LOCAL BREVITIES.

Mr. E. Shanno is paving his part of the foot of Union street.

Hood River Glacier. A force of sixty men are engaged in cutting stone at the Locks, and if another appropriation is made available this summer, an immense amount of work will be done. Mr. Wiley, the superindent, showed us a piece of wall, made of cut stone and concrete, over 300 feet long and 46 high, that was laid last fall in just thirty days.

Mr. D. B. Kelly, a prominent stockman of Crook county, has furnished us

with the following table of altitudes above sea level, taken from an aneroid, while on a recent trip through the places mentioned : Mitchell, 2,700 feet ; Burnt Ranch, 1,300 feet; Muddy Station, 1,460 feet; Currant Creek Summit, 3,420 feet; Cold Camp, 3,200 feet; Antelope, 2,540 feet ; Cross Hollows, 3,250 feet ; Sherar's Bridge, 400 feet; top of Deschutes hill, 2,750 feet; The Dalles, 116 feet.

Corvallis Times. The first vehicle manufactured at the Corvallis wagon and carriage factory was finished and put together last Toesday. There are about 250 carts, buggies and carriages, on the eve of completion, and in a very short time the company will be able to supply the urgent demand of the Oregon market. Orders are coming in every day, and it begins to look as though they will be able to dispose of all the

The election of a colonel for the third regiment, O. N. G., held in this city last expressions of precedence that the popu night, resulted in a victory for Major Lucas of Condon. Only two persons were placed in nomination, Major Lucas and Lieut. Col. Thompson of The Dalles. The vote stood as follows: For Major Lucas, A Co. 1; C Co. 3; E Co. 3; F. Co. 2; G Co. 2; I Co. 3; total 14. For Col. Thompson: A Co. 2; B Co. 3; D Co. 3; total 8. The vote of K Co., of La Grande did not reach here in time, but it is understood to have been in favor of Major Lucas.

Prineville News. We regard the nom-ination of Judge A. S. Bennett for judge of the supreme court as one of the wisest acts of the democratic state convention. Mr. Bennett is so well and favorably known in this county that he needs no introduction ftom us. In fact the people here are still wont to call him a Crook county boy, and claim him as their own. Mr. Bennett, as all know, is an exceptionally ably lawyer, and the majority that the democrats of this county will roll up for him next June will make him know he is in it, so far as this commonwealth is concerned.

A Jiltod Artist's Sutcide.

Paul Canon, artist. journalist, mem-ber of a half dozen clubs and looked upon at St. Joseph, Mo., as a rival to James Whitcomb Riley, walked into Levin's gun store and asked to look at some revolvers. Selecting a weapon of 88-caliber Canon inquired if the price included cartridges. On being told that it did he requested the storekeeper to load it for him. Taking the weapon in his hand Canon said:

"Are you sure this gun will shoot straight?" "If it doesn't you needn't pay for it

"It looks like a good weapon," said Canon, "but I'd like to bet you the cigars I couldn't hit a mark six inches

away "TIl take yon," quickly replied the dealer

"All right; here goes," said Canon and before the horrified shopkeeper could interfere Canon had placed the pistol to his temple and sent a bullet through his brain.

On his person was found a note ad dressed simply to "Adelaide." It said. "DEAR GIRL-You have wedded wealth and I am wedded to death Which is the happier? PAUL" It told the whole story. A short time ago the announcement of his engage-ment to one of the most beautiful girls in the city was made. A wealthier suitor appeared on the scene and she had heartlessly jilted him. -Cor. Chicago Tribune.

The Kits Not to Prevail.

It would seem evident to any one who has been watching passing events and lar track of the future will be the regu lation mile track, with quarter mile turns, quarter mile stretches, railroad curves and grades, made of good, elastic soil, and on a level plane. All of the "solid comforts" of trotting races are with this form of track, because spectators can see what is going on, and the danger to horses and drivers is reduced to a minimum. There is no use of thinking or talking about the trotting turf remaining a popular resort for the recreation loving public unless trotting races are conducted on a track and in such a manner that spectators can get something for their money.-Turf. but to remove the greater number of sheep and find food for them elsewhere. It is believed that at least two-thirds of the sheep on the affected farms will have to be removed, so that the outlook for spring is very gloomy. Farmers unani-mously attribute the plague to the destruction by gamekeepers of the weasel, hawk, owl, magpie and other natural enemies of mice, and to the fact that tenants are prevented from burning rough pasture in spring -London Letter

OREGON LIME.

This lime is manufactured by The Oregon Marble and Lime Company, near Huntington, Oregon, and has earned the reputation of being the strongest lime in the market, and consequently, in addi-tion to making the best work is at an equal price, the cheapest to the user. The following analysis by W. G. Jenne, chemist, Portland, Oregon, is worthy of consideration :

MR. T. F. OSBORN, Dealer in Building Materials.

War Excitoment in the Metropolis. The recent war talk tested the patriotism of the members of the National Guard in this city with flattering results. Several of the retired veterans of the Seventh regiment, for instance, hastened to get themselves enrolled on the active list in order that they might be ready to go to the front with the old regiment if the occasion should require. In a few instances new uniforms were ordered by veterans who had outgrown their old

Another thing that the war talk did was to bring out in full force the "ex-tra" howlers. These noisy tricksters permeated the entire city for several days. They stirred up the down town business sections at noon and startled the people in the residence streets in the evenings. On two or three occasions the papers they sold actually contained some news about the Chilian situation some news about the Chillan situation but in the majority of cases there was nothing to justify the harrowing cry of "Extral" and not infrequently the buyer of an "extra" would find himself in postion of a newspaper one day old for which he paid five times the regular price. Two enterprising shonters went through several usually quiet streets on the west side above Fiftieth street one evening and worked off a few hundred copies of a cheap illustrated paper nearly a month old. They had probably bought

Getting a Patent

Inventors are required to file an appli-cation in the patent office at Washington containing a clear description of the invention, verified under oath by the inventor and signed by him and two witnesses. The commissioner of patents may also require a model to be fur-nished. If he rejects the claim, appeal may be taken to the courts. The fee on filing application is fifteen dollars and on issuance of patent twenty dollars. If you propose to apply for a patent you will save time, annoyance and money by engaging a regular patent solicitor.— New York Herald.

Electricity in a Grist Mill.

The announcement comes from St. Paul that electricity is to be tried as the motive power in a large flour mill to be erected in that city, and, though its in troduction by a concern may not revo-Intionize the business as is predicted, or at any rate very soon, it cannot fail to be an important innovation if it proves a success. A practical miller of thirty years' experience is said to be behind the scheme for its employment, declaring after thirteen months of experimenting with the electric current, that he is thoroughly convinced of its cheapness and its practicability.-Providence Journal
