchase the same from the government, they make additional proof and payment for their lands; also his bill authorizing the purchasers of timber and stone lands to Repairing and Cleaning make oaths and final proofs before officers authorized to administer oaths and take proofs in homestead cases

Representative Stevens of Massachusetts, the democratic free-wool woolen manufacturer of the house, speaking of the tariff issue in a recent interview said: "The removing of the duties on wool would be a great benefit to the manufacturers of the country." No doubt of it .- The manufacturers would be benefitted, that is plain. But where would the wool growers come in? The measure would help one class at the expense of the other.

Some of the revelations of the census will startle a good many people. For instance, there are now more than 500,-000 almond trees actually bearing in the United States; there are hundreds of thousands of bearing cocoanut trees; there are more than 250,000 olive trees, producing fruit equal to the best Mediterranean varieties. There are more than 500,000 bearing banana plants, 200,000 bearing lemon trees, 4,000,000 orange trees, and 21,000,000 pineapples. And the value of tropical and semi-tropcal fruits grown under the American flag is nearly \$20,000,000.

It is now pretty certain that there will a "fusion" or Dolly Varden ticket in Multnomah county, one half of which will be democratic and the other of "citizen" material. Rumor has it that the democrats will endorse the fusion ticket on the principle, perhaps, that half a loaf is better than no bread. The Oregonian will certainly fight the fusion ticket and if so, lively times are ahead for the office seekers.

There is a democrat editor in this county of whom it is perfectly safe to bet that he has never to this day, heard that Jeff Davis is dead and the war of the rebellion ended. At least that is the impression one gets from reading his al-leged editorials.

In a church of Lancaster, Pa., a meda is awarded to any one who does not miss attendance at church or Sunday-school through the year. The sexton won it

The clerical organ, Secola, reaffirms that Archbishop Ireland, of St. Paul, is When she had Children, the gave them Casto to be appointed a cardinal.

Speaking the other day of the achievenents of the present administration, Secretary Tracy said: "In regard to the finances of the treasury, which we were told by partisan organs was bankrupt, it has paid all current expenses, redeemed \$32,000,000 of 41/2 per cent. bonds, paid back to the states \$13,000,-000 of direct taxes, and is on a sound basis today. In addition \$60,000,000 has been annually saved to the people by the reduction of taxation, and \$259,000,-000 has been struck in three years from the total of the public debt."

According to statistics recently published, the 1,884,000 laborers of the state of New York, crushed down by protection and robber tariff, have to their credit in the savings bank \$33,623,000 more than the entire 15,081,000 laborers of Great Britian, enriched by free trade, have to their credit. The American laborer has saved more than fourteen times as much as the English laborer, and the average American is not much of a hand to save money, either.

A great many persons who have crossed the Brooklyn bridge are probably electors of Washington state to elect a not aware of the fact that the large legislature pledged to work for the pas- cables from which the bridge proper desage of a law to construct a portage at pends are 28 inches shorter during very the dalles of the Columbia, on the cold weather than in midsummer, and Washington side of the river. The In- that the cables by means of which the dependent claims that Eastern Washing- cars are hauled across the bridge vary

Among the events which will make Weston conspicuous during the present season is the proposed grand re-union and picnic of the Umatilla county cities to care much for the needs of the Pioneer association. The exact date of the ceremonies has not as yet been announced, but it will be May, and con-tinue two days.

New York Reapportionment Bill.

ALBANY, N. Y., April 13 .- The congressional reapportionment bill has the people are satisfied with the result passed the assembly. It now goes to

Russian Generals in Command.

Paris, April 13 .- It is said several leading Russian generals have left St. Petersburg to take command of the troops massed on the German frontier.
