## ITALY'S FINANCES BAD.

A Check on the Triple Alliance--Disarm or Bankrupt.

## RESIGNATION OF THE CABINET.

The Situation Claimed as a Triumph For the Vatican.

## KING HUMBERT IN A DELEMMA.

The Santa Fe Wreck--Wild Cattle in New York--The Reading Combine Want Influence.

PARIS, May 7.—A dispatch from Rome says: "King Humbert has not yet accepted the resignation of the cabinet, and it is a mystery if he has decided what course to pursue." Yesterday Marquis di Rudini, the prime minister of Italy tendered King Humbert the resignation of all the members of the cabinet, due to the refusal of the chamber of deputies to adopt a vote of confidence in the government's financial policy of retrenchment. The finances of Italy are in a bad way. French newspapers all hail the Italian crisis with great satisfaction, holding that it will be a check to the triple alliance. *Le Figaro* says King Humbert is in a dilemma, and must either disarm the army or see the country bankrupt. *Le Gaulois* claims that the Italian situation is a triumph for the Vatican.

Stampeded Cattle in New York City.  
NEW YORK, May 7.—The streets of New York with a band of wild steers broke loose, was a scene of conspicuous torment to a panic stricken public at an early hour yesterday in the vicinity of 45th street and East river, where they had been let out of corral, at the fire of the large slaughter house of Childs & Co. The cattle went tearing through the streets in a panic. There was many narrow escapes from being trampled to death from the infuriated animals. The loss on the building, contents and wharf is estimated at \$250,000.

## Stockholders Have Rights.

MOBILE, Ala., May 6.—Chancellor Taylor has decided that the present management of the Mobile and Ohio road are not entitled to the possession, and that the road must pass from the control of the Farmers' Trust company of New York back into the hands of the stockholders, pending the appeal to the supreme court. If the chancellor's decision is affirmed, the directors elected by the stockholders in February will take charge.

## The Santa Fe Wreck.

FR. MADISON, Ia., May 7.—The bodies of the unknown woman and child taken from the wreck of the Santa Fe train near Medill, are now known to be those of Mrs. C. Bausch and child of San Bernardino, Cal. They, with the other dead, were laid out in the morgue here, and presented a shocking spectacle. Many of them are badly disfigured. The unhurt and slightly hurt today will leave for their destinations.

## After the Immigrant.

PITTSBURG, May 6.—The United States government is securing immigrant statistics with a view of amending the present laws. It is proposed to follow the immigrant from the time of leaving Ellis island, to ascertain whether he becomes a good citizen or lands in the prison or the poorhouse. The inspector is instructed to secure all data possible at the earliest moment to forward to Washington for presentation to congress.

## Conviction Impossible.

FRESNO, Cal., May 7.—The second trial of Gambler Smith for killing another gambler named Williams ended by the failure of the jury to agree. It is believed that his conviction now will be impossible. Both were well known sporting men, the killing being the result of a quarrel over a game of cards. Williams fired first, striking Smith in the arm, and Smith returned the fire, killing Williams.

## Want Influence.

SCRANTON, Pa., May 7.—T. V. Powderly is authority for the statement that the Reading coal combine has sent an emissary into the Lackawanna valley, who has seen every minister and priest of every denomination, offering passes and money for their indorsement of the combine. In two instances priests were approached with an offer to pay the cost of the erection of parochial schools.

## Holman Shown Up.

WASHINGTON, May 7.—If Rep. Holman has made anything, either for himself, the state which he is presumed to represent, or saved a dollar justly to the government by his senseless obstruction, there is not a man living who knows it. His hypocrisy was shown up in its true colors yesterday on a motion of Reed to strike out a useless item in the appropriation bill, relating to the Miami, in Holman's district. It was done as a pretext upon which to base one of the severest lampoonings Holman has ever received in his career. The best part of it all was that nearly every person on the floor of the house, democrats as well as republicans, enjoyed the severe remarks of the ex-speaker to the fullest extent. It was shown beyond all question that Holman was only a reformer and in favor of retrenchment when it did not affect the state of Indiana, or his own congressional district. Speaker Reed charged him with never opposing any appropriation for his own state, and Holman denied this by saying that he voted against the swamp-land proposition, which would have been of great benefit to his state. McRae, of Arkansas, was promptly on his feet, and denied Holman's statements in the most emphatic manner. The fact is Holman is a humbug of the worst kind, and was only placed at the head of the appropriation committee as a part of the bargain by which Crisp was elected speaker, and to carry out the record of false economy upon which the democrats propose to predicate their present campaign. The exposure of his humbuggery and hypocrisy was one of the enjoyable occasions of the week.

## Busted the Combination.

ALLEGHANY, Pa., May 7.—Frank E. Moran, treasurer of the Duncan B. Harrison and John L. Sullivan combination, was arrested yesterday on a charge of embezzling. The information was made by Duncan B. Harrison. Moran has been with Sullivan for many years, and accompanied him to Australia. He is to have a hearing in Pittsburg today.

## Portland Live Stock Market.

PORTLAND, May 7.—The following prices of live stock in this market are furnished by A. Fargher & Co.: Cal. steers, average 1,150 to 1,250 lbs., \$4.00 @ \$4.15; Grass fed steers, average 1,000 to 1,200 lbs., \$3.75 @ \$4.00; Grass fed cows, average 900 to 1,100 lbs., \$3.00 @ \$3.50; Hogs, block, average 125 to 200 lbs., \$6.00 @ \$6.25; Stock, average 80 to 125 lbs., \$5.75 @ \$6.00; Grass fed sheep, average 80 to 95 lbs., \$4.75 @ \$4.90; ditto average 100 to 110 lbs., \$5.00 @ \$5.10; Grass fed sheep, Eastern Oregon, average 95 to 110 lbs., \$5.00 @ \$5.10. The market is strong, or good stock.

## No Place to Live.

There has been some growling because in Oregon we have had twenty-six rainy days during the past month. People who feel inclined to resent this should go over to Japan and "settle" at Gifu, where during thirty days lately they have had 1,757 earthquake shocks. This is one every half hour and a few shocks over. Most people will agree that this is a very shocking state of affairs, and must have a very deleterious effect on the dairying industry, as under such circumstances it would be impossible for cream to rise.

It is impossible to settle coffee there with either fishskin or egg shells, and the grounds have to be held down by hydraulic pressure. When one reads of blizzards and la grippe on one hand and perpetual earthquakes on the other, he can thank his stars that he lives in Oregon, where the early and the later rains fall copiously and the clouds drop their garnered treasures down promiscuously and where crops never fail.—Portland Oregonian.

## Queer Place for a Marriage Ceremony.

Mary Buckner and W. B. Whitney called at the residence of Magistrate Brownfield Friday night. They were very anxious to be married, and that, too, in a hurry. It was nearly midnight, and the magistrate was in bed. They said they wanted to catch a train that left in an hour, but it would take some time to dress, and the magistrate hit upon a novel plan. The couple were invited to his bedroom, the necessary papers were drawn up, and while lying on his couch the marriage ceremony was performed.—Louisville Courier-Journal.

## Swiss Watchmakers to Exhibit.

The watchmakers of Switzerland, at a recent convention in Bern, decided to make an exhibit at Chicago of their finest and most artistic watches, but not to attempt any competition with American manufacturers in cheaper grades. They have applied to the Swiss council for financial and other aid to enable them to make a creditable exhibit.

## Using the Rhine for Power.

It is said that a syndicate of Swiss and English capitalists has been formed to utilize a part of the falls of the Rhine at Laufenburg for the generation of electric energy. The water will be led to turbine wheels and 7,000 horse power will be developed.—New York Times.

## SCION OF DEMOCRACY.

A Baltimore Meeting—For Cleveland, Tariff and Gold.

TO PUT ONLY DEMOCRATS ON GUARD

A Protest in Advance, Against all Attempts at a Compromise.

NO EQUIVOCATION OR STRADDLE.

Will Not Stand for Silver Kings, Mine-Owners, and Others Hostile to the People.

BALTIMORE, May 6.—The young democracy of Maryland had a large meeting last night under the auspices of the Cleveland tariff reform club. Resolutions were adopted demanding that no delegate be chosen to the national convention who shall not have given an indubitable pledge that he favors tariff reform and the nomination of Grover Cleveland. As regards the tariff and silver, the resolutions say: "We protest in advance against all attempts at a compromise, equivocations or straddles in regard to these great issues as cowardly and dishonoring to the democratic party, as it is to the interest of tariff oppressors, silver kings and mine-owners and hostile to the true interests of the people, and, whether intended or not, calculated to place the democratic party in a false position, and bring about its defeat for the benefit of those two classes."

## Old Dangers in China Renewed.

OMAHA, May 7.—In the M. E. general conference yesterday the committee on Chinese exclusion made no report, as it had learned that the bill had been signed by the president, therefore it was too late to take action until the exact wording and condition of the bill was ascertained. Dr. Swindell offered a motion to have the question referred to the committee on the state of the church. He feared the passage of the bill would jeopardize the lives and property of missionaries in China, and wanted the matter considered and disposed of so the conference might be thoroughly informed as to the actual state of affairs. The matter was finally referred to another special committee of five ministers and four laymen.

## Grave Danger to Chicago.

CHICAGO, May 6.—As a result of the tremendous rains this week there is grave danger that the immense amount of sewage now being discharged into the lake will reach the crib and pollute the city's water supply. The officials hope the flood may subside in time to enable them to commence pumping back into the Illinois and Michigan canal. Rivers all over the country are out of their banks.

## Very Light Sentence.

LONDON, May 6.—Charles Mowbray, publisher, and David J. Nichol, editor of the anarchist paper *Common West*, were tried today for counseling the murder of the authorities, who caused the conviction of the Walsall anarchists. Nichol was sentenced to eighteen months at hard labor, and Mowbray was acquitted on the ground that he was not connected with the paper at the time the article was published.

## Jay Gould's Illness.

SANTA FE, May 7.—About ten days ago Jay Gould was so much worse that relatives and a minister were sent for, and came here from the east. He is yet quite ill and confined to his bed in his private car at Albuquerque.

## The Japs Must Go, Too.

SAN FRANCISCO, May 6.—Sixteen Japs arrived from Nainaimo on the steamer Grandholm today. Controller Phelps refused to land them as they were an undesirable-looking lot of emigrants, and will send them back to Nainaimo.

## Impeached Him.

OTTAWA, May 7.—After two weeks the impeachment of Sir Adolphe Carou, postmaster-general of Canada, for malfeasance in office, was accomplished yesterday. Bribery was of the specification, and the amount involves nearly \$1,000,000.

## May Export Corn.

ST. PETERSBURG, May 6.—The government grain commission has recommended the exportation of maize from the southern ports of Russia.
