129 Second Street, The Dalles, Oregon

IS GROWING SERIOUS.

The Earthquake in California is Now a Grave Calamity.

QUAKES THREE SUCCESSIVE DAYS.

The Latest One, Yesterday, the Most Serious of Any Yet Felt.

VOLCANIC ERUPTIONS EXPECTED.

People Along the Base of the Mountains Are Living in Mortal Dread. Other News.

WINTERS, Cal., April 21.—Another shock of earthquake occurred here at 9:40 a. m., throwing down Masonic hall, Chadwick's building, Bertholet's two-story stone building, Humphrey Bros.' one-story stone building, and generally demolishing goods, fixtures, etc. One man was badly hurt by a falling wall, and Miss Clara Jensen, a milliner, was hurt, and others more or less injured. Business is suspended. Main street is a scene of desolation. A fire in the rear of Mrs. Clark's restaurant was put out, so there is no damage yet from that source. J. Devilbiss' house, one mile west, is a total wreck, also Baker's adobe, and J. R. Wolfskill's stone dwelling. It is now cloudy and raining a little.

SACRAMENTO BADLY SHAKEN.

SACRAMENTO, April 21.—Another severe earthquake shock occurred this morning at 9:45 o'clock, lasting 20 seconds. Buildings got a lively shaking, and plastering fell from many ceilings. Several chimneys toppled over, and much glassware was broken in the crockery stores. The public schools were dismissed. All the pupils got out without creating a panic. The state capitol building suffered. A large portion of one of the plaster statues over the portico, 150 feet from the ground, fell and struck 40 feet from the building. The gigantic building trembled violently, and there was a general exodus of clerks. It was discovered that a crack was made in the ceiling extending from one end of the building to the other, and going through the office of the superintendent of public instruction clear into the assembly chamber. The beautiful ceiling of the latter, which is formed of stucco work tipped with gold, was rent in places, as were also the Corinthian columns supporting the gallery. Books were thrown from the shelves and general disorder reigned.

PEOPLE PANIC STRICKEN.

In Woodland the shock was more severe than the one of Tuesday, and the most substantial buildings were wrecked or damaged. Business is practically suspended, as people are fearing another tremor. Some damage was done at Esparto, but there are no details. In Dixon the shock at 9:40 a. m., completed the wreck threatened before, and but two or three brick buildings in town are safe. The occupants of the brick buildings, who remained after the first shock, are moving out. No one was injured, but there were many narrow escapes. The people are panic-stricken, and it is believed the ruin of the town will be completed before the shocks cease. Every available mechanic and laborer is at work attempting to clear away the wreckage and take down the condemned buildings before a fatal accident occurs.

SAN FRANCISCO AND ELSEWHERE.

SAN FRANCISCO, April 21.—A moderately heavy earthquake shock visited San Francisco at 9:42 this morning. The vibrations were north and south, lasting twenty seconds. In Davisville, the shock was felt at 9:43, and was very severe, vibrations running from southwest to northwest. It was of brief duration, lasting no more than five seconds, yet in severity it seemed to exceed that of the 19th. The additional damage is noticeable in the rear walls of the Masonic and Odd Fellow's hall, where the fissures show considerable enlargement, and are now really dangerous should the vibrations continue. In Chico, the shock lasted thirty seconds, vibrations north to south. Lamps in buildings all over the city were set swinging, ceilings in some places cracked and clocks stopped. Rain has been steadily falling since last night. In Napa, at 9:42, the shock was even heavier than that of Tuesday morning. Several brick buildings were cracked and much plaster fell, but nobody was hurt.

VACAVILLE REVISITED.

VACAVILLE, April 21.—The shock was heavy, but no additional damage re-

sulted. Workmen removing the debris on the Odd Fellows' building had a narrow escape. They refuse to return to work. The vibration was east and west, and occurred about 9:47. A few more chimneys are down. The shock reached Biggs at 9:45, and was heavy. The vibrations were north and south, lasting about eight seconds. Eight distinct vibrations were felt. Clocks stopped and plaster fell. In Auburn, it was slight, at 9:43, doing no damage. It commenced raining at 5 o'clock this morning, and is still raining. In Fresno, it was sharp, at 9:45. In Reno slight.

Telegraphic Flashes.

Chili had a light earthquake last week.

Mary Brown has been appointed postmaster at Hillsboro, Or.

Gov. Markham of California, is sending tents to shelter people in Winters.

The report of the sale of San Domingo is "news" to everybody who is in any way immediately concerned.

Twelve men are imprisoned in a flooded mine at Pottsville, Pa. Two escaped. Ten of the imprisoned men are Italians.

Nine persons were burned in a fire in St. Petersburg, fifteen others were buried in the ruins, and many others were badly hurt by jumping from the windows.

May and December have met in Indiana. The bride, Miss Nancy Sanders, is 22, the groom, James Ward, is 83. The wedding has twice been presented, just as the ceremony was to be performed, in Vincennes.

A colored man named White, who broke open and robbed a pawn broker's shop in Meridan, Miss., killed one officer and badly wounded another, in an effort to escape. He had stolen \$1,200 worth of goods. He was put in jail and his case taken before Justice Lynch, on a motion of "rope or no rope."

Wm. Colby, a farm hand near Marine City, Mich., arrested on suspicion, confessed the murder of Richard Cook. He says that he killed Cook with a neck-yoke in self-defense during a quarrel about a girl with whom both loved. The condition of the body contradicts Colby's testimony in important particulars.

The Weather Prophet Vanghu predicts another tornado May 5th to 12th, from the Pacific coast eastward, via lower California, across St. Paul, etc. People who read his last predictions and are in dread of this one, talk of attending the Presbyterian General Assembly to meet in Portland, Or., May 18th, hoping thus to escape.

The new Reading combination is threatened by a strike from dissatisfied employes. Since the famous Reading strike in Pennsylvania, which resulted in President Corbin and Vice-President McLeod utterly uprooting the labor organizations, there has been little organized labor on the Reading road.

A dispatch from English, Ind., says: "The Little Blue river, gorged by saw-logs, has backed up and flooded the business portion of the town to a depth of five feet. Many cattle, sheep and hogs were drowned." Why the sheep and hogs were in "the business portion of the town," is left to the surmise of the night editor who fills in the "skeleton" dispatch. This was neglected.

President Eliot, of Harvard, is enjoying life in the regions of Western Oregon and Washington. He says the "ferocious and anti-Mormon republican Tribune," of Salt Lake city, published an erroneous report of his speech in that city and argued the error by distorted comments. "But," said Mr. Eliot, "a republican paper is not usually disposed to report correctly what I say, since I had the misfortune to become a democrat."

Chinese Exclusion.

WASHINGTON, April 22.—On the return of Senator Dolph from Boston yesterday he took decided exception to the view that the exclusion bill in force will not expire until 1894. He believed it was wise to secure some legislation, even if it was not all that is desired. It is reported that other Pacific coast senators have been informed that the course of Senator Dolph is very unsatisfactory to his people, and that he should support the Geary bill.

All Ready—Roll.

SALEM, April 22.—According to section 36 of the new law, yesterday was the last day for filing nominations and acceptances for state officers. Dunham Wright filed no acceptance as the peoples' party candidate for supreme judge, and none was made in the prohibition party for attorney-general. Nominations, if made by individual electors, may be filed for fifteen days yet.

WANT MEN NOT CATTLE

Settlers Trying to Get the Cattle Men From the Military.

FORCED MARCHES IN SNOW STORMS

Battle Between Cowboys on Little Powder River Reported.

SETTLERS OUTNUMBER TROOPS.

The Cattlemen From Texas—The Settlers at Home—Previous Misunderstandings.

DOUGLAS, Wyo., April 22.—The military escort, sent into the cattle regions to rescue the Texas cattlemen who were surrounded by settlers, threatening vengeance for usurping the rights of the settlers, called rustlers, is expected here today. The cattlemen are being transported in heavy wagons drawn by four-horse teams furnished by the stage company, and even should there be no attack from settlers the march will be a hard one, for there is no point on the road between Crazy Woman and Brown springs, a distance of ninety miles, where hay or grain could be obtained for the horses. As a sample of the traveling along the road between this place and Fort McKinney, it took 9 hours yesterday to make the trip, twenty-five miles, to Sage creek, in an open buggy, in the face of a driving snow storm, and that section of the road is the best of the 150 miles between the two places. The cattlemen, forty-two in number, are in charge of Col. Van Horne, and his command of 132 men. They left Fort McKinney early yesterday morning, but where they are at present no one knows. A snow storm has been raging with unabated severity and the trail is in a frightful condition. It was the intention of the troops to make Powder river the objective point of the first day's march, but it was absolutely impossible to get further than Crazy Woman, twenty miles from the starting point. There they camped Monday and if the storm at Sage creek is any criterion of that up there, they did not move a hoof yesterday. The weather this morning is clearing and it is probable that the march will be resumed. If so, the critical point will be reached at Powder river. The military guard is not more than 150 mounted men, against the cattlemen are 500 thoroughly armed and much better equipped settlers determined to get possession of cattlemen, for trial. No better spot for an ambuscade could be selected than the immediate vicinity of Powder river. Canyons and ravines abound, and fifty expert riflemen could easily pick off the escort and prisoners from the sheltering rocks. The settlers feel that they have a just cause, and only wish to prevent the Texans from leaving Wyoming before they can be brought to trial for depredations committed upon the settler's lands.

The Facts as They Are.

BUFFALO, Wyo., April 22.—The truth concerning the troubles in Wyoming have been embodied in a statement to President Harrison, asking him to receive a delegation to lay before him all the facts concerning the trouble between the cattlemen in the state. The statement shows that contrary to all laws, an armed body of capitalists entered the country with the avowed intention of taking possession of and controlling the same in their own interests. It is believed their aim was to terrorize and depopulate the country, and, if need be, murder all who resisted. It adds: "The citizens of the country are greatly maligned and their actions misrepresented." Senator Warren assures the people that they will be received, and has expressed the opinion that the people were acting under a misapprehension of the real purpose of the general government in dealing with the matter. Its object was merely to maintain the supremacy of the law. In due course of time, he said, the cattlemen would be turned over to the state authorities and tried. The intervention of the United States authorities would not oppress the people in any way.

Rep. Hermann has asked that the steamer Gedney, belonging to the coast and geodetic survey, be directed to go to Astoria to take part in the celebration May 10th. She would be a fine flagship for the Mosquito fleet.
