The directors of the Single Track railway construction company have called a meeting at Portland, to consider the advisability of increasing the capital stock.

From the Fossil Journal we learn that Henry Steers and family left Fossil last week for their Antelope ranch, where they will remain during the summer months.

Water deeply impregnated with salt has been struck near Union at a depth of ninety-three feet. The water rises almost to the surface and if an artesian flow can be obtained it may lead to the establishment of a salt manufactory there.

Shippers of stock should remember that a very considerable can be saved by shipping by the Regulator. This boat has a capacity for about 150 head, or more than 6 car loads of cattle and the rates are more than 50 per cent. lower than by rail.

Col. Sianott was congratulated today by a sympathizing guest upon the fact that he was now to be exempt from consuming so much fuel to keep the Umatilla house comfortable. "Yes," said the Colonel, grasping the situation and looking at the thermometer, "but you must remember one thing; the moment the furnace stops eating up wood, the refrigerator will begin eating up ice."

Ike Dryer and Henry Patison of Wamic, were in town last night.

D. W. Rayburn and H. T. Corwin are registered at the European house.

W. K., and George MacLeod two of Kingsley's solid men, were in town last night.

C. Wells Whitcomb, M. D., of Dufur arrived in town last night from a trip to Portland.

Dr. John A. Gisendorfer, of Arlington, who was a pupil of the editor of this journal about seventeen years ago, is registered at the Umatilla house.

Assessor Barnett has been interviewing the taxpayers of Tygh Valley, Wamic and Wapinitia and leaves this afternoon for the Antelope and Bake Oven country.

The Calls lilies presented to the Congregational church, mention of which was made yesterday, were from the chancel committee of St. Paul's (Episcopal) church.

At last a fair agreement has been reached between the United States and England, in relation to the protection of seals. Meantime, poachers continue their work.

Eggs and chickens for Easter were scarce in The Dalles' markets Saturday, which leads to the suggestion that this is a good point for some enterprising man to establish a hennery.

Thomas Brogan, brother of Phil Brogan, Sen., of Antelope arrived a few days ago with his wife and six children, from New Zealand. They will probably make their future home in this country.

We learn, says the Prineville News, through a private letter from Barns that the Harney valley mines are rich beyond a doubt. The gold is nearly all coarse grained. Miners are already going there in large numbers, and the outlook for a prosperous season in Harney is indeed flattering.

As an evidence that the disciples of Isaac Walton mean to enjoy their favorite sport, during the coming summer it may be mentioned that Snipes & Kinersly, last Saturday, sold 10 split bamboo fishing poles and 500 flies and neither Judge Thornbury nor Captain Lewis have laid in their supply yet.

Mr. Kennedy succeeded in moving his new boat down to the river front at the foot of Union street yesterday, where she will be furnished with a boiler and engine and otherwise fitted for general traffic on the middle river. The boat is 50 feet in length, 10 feet beam with 6 feet hold. She has a carrying capacity of ten tons.

The Russell train of thirty-two cars from Massillon, Ohio, which passed through The Dalles Sunday, carried forty traction engines; forty-five separators; five saw mills; one car load of saws, one car load of advertising matter; forty water tanks; in all, goods valued at \$100,000, upon which the freight amounts to \$13,000. The train was turned over to Mr. S. G. Rigdon, at this city, and proceeded to Portland. The Dalles agents, Messrs. J. M. Fillion & Co., will be in receipt of a share of the goods this week.

We are pleased to learn from Dr. Sutherland that Miss Lily Richards and Master Omer Spencer, son of Rev. A. C. Spencer, who have been suffering from diphtheria are improving. The doctor gave them permission to sit up this afternoon. Miss Nora Spencer, in whom the symptoms have been more characteristic remains about the same, although the membrane appears to have ceased spreading in the throat. The doctor says there can be no doubt the disease is diphtheria as in Miss Spencer's case it is very characteristic.

Public School Statistics.

Superintendent Shelly's annual report places the number of persons in this county, between the ages of four and twenty, at 2,876. Of these the males exceed the females by 28. The number of pupils enrolled in the common schools during the year is 1,347. Although seven school districts were cut off in the strip recently attached to Sherman county, there are only 38 persons less this year than last who draw school money. There are 56 school buildings in the county: 51 frame, 3 brick, and 2 log. The total value of school property, including buildings, school furniture, apparatus, etc., is estimated at \$53,925.19. The average salary paid to male teachers is \$62.75 per month, and that of female teachers \$42.00. There are 55 school districts in the county, which employed a staff of 62 teachers. The superintendent is now busy making out the county apportionment, which he supposes will be about the same as last year.

It is easy to note the fact that this will be one of the most harmonious conventions ever held in Oregon.

Kingsley Correspondence.

KINGSLEY, Or., April, 16.

Editor Chronicle:

I thought I would send a few items from our little burg where the farmers are through seeding, and the weary are at rest.

The weather is cool with frosty nights. Wheat that is sown is making plenty of root, but is not growing much on the surface.

Mr. Brigham, of Dufur, preached a very able sermon to a large congregation at our school house last Sunday, and the Rev. Mr. Baker, of Dufur, preached Monday and Tuesday nights to very attentive audiences. So you see our people are a little inclined to be religious.

Our school started on the first Monday of April, under the management of Prof. Merrill, a man well qualified to teach and train the mind of our youths.

Our Sunday school is a grand success, under the able management of Supt. J. D. Whitten, assisted by our able school teacher.

The Literary society was a failure last Saturday night, on account of the directors locking the school house on them.

Henry Walterson, of the Louisville Courier-Journal has made a strong plea for Russell Young. No action.

A lively time is expected in political circles at New Orleans today. The election is for state, parish and city officers, and besides two democratic tickets in the field, there are two republican tickets, a farmers' alliance ticket, and a peoples' ticket. Some broken noses may be looked for.

Garry Flaxseeds for Cinders in the Eye.

One of the simplest and most effective cures for that often serious affliction to a traveler, a cinder in the eye, is that of a common flaxseed. One or two of these may be placed in the eye without injury; they shortly begin to swell and exude a glutinous substance that covers the ball of the eye, enveloping any foreign substance that may be in it; then seed and irritant may be washed out. Keep a dozen of these seeds in a compartment of your purse, and they may prove an invaluable accessory.—Her Point of View in New York Times.

Heaven for Some.

There is said to be a peculiar religious society, the members of which believe that human beings of today are to occupy heaven as animals when their souls depart from earthly tenements, and that dumb brutes on dying will be transformed into mankind.—Philadelphia Ledger.

Every observant American who visits Great Britain must be struck by the fact that the large majority of soldiers whom he sees there, whether red coated Englishmen or kilts Scots, are lads under the age of twenty.

An equivocal compliment is perplexing a young man of Hallowell, Me. A fascinating girl, to whom he had been paying considerable attention, has named a pet calf after him.

A CLOUD BURST.

"Say, John, where did you get those well fitting stylish shoes from?"

"Why, I purchased them of The Dalles Mercantile Company."

"You don't say so?"

"But why do you ask?"

"Because I have never seen such shoes since I left Boston. What brand did you say they were?"

"Why Walter H. Tenney & Co., of course."

"Well, now; I thought so. I am right glad I met you, for I shall buy a pair for myself, and take my family along too, for my children have always worn them. And do you know? they last a whole year."

"Yes, and you can get them in all widths, and prices, in men's, ladies, misses, child's, infants, boys and youths. And do you know, they are sold under a guarantee?"

"No. Why do they do so?"

"Because they have a world wide reputation, and can be relied upon."

The Walter H. Tenney Shoe is sold only by The Dalles Mercantile Company, who are sole agents for The Dalles.

OREGON LIME.

This lime is manufactured by The Oregon Marble and Lime Company, near Huntington, Oregon, and has earned the reputation of being the strongest lime in the market, and consequently, in addition to making the best work is at an equal price, the cheapest to the user. Carbonate of Lime	98.56	Magnesia	.015
Silica	1.31	Water	.085
Peroxide of Iron	.07	Phosphates	Trace

A traveling man who chanced to be in the store of E. V.
