THE DALLES OREGON FRIDAY MAY 27, 1892

TELEGRAPHIC NEWS.

YUBA CITY, Cal., May 27.—An old, old trick, of the swindler, was played upon an ignorant, but wealthy rancher, near here yesterday, and he was buncoed out of \$1,000 by confidence sharps.

Flucky Women of Principle.

CHICAGO, May 27.—A standing offer of \$1,500 per month has been made to the directors of the Temperance temple for space in the marble corridor of the rotunda in which an elegant tobacco stand would be established. "Never!" said Mrs. Carse; "not if \$50,000 were offered." And all the women say "Amen."

CHRONICLE BREVITIES.

Elections in France are always held on Sundays, in order to suit the convenience of workmen and peasants.

Most of the bookkeepers in France are women, who are paid from \$200 to \$500 a year for their services.

The growth of the bicycle habit is indicated by the fact that Indiana manufacturers alone expect to produce 75,000 new "wheels" this season.

The coconut trees of Florida are due to nuts washed ashore from a wrecked vessel sixteen years ago. Now the state furnishes nearly all the coconuts used in the United States.

It would take upward of forty years of the water in the great lakes to pour over Niagara at the rate of 1,000,000 cubic feet a second.

There are more beehives in the United States, where there are 2,800,000, than in any other country. Greece, famous for its love of honey, has only 30,000 hives.

In olden times the Ottoman believed, that eclipses of the sun and moon were caused by some gigantic dragon or serpent who was doing his best to devour these luminaries.

A man in Washington has recently found a remarkable curiosity in the form of a sheet of paper made by nature. It was found in an open seam in a tamarack tree, and is a foot wide and two feet long.

The latest novelty in yacht building will be an aluminum vessel of thirty-two feet in length, which Mr. Wells, of Leith, has received orders to build. The boat will not be painted, but polished when necessary.

A sunflower evaporates one and one-quarter pints of water a day, and a cabbage about the same quantity. A wheat plant exhales in 172 days about 100,000 grains of water. An acre of growing wheat, on this calculation, draws and passes out ten tons of water per day.

A Pointer.

"I am very much pleased with Chamberlain's Cough Remedy," says H. M. Bangs, the druggist at Chatsworth, Ill. "During the epidemic of la grippe here it took the lead and was very much better liked than other cough medicines." The grip requires precisely the same treatment as a very severe cold, for which this remedy is so efficient. It will promptly loosen a cold and relieve the lungs, soon effecting a permanent cure, while most other medicines in common use for colds only give temporary relief. 50 cent bottles for sale by Blakeley & Houghton, druggists. d&w

NOTICE TO ICE CONSUMERS.

As manager of The Dalles Ice Co. I wish to contradict the statements that I was only acting as agent for an outside company. I own one half interest in the company, and will sell ice this year and for years to come, and should a crop of natural ice come in this locality we will put up enough to supply this city for three or four years and Spokane companies will then have to withdraw their agents from here. Respectfully, W. S. CREAM, Manager.

REACH THE VAN.

Reach the van! let not the rear Ever be your marching place. Foster courage, banish fear, Wear a brave, determined face—Reach the van!

Only they, the brave and true—Nature's noblemen—can hope By the glorious work they do—To reach fulfillment's widest scope—Reach the van!

Laggards, drones and slaves of ease, Singard's long beyond the dawn, Ne'er the golden moment seize Which to grand success lends on—Reach the van!

Man was made to show his might, Not to grovel in the dust; Man was made to work for Right, Not to sin and sloth to rust—Reach the van!

Ill may come, but ne'er so dark Was a cloud that did not hold 'Neath its gloom hope's cheering spark, Soon to glow like beaming gold—Reach the van!

Do your best, then, use your power, Be content not in the rear; Full improve each golden hour—Be the first in all your sphere—Reach the van!

A Natural Church Steeple. A remarkable pinnacle of rock, some thirty miles from Grant's Station, in the San Mateo region, is the "Cero de las Alesena," or Shoemaker's Awl mountain. It rises 4,000 feet above the valley, and the upper 2,500 feet is of hexagonal prisms of columnar basalt, standing up like a church steeple. Its summit is totally inaccessible, and like the deserted heights of the Mesa Escantada of the Acomas, a host of traditions have gathered about it.—Goldthwaite's Geographical Magazine.

Just 24.

In just 24 hours J. V. S. relieves constipation and sick headaches. After it gets the system under control an occasional dose prevents return. We refer by permission to W. H. Marshall, Brunswick House, S. F.; Geo. A. Werner, 631 California St., S. F.; Mrs. C. Melvin, 136 Kearny St., S. F., and many others who have found relief from constipation and sick headaches. G. W. Vincent, of 6 Terrence Court, S. F. writes: "I am 60 years of age and have been troubled with constipation for 25 years. I was recently induced to try Joy's Vegetable Sarsaparilla. I recognized in it at once an herb that the Mexicans used to give us in the early '60's for bowel troubles. (I came to California in 1839, and I knew it would help me and it has. For the first time in years I can sleep well and my system is regular and in splendid condition. The old Mexican herbs in this remedy are a certain cure in constipation and bowel troubles." Ask for

A Necessity.

The consumption of tea largely increases every year in England, Russia, and the principal European tea-drinking countries. But it does not grow in America. And not alone that, but thousands of Europeans who leave Europe

ardent lovers of tea, upon arriving in the United States gradually discontinue its use, and finally, cease it altogether.

This state of things is due to the fact that the Americans think so much of business and so little of their palates that they permit China and Japan to ship them their cheapest and most worthless teas. Between the wealthy classes of China and Japan and the exacting and cultivated tea-drinkers of Europe, the finer tea find a ready market. The balance of the crop comes to America. Is there any wonder, then, that our taste for tea does not appreciate?

In view of these facts, is there not an immediate demand for the importation of a brand of tea that is guaranteed to be uncolored, unmanipulated, and of absolute purity? We think there is, and present Beech's Tea. Its purity is guaranteed in every respect. It has, therefore, more inherent strength than the cheap teas you have been drinking, fully one third less being required for an infusion. This you will discover the first time you make it. Likewise, the flavor is delightful, being the natural flavor of an unadulterated article. It is a revelation to tea-drinkers. Sold only in packages bearing this mark:
