WHAT CLARKSON SAYS
More Delegates Uninstructed, than was Ever Yet Known.

MOST OF THEM FROM THE SOUTH.

Seven Million Republicans Who Have Not Made Up Their Minds.

THE NOMINATION IS NOT SETTLED.

No Name is so Popular as to Secure the Nomination on the First Ballot By any Means.

CHICAGO, May 18.—Chairman J. S. Clarkson, of the republican national committee, arrived yesterday from Hot Springs, Ark., fully restored to health. To a reporter he said: "Seven millions of republicans, who will be represented at Minneapolis, have not made up their minds regarding a candidate. The results of the state conventions clearly show this. There will be more uninstructed delegates in the Minneapolis convention than has ever been known in the history of the republican party. Almost all the Northern states, and states which cast electoral votes which will elect, sent uninstructed delegations. The majority of the uninstructed delegations come from the Southern states. Some able editors and Federal office-holders claim the nomination is settled already. I certainly do not think so, but as for being a party to any conspiracy for the nomination of Blaine, Sherman or Harrison, I desire to enter a protest. I will keep out of the contest, and cast my vote for whomever I shall determine will be the winner. Without much doubt there will be several ballots cast. A man must be very popular who would secure the nomination on the first ballot, and such we have not, certainly, when such a large proportion of delegates are uninstructed."

A Celestial Stowaway.
SAN FRANCISCO, May 18.—A horrible discovery was made on the barkentine W. H. Dimond yesterday just in from Honolulu. While the Dimond was in the harbor of Honolulu, a dead Chinese, with marks of violence on his head, was found floating alongside of her. Suspicion was fastened on Illinois Wise, a colored cook of the Dimond, and on the departure of the vessel Detective J. Lockhart followed on the Australia to investigate. A hasty search of the cabin showed a few splashes of blood on the wall, and on this shadowy evidence he was arrested. Yesterday it occurred to Lockhart to make a more careful examination of the cabin, for there was really nothing on which to ask for extradition or conviction of the prisoner. In the search there was found closely packed beneath a thin false partition the entire suit of clothing of the Chinese, saturated with blood. Beneath the lower bunk were other large blood stains, which had escaped notice on the first examination, and which Wise, presumed to be the guilty man, had forgotten to wash off. The theory is that the Chinese had asked Wise to stow him away and had shown him money, which tempted Wise's cupidity, and the murder followed.

Butte Mine Horror.
BUTTE, Mont., May 18.—It is now known that nine miners were killed by the cave-in at the Anaconda mine near Butte. Fourteen were entombed and it was at first thought that all were killed, but five have so far been taken out alive, and it is positively known that all the remainder are dead. They are Jerry N. Harrington, Dan Sheshan, Quinn Leary, William Hyland, T. C. Murphy, John Smith, S. Steward, William Clarke and John Nordstrom. Four of the bodies have been recovered, but it will be a day or two yet before the others are reached. Tens of thousands of tons of rock are strewn between the rescuers and the bodies of their dead comrades. The cause of the accident is stated to be that an unusually heavy blast was fired just before the cave-in occurred, and it is thought that it loosened the rock which formed the roof of the gallery.

Laid Away for a Rainy Day.
NEW YORK, May 18.—The steamer from Venezuela yesterday brought Gen. Solano, a special envoy of President Andruza Palacio, on his way to Europe with \$80,000 more to be added to the credits of Palacio, his "rainy day sav-

ings," which is variously estimated from \$500,000 to \$10,000,000. Besides this \$80,000 Gen. Solano was given a highly important communication to Guzman Blanco. For several weeks Palacio was suspected of intending to invoke the ex-dictator's help, having given several important offices to his adherents in Venezuela, but it was not generally believed he would go to the extreme of inviting Blanco to return and take the presidency, guaranteeing him the retention and enjoyment of his ill-gotten gains, in addition to helping him enrich himself still further, all the time acting under a guise of constitutionality and pretending to have only the best interests of the country at heart.

No Satisfactory Results.
LONDON, May 17.—A Berlin correspondent says: "In financial circles here the belief prevails that an international silver conference will have no satisfactory results. Germany will only accept the invitation because she does not desire to hold aloof from the other powers. The government and the rich have always been opposed to bimetalism. They even rejected the motion a few years ago declaring Germany's willingness to negotiate if England had previously adopted bimetalism."

A Plucky Woman.
FAYETTEVILLE, N. C., May 17.—On Monday seventeen miles below here a notorious outlaw from South Carolina, named Gilmore, entered the house of Rev. William Brunt, and finding no one but Miss Brunt there, forced her to prepare dinner for him at the point of a pistol. After eating heartily, he leaped out of the window. Miss Brunt seized a gun and shot Gilmore, thirteen buckshot striking. He died in a few minutes. A reward of \$300 was out for him, to which Miss Brunt becomes entitled.

The Emperors' "Tollomeness."
DANTZIG, May 17.—The provincial diet of West Prussia at a banquet entertainment given in honor of Emperor William, at which in the course of his speech, he said: "May the sons of this country accept patiently whatever Providence has in store for them, and await with confidence the results which the emperor will achieve in the course of a toilsome future."

Show Train Ditched.
ATCHISON, Kan., May 18.—The first section of Ringling Bros' circus train, on the Central branch road, was ditched by the giving way of a culvert near Concordia, yesterday. Four show men were killed and five badly injured. Twenty head of stock were drowned in the stream. Two dead bodies have been taken from the wreck, and assistance has gone from here.

Cheering Flood News.
KANSAS CITY, May 18.—Notwithstanding the heavy rains of last night, the Missouri river is falling here and at points above. While this news is cheering to us of Kansas City, it is deplored below us, where the river has broken over its banks and flooded a large area of low lands, causing great destruction everywhere.

Scoundrels at Large.
LANDER, Wyo., May 18.—A successful jail break was made here last night, by which all the prisoners escaped. The deputy sheriff who attempted to recapture them was fatally wounded. Among the escaped prisoners were Bliss and Collins, two of the most notorious horse thieves of the West.

Women Politicians.
NEW YORK, May 18.—Mrs. Emma Beckwith, to whom has been offered the nomination for vice-president of the United States on the equal rights ticket, declares that, while she would accept the position with either Belva Lockwood or Frances K. Willard as nominee for the first place, she would not run on the same ticket with Victoria Woodhull.

Business and Religion.
LOS ANGELES, May 18.—The city council has passed a resolution asking the mayor to set aside today as a day of profound meditation and prayer. The city is in the midst of a revival of religion, and the fever is spreading. Business houses will be closed and trade suspended whether the mayor sets aside the day or not.

HARRISON ADVISES.

River and Harbor Bill Attacked From an Ambuscade.

PRESENT SYSTEM OF FINANCES.

Not Well Enough Pleased With Benjamin to Take His Advice.

MODIFY THE PRESENT SYSTEM.

Do Back Track—No 25 Per Cent. Scaling—Stick to the Contract System if Ben. Goes.

WASHINGTON, May 18.—Yesterday an attack was made upon the river and harbor bill from an unexpected quarter. It is claimed that notice has been received from the White House by the republican members of the commerce committee, to the effect that it would be better to scale down the present river and harbor bill 25 per cent. This is backed up by assertions from the secretary of the treasury, to the effect that the probable revenues do not seem liable to meet the actual cost of conducting the government under the present system of finances.

The republican members of the senate appropriation committee have been notified that it would be well to keep down appropriations to as low a limit as possible, yet it is doubtful whether the commerce committee of the senate will take much stock in what President Harrison proposed, because many members of that committee on the republican side are not any too well pleased with the president. Further than that, a large volume made its appearance in the senate today, which is the report of the committee on commerce on the river and harbor bill.

It contains over 400 pages of printed matter and is very complete in discussing every project contained in the present river and harbor bill and shows by facts and figures, the necessity for the passage of such a bill and of the vast benefits to accrue to commerce on that account. It is believed the committee will not now take the back track and move to scale the bill down, simply because the president is desirous of it.

In view of the showing made by the report it is doubtful if any attempt will be made by the senate commerce committee to scale down the bill. One of the first suggestions by the administration was that the contract system should be stricken from the bill, but this met with so much disfavor that it was not pressed. In fact, the contract system provided for future appropriations rather than current expenditures.

Will Stand by Briggs.
NEW YORK, May 18.—At a banquet at the Union Theological seminary last night, the speaker declared, amid hand-clapping approval, that no matter what the course of the Presbyterian general assembly was at its forthcoming meeting at Portland, Or., touching the orthodoxy of the Rev. Dr. Briggs, the seminary would stand by him, regardless of consequences.

A force of thirty men employed in shearing a band of 8000 sheep belonging to Thompson & Barnhart at Mr. Barnhart's place, below Pendleton, finished the work Thursday at noon, just in time to escape unfavorable weather. The yield was heavy and the wool is clean and of excellent quality. Two-year-olds averaged about eleven pounds each, and yearling about nine pounds. The shearers are now engaged at other camps.

Geo. W. Childs passed through Sate Lake city yesterday, enroute to this coast. After a fine reception by the Typographical union, a drive about the city, a visit to the Mormon temple, Fort Douglas and other points of interest, Mr. Childs expressed himself delighted with his visit.
