The Increase of Tonnage and Decreased Freights in 'Frisco.

NEED OF THE NICARAUGUA CANAL.

A General Review of Business Along the Wharves For One Day. Other News.

SAN FRANCISCO, April 27.—Yesterday there were twelve vessels in port under engagement for wheat, etc., to Europe, and four of them had charters for a new crop loading. All but four were iron ships, and the entire list included only one American vessel. Each has Continental options. Vessels are now seldom being chartered for a direct port, though occasionally a charter calls for such option. Rates of vessels already chartered for a new crop loading range from 28s 9d to 32s 9d, one having accepted the first named, two the latter and one 30s. Total amount of tonnage under the engagement was 21,500 tons, against 48,100 tons on corresponding date last year. There were in port yesterday fifty-eight disengaged vessels, having an aggregate tonnage of 102,700 tons, as against only 5,000 tons a year ago. Yesterday's list comprised forty-four British vessels, thirteen American and one Nicaraguan. Disengaged vessels are located at various points. Of the disengaged vessels the British iron ship Andraha has been the longest in port, having arrived September 23, 1891. Forty-three of the disengaged vessels are iron. The inward coal fleet contributed thirty-seven of the fifty-eight vessels now disengaged. At neighboring ports there were fourteen chartered or disengaged vessels, representing 17,900 tons of tonnage, against 19,000 tons on the same date last year. Under the head of miscellaneous charters were eight vessels, two of which load lumber for England, one takes lumber to Sydney, two go to New York with general cargoes, and three others load merchandise, one each for Honolulu, Central America and Melbourne. Total amount of tonnage of all classes on the way to this port yesterday was 219,800 tons, against 273,200 tons on the corresponding date last year. Wheat freights are nominally quoted at 22s 6d for iron, for United Kingdom, Havre or Antwerp.

Wheat Speculation.

SAN FRANCISCO, April 28.—There has been no improvement whatever in the local wheat situation, business during the past week having been very slack and prices unchanged to any appreciable extent. Nearly all the trading has been of a speculative character. The foreign market has been without any particularly important changes, and offers little or no encouragement for local exporters to enter into new engagements. The visible supply of wheat east of the Rocky mountains showed a decrease of 2,904,000 bushels in the past week, and quantities of wheat and flour on passage to the United Kingdom have fallen off each week since March 15th. During the latter period, however, arrivals out for the United Kingdom and Continent were quite liberal. India shipments of wheat lately have attracted more attention as comprising a somewhat important factor in the situation of future probabilities. These shipments have been as follows for the given weeks in April: Week ending the 4th, to the United Kingdom 42,000 quarters to the Continent 42,500; week ending the 11th, to the United Kingdom 55,000 to the Continent 60,000; week ending 18th, to United Kingdom 40,000, to Continent 67,500; week ending 25th, to United Kingdom 47,500, to Continent 75,000. Figures of imports of the cereal product into the United Kingdom during the first thirty weeks of the current season, together with supplies available for consumption as compared with similar periods in other years, are instructive. Imports of wheat and flour and sales of home-grown wheat, together with average prices of wheat, were as follows:

Season.	Cwt.	Av. Price Wheat.
1891-92	72,307,587	55c 7d
1890-91	103,222,015	52c 5d
1889-90	71,358,566	52c 11d
1888-89	64,734,242	51c 6d

Above quantities represent supplies available for consumption exclusive of stocks on September 1st, and show quite an increase for the present season. The

present outlook does not appear favorable for any marked improvement in prices in immediate future, though, with a gradual diminution of wheat and flour on passage to United Kingdom and prospective decrease of supplies available for consumption, the English market may rally after a time. It is stated in the report that Russia's prohibition of the export of wheat will be raised in May, which is not believed in London. Official reports indicate that, though India's crop is much below that of last year it will not be much below the average.

Nobody Cares.

PORTLAND, April 28.—A synopsis of the annual report of the Union Pacific, submitted to the stockholders at their annual meeting in Boston yesterday, shows a decrease in the gross earnings of 1890, of nearly a million dollars. Earnings from passenger traffic have fallen off \$853,000, about 9 per cent.

Jay Gould on Top.

OMAHA, April 28.—The election of Union Pacific officers in Boston yesterday was another victory for Jay Gould. Even if he is on the verge of the grave, he will continue to rest one foot on the neck of the oppressed. The Wormsers turned the votes to Gould, thus turning the election and retaining the Missouri Pacific officials in the management of the Union Pacific.

Hang Them Collectively.

PARIS, April 28.—"Nobody doubts but that the jury in the Ravachol case, were terrorized; but, what can you do, when the murderous wretches of anarchists are permitted to do the terrorizing and receive no just, or adequate punishment?" Such is the sentiment of foreigners in Paris, and to this is traced the present panic, which it appears is liable to become worse before it is better. Louise Michel and Henri Rochefort have been interviewed. They declare their belief that no explosion or discordance will occur in Paris on May day. There may be such things, however, in the provinces, where the agents and procurateurs have a better chance. Michel declares that Ravachol is not the agent of the procurateur-general. Louise's belief is that he is a vulgar criminal, representing no society.

Shoot—Then Apologize.

NEW YORK, April 28.—United States Consul P. C. Hanna, of La Guayra, Venezuela, is something of a hero now amongst the natives. It appears that on the night of the 20th he was fired upon by policemen in the streets at 9:30 o'clock. The bullet whizzed unpleasantly close to the consul, but did not hit him. Mr. Hanna pounced upon the policeman, demanding what the shot meant. When the crazy fool saw whom he had fired upon, he was greatly disconcerted and begged for mercy. On the following day the American consulate was besieged by government officials anxious to apologize for the unfortunate incident. Mr. Hanna assured the officials that he looked upon the affair as a mistake and bore the unfortunate policeman no ill-will.

May as Well Push It.

CHICAGO, April 28.—Failure to settle, and the defiant attitude of some companies, has compelled the state railroad commission to bring suit against the Southern Pacific railway to recover the penalty prescribed for the violation of the commission's law in charging greater rates on wool shipments than those fixed by the commission. A suit will also be brought by the state to compel the Missouri, Kansas and Texas railway to establish a main office in the state, the office at Dennison not being regarded as the principal office according to the requirements of the law.

Punished for Declaring.

LONDON, April 27.—A dispatch received by the news agency of this city from Rio Janeiro states that the Brazilian government has ordered its consuls abroad to refuse to dispatch vessels for Matto Grosso, which state has declared its independence of the Brazilian republic.

Forced to Vote.

OTTAWA, April 27.—A bill in the house of commons to compel voters to exercise the franchise was considered yesterday by a special committee. After a long discussion, two clauses were agreed to: First, to make every man without a reasonable excuse vote under penalty of \$10; second, that proof of reasonable excuse shall rest with defendant.

England Following Wyoming.

LONDON, April 27.—In the house of commons, Sir Albert Kaye moved for a second reading of the woman suffrage bill. He declared that, although much had been said derogatory to woman's exercising the franchise in Wyoming, he had official documents showing that it was beneficial in that state.

SEALERS IN DISTRESS.

A North Sidney Owner's Call at the Back Door for Redress.

EFFECT OF THE MODUS VIVENDI.

Adventurous Nova Scotians Back Num- bers in the Poacher's Fleet.

SIR CHARLES TUPPER NO GOOD.

Seven Sealers Coming Around from Cape Breton to be Targets for the Navy.

OTTAWA, April 27.—A. C. Bertram of North Sydney, Cape Breton, owner of a fleet of Nova Scotian sealing schooners now on the way to Behring sea, had an interview with Sir Charles Tupper, minister of marine and fisheries, yesterday, respecting the recent proclamation of the modus vivendi. He made strong representations to Tupper, of the losses which the restriction of seal-taking will cause [him.] From the harbor of North Sydney alone seven sealing schooners are now on the way round Cape Horn, bound for Behring sea. Bertram says the modus vivendi will bear so hard on Nova Scotian owners of sealing schooners that almost the best thing that could happen to them would be to have their vessels driven ashore by a storm, so long as the crews were not lost. In that case they would have the insurance. Tupper is considered, in the parlance of slang, n. g., by the adventurous Nova Scotian, because he is unable to hold out any very great hope for the prospects of poachers who take their schooners away around North and South American fishing grounds, to reach contraband seals in Behring sea.

The Paris Follies.

PARIS, April 28.—Now that the press have taken up the subject perhaps there will soon be a long felt want supplied in Paris by the correction of evils and substituting of a police that knows its business. The fearless conduct of Beaupaire, the public prosecutor, was warmly commended. La Justice says a radical organization of some foolish minds is already proposing absurd steps, some going so far as to argue that the government should declare a state of siege. The proposals made by these persons, La Justice declares, would prove a sorry remedy as it would only aggravate the evils. The conciliatory tone of Judge Gues, who presided at the trial, and his excessive indulgence to the anarchists is severely condemned. It is suggested that the Ravachol jury took their cue from the judge.

First Stone Laid.

NEW YORK, April 28.—President Harrison used a gold trowel to lay the first stone yesterday of the great mausoleum which is to perpetuate the memory of Gen. Grant in Riverside Park, in the presence of the cabinet and thousands of citizens. The weather was fine, the ceremonies impressive. It was no military display, only a few army officers, and those belonged to the troop which accompanied the president to the park being present. Chauncey M. Depew, the orator of the day, delivered an eloquent oration, dwelling upon the sterling qualities of the deceased general and president. In the address was the following striking passage: "The phenomenon of our times and one of the chief dangers to law and order is the groan of our school of despair. Concentrated contemplation of accumulated wealth and the hopelessness of acquiring it paralyzes industrial energies and true ambitions, and plants the seeds of socialism and anarchy. But Lincoln from the poverty of a Kentucky cabin, and Grant from the narrow limits of a log house in an Ohio wilderness, became central figures and representative heroes of the age; they are types of American citizenship."
