THE DALLES - OREGON
TUESDAY - MAY 17, 1892

Telegraphic Flashes.

The trial of Edward P. Deacon for the murder of M. Abeille in Paris for intimacy with his wife, is set for the 20th. Deacon was crazed by jealousy and now pleads for sympathy, saying that he only resorted to desperate measures after all other means had failed. He warned Abeille, and endeavored to get his wife to consent to a divorce without publicity, but she refused.

In San Francisco, on the 16th, among arrivals overland were a whole family of children, three girls and two boys, who had come all the way from Switzerland, without escort. Each child was tagged with an ordinary baggage check, and the eldest, who is 10 years of age, bore a letter from the Swiss consul in New York, recommending them to the care of the conductors. They arrived in fine shape. It was a joyous reunion when the father found them. The mother of the children died in Switzerland while her husband was trying to make a home for her out here, and, on hearing of her death, he at once sent for the little ones. The youngest child is four years old.

The little book Tamerlane, one of Poe's poorest poems, was sold the other day for \$1,850. Poe used to think himself lucky when he sold a poem for \$5. There are some men who cannot make a living until a long time after they are dead.

NOTICE TO ICE CONSUMERS.

As manager of The Dalles Ice Co. I wish to contradict the statements that I was only acting as agent for an outside company. I own one half interest in the company, and will sell ice this year and for years to come, and should a crop of natural ice come in this locality we will put up enough to supply this city for three or four years and Spokane companies will then have to withdraw their agents from here. Respectfully,
W. S. CRAM, Manager.

Building Material.

We offer to the building public a full line of building material. We do not resort to trickery to buy or sell any lines handled by us.

Notice to Contractors.

Sealed bids will be received until June 1st 1892, by the directors of school district No. 50 of Wasco county, Oregon, for the erection of a new school house. Plans and specifications can be seen at district clerk's office at Antelope. Right reserved to reject any or all bids.
PIERCE KIMSEY, District Clerk.

Notice.

Water consumers will please to take notice that all sprinkling and irrigating from the city water works must be done between the hours of 6 and 7 a. m. and 6 and 8 p. m. Failure to comply with this rule will leave the consumer liable to have the water turned off and a charge of 50 cents will be made for having it turned on again.

By order of THE WATER COMMISSIONERS
TO THE TRADE AND CONTRACTORS.

I DESIRE IT TO BE UNDERSTOOD that I have appointed Wm. Butler & Co. exclusive agents for the sale of the "Oregon" lime, at The Dalles, and surrounding country. Other parties have, through surreptitious and unbusinesslike methods, obtained a small quantity of this lime, which may naturally cause the idea that Butler & Co. are not the exclusive agents of these goods.

Such, however, is not the fact, and further stock of this article cannot be obtained from others than Wm. Butler & Co. The trade, however, will not lose sight of the fact that the great strife to obtain the Oregon lime by other dealers proves conclusively that the "Oregon" is the best lime in the market.
Very truly
T. F. OSBORN,
Gen. Agt. Or. Marble and Lime Co.

JERSEY BULL—"St. Lambert." The thoroughbred Jersey bull St. Lambert, will stand for the season at the Columbia Feed yard. For service apply to David George. 2.25daw1m

A New Lifeboat.

A new kind of lifeboat has been constructed to the order of the Boulogne Humane society on a model designed by one of its members. The construction of the new boat is simple and economical, and could be adapted to any sea-going roving boat. The invention consists in the introduction of air tight copper chambers, broad at the gunwale and diminishing at the bilge, placed on the outside of the boat, where they are equally distributed, so as not to interfere with the sweep of the oars. The tops of the chambers shelve down outward, forming a smooth gunwale, ten inches broad amidships and tapering away fore and aft.

These compartments are protected from injury by a casing forming double bulwarks, inasmuch as the shape of the hull preserves perfectly its boatlike appearance. It means really a little more beam and consequently more stability. The proposed new feature does not at all affect the speed of the vessel. In addition to these compartments chambers can be fitted fore and aft. It has been usual to place the air or cork lined chambers inside lifeboats, especially on board of ships' lifeboats.

The outward application of these air cases gives greater solidity to the boat's side in the event of being stove in, and will tend to prevent accidents such as happen through people bringing their weight to bear on one side of a boat when pulling a person out of the water. A boat fitted as described has been tested with the combined weight of six persons assembled on one side.

All this weight failed to overturn the boat, the water tight compartments brought into contact with the water resulting only in giving the boat a partial list and so far proving its resisting power and buoyancy. The new boat is 17 1/2 feet long, is built of elm and cost \$125.—London Graphic.

Old People.

J. V. S. is the only Sarsaparilla that old or feeble people should take, as the mineral portion which is in every Sarsaparilla that we know of, is under certain conditions known to be emulating. J. V. S. on the contrary is purely vegetable and stimulates digestion and creates new blood, the very thing for old, delicate or broken down people. It builds them up and prolongs their lives. A case in point:

Mrs. Belden an estimable and elderly lady of 810 Mason St., S. P. was for months declining so rapidly as to seriously alarm her family. It got so bad that she was finally afflicted with fainting spells. She writes: "While in that dangerous condition I saw some of the testimonials concerning J. V. S. and sent for a bottle. That marked the turning point. I regained my lost flesh and strength and have not felt so well in years." That was two years ago and Mrs. Belden is well and hearty to-day, and still taking J. V. S.

If you are old or feeble and want to be built up.

A Severe Law.

The English people look more closely to the genuineness of these staples than we do. In fact, they have a law under which they make seizures and destroy adulterated products that are not what they are represented to be. Under this statute thousands of pounds of tea have been burned because of their wholesale adulteration.

Tea, by the way, is one of the most notoriously adulterated articles of commerce. Not alone are the bright, shiny green teas artificially colored, but thousands of pounds of substitutes for tea leaves are used to swell the bulk of cheap teas; ash, sloe, and willow leaves being those most commonly used. Again, sweepings from tea warehouses are colored and sold as tea. Even exhausted tea leaves gathered from the tea-houses are kept, dried, and made over and find their way into the cheap teas.

The English government attempts to stamp this out by certification; but no tea is too poor for use, and the result is, that probably the poorest tea used by any nation are those consumed in America. Beech's Tea is presented with the guaranty that it is uncolored and unadulterated; in fact, the tea-cure is leaf pure and simple. Its purity insures superior strength, about one third less of it being required for an infusion than of the artificial teas, and its fragrance and exquisite flavor is at once apparent. It will be a revelation to you. In order that its purity and quality may be guaranteed, it is sold only in pound packages bearing this trade-mark:
