Some wool sold in The Dalles at from 11 to 14 1/2 cents a pound today.

Mr. J. R. Taylor, of Bellingham bay, arrived in the city on the noon train.

Mayor Mays was in the city today attending to official and private business.

Minneapolis will be the political center of the country for the next week or two.

A rate of \$3.14 per cwt., on wool from The Dalles to eastern points, went into effect yesterday.

Labor day was suitably observed in The Dalles, as a half holiday, wherever possible to do so.

Mrs. Feintz left for the east today to be in attendance at the bedside of her mother, who is reported ill.

Martin Donnell met with an accident in the pharmacy of Snipes & Kinnerly this morning, which cost him a suit of clothes.

The old marks coming back to The Dalles this season on wool sacks its prima facie evidence that the Regulator people are deserving more credit than they receive for fixing prices.

F. P. Mays, M. P. Isenberg, and Editor Gourlay addressed a rousing meeting at Dufur last night. J. C. Leasure spoke at the Court house in this city. Today will wind up the campaign.

Mrs. Smith French gave a tea last evening in honor of Judge Condon's sister, now visiting The Dalles from the east. The menu card was a handsome piece of painting by a young lady of this city.

Elder B. F. Bonney writes a sketch of the late Wm. A. Allen, of Eight mile, whose sudden death cast a sad gloom over circles where the deceased was best known, on the 28th, also pays a deserving tribute to the sons and daughters who mourn the father.

The average Dalles strawberry, for exhibition purposes this season, average sixteen to the pound. This beats the following record: "A fruit raiser on lake Washington, near Seattle, recently picked fifteen strawberries from his vines that weighed thirteen ounces and filled a large sized berry box."

L. Holden of Grass Valley, was run over Tuesday in Tygh Valley by a wagon, loaded with 1,200 feet of lumber. Mr. Holden had got off the wagon to pick up some hay that had fallen off, when the team started up suddenly and he fell between the wheels, the hind one passing over his stomach. He was placed in a buggy and taken to his home in Grass Valley, but the result of the injury, has not been ascertained.

The times are ripe for reform in county road building, and Wasco has set the example. At least that is what all say who have seen the work. There is no question in which all classes of people are more directly interested.

The ordinary methods of road making and road repairing are out playing at road making. The iron horse has solid road-beds, beautifully ballasted and bridged; but the faithful four-legged horse goes on miring and wearing out his life piling the farmers wealth to market.

There are several changes to note in the Astoria newspaper field this week. The Daily Herald will suspend today, as the editor says he has lost all the money he has in the present venture and will try and recuperate in the publication of a weekly. The Talk has also ceased to prattle; but is followed by a new issue, called the Examiner. The old reliable Astorian jogs along about as usual, but not as a financial success. Nearly \$50,000 has been sunk in Astoria newspapers in the past three years.

Lane Co. Times. When Gen. Weaver of Iowa was in this county, he made a unique bargain with Cam Vanderpool of Soap Creek, the general wanted some China pheasant sent back to Iowa to be turned loose on his possessions and Cam wanted some wild turkeys for his cattle ranch near the summit. The one could easily grant the wish of the other and an agreement was made to that end in a few minutes. Cam has already commenced to fulfill his part of the contract and he expects the young turkeys will be here before many months.

The heavens displayed a wonderfully grand scene which was witnessed by people of The Dalles last evening, for about half an hour before sunset. The sun formed the central figure, around which radiated two large circles, the outer one more luminous than the inner one, and at the angles; right, left and top, were exposed bright perihelion. The zenith shone brightly for a portion of the time, and all combined to make a picture never to be forgotten. Shortly after sunset, and before the shades of night had fairly settled over the earth, a large meteor appeared and exploded, with apparent observation of its fragments, north and west of the city, seemingly short of Mount Adams.

In the past few days several eastern capitalists have arrived in The Dalles, to look over the situation of affairs here, with the view of making investments. They appear to be pleased with the prospects, and we predict a boom for The Dalles, and country surrounding, before long, which will astonish the natives. Amongst those here now whom we have met and become acquainted with, are Dr. D. B. Cornell, and Messrs. E. Steel, and S. H. Blakely of Saginaw, Michigan, and Mr. John Argus of Buffalo, N. Y. To arrive today are: Prof. F. P. Vanderberg of Buffalo, Mr. Clark C. Foster of Saginaw, and others. THE CHRONICLE extends the right hand in fellowship to these gentlemen, and wishes that they may be more than pleased with what they see about this region of boundless wealth and unlimited resources.

Speaking of the report that a branch of the Union Pacific will be extended to the mouth of the Willowa river, a distance of twelve miles, work on which will be commenced at once, a leading shipper of Wasco and Sherman while in Portland yesterday, asked when the Union Pacific would make a similar move here. The answer was: "Oh you are too near The Dalles." Meaning by that reply that when the cascade locks are open, the Union Pacific railroad could not compete with the fleet of twenty-five or thirty steamers then to be seen along The Dalles water front daily from Astoria, Kalama, Portland, Oregon City, Salem, McMinnville, Vancouver, etc., as now seen at Portland, taking the products and manufactures of the Inland Empire to market, in exchange for commodities which we do not produce.

THE CITY GOVERNMENT.

Meeting of the Common Council Last Evening.

At the regular session of the common council last evening Mayor Mays presided, and the following members answered roll call:

Messrs. Dufur, Haight, Hansen, Krefit, Maier, and Thornbury.

Minutes of the previous meeting were read and approved.

Reports of various city officers, treasurer, recorder, marshal, and street commissioner, were read and placed on file.

Repairs to the cistern corner of Fourth and Union, were authorized.

The petition for a flight of steps up the bluff, at the head of Laughlin street, was referred to committee.

The matter of the placement of an arc light in the eastern portion of Bluff addition was referred to committee.

The council was officially informed respecting the resignation of Mr. Munger, and election of Jud. S. Fish, as chief engineer of the fire department, and the election was ratified.

The bill of J. H. Jackson, for services as night watch some time last year, was on motion laid on the table.

An ordinance transferring funds from the general fund, for payment of warrants due, passed.

Warrants were ordered in payment of claims against the city as follows:

Table with 2 columns: Name and Amount. On motion the council adjourned until Saturday evening next at 8 o'clock.

Miss Lillian Emerson was thrown from her saddle horse on Fifteen mile creek yesterday, and seriously injured. It is stated that some of Jerry Simpson's constituents are displeased because Jerry uses a bicycle. But Jerry knows what he is doing. A bicycle eats no hay.

Wm. Frazier, of Portland, will be in The Dalles, on Monday and Tuesday June 13th and 14th for the purpose of buying saddle horses. He wants 25 head of sorrel, well broken saddle horses, and 25 head of grays. Horses to stand about 15 to 16 hands high, and weigh from 1,000 to 1,100 each.

The sad news was received here this afternoon of the drowning at Celilo today of Mr. A. Byers, a carpenter who has worked for Mr. Glenn since the Regulator was finished. He went to Celilo to work for Mr. Taft a few days ago. He accidentally slipped into the river from his work. He leaves a wife and child in this city.

FOURTH OF JULY.

Prospects for Having the Best Celebration for Years.

The executive committee of citizens appointed to make arrangements for the coming Fourth of July celebration in The Dalles, feel assured in saying that they believe the indications are favorable for a grand celebration. There will be a meeting of the committee tonight, at the council chamber (old court house), to hear reports of solicitations, etc. In anticipation we may say these reports are highly encouraging. Citizens generally having been very liberal, so far, in subscribing to the fund.

Street sprinkling will be carried on all day Sunday, and all night Sunday night, and on the 4th (Monday), to keep down the dust.

The fire department is anxious to turn out in full force; and as The Dalles now has five efficient companies in the department, including four well equipped hose companies, plenty of fire plugs, and an abundance of water, a firemen's tournament can be got up which will be quite creditable to the city.

Moonlight Excursion.

Under the management of the Good Intent society, a moonlight excursion will be given on the steamer Regulator, Friday evening the 11th. Steamer will start from landing at eight and return about twelve. A pleasant time is anticipated and a cordial invitation is extended to the good people of The Dalles. Tickets 50 cts., will be found at Snipes and Kinnerlys. Ice cream and cake will be served at 25 cts. extra. COMMITTEE.

Church Notices.

Rev. G. R. Burnside pastor of the Dearborn St. Baptist church of Buffalo, will preach at the services in academy hall tomorrow morning at eleven o'clock. The Sunday school follows the morning service. The pastor Rev. O. D. Taylor will preach at the union service in the court house at 8 p. m.

Rev. A. C. Spencer will discourse in the M. E. Church tomorrow at 11 a. m., on "Can a Christian commit sin" and at 8 p. m., on "The Christian and the Ballot." Sunday School at 12:30, and Bible study at 7 p. m., on "Our duty to our Seniors." A special invitation is given to attend all the services.

Starting Factories.

This arrival of fourteen carloads of rolled oats in this city from Iowa is a sad commentary on the energy and enterprise of Oregon farmers. Oats to Oregon would be a good deal like carrying coal to Newcastle if our agriculturists in the state would get a move on themselves.—Portland Welcome.

Don't lay everything to the farmers. There are plenty of oats for the manufacture of rolled oats; but we have no factories. Pitch into the capitalist.—Albany Democrat.

Don't pitch into any one but if you have \$10 or upwards to spare put it at the service of whoever else is resolved in good faith to start the mill.—Astorian.

Yes, and sundry and divers other local industries. Factories for making glass and crockery ware, iron castings, leather, boots and shoes, etc., would pay in The Dalles. We have the sand, the mines, the hides, etc., and if we have not got the money we can invite the capitalist to come and abide with us.

Short Steps.

You cannot run a rumor down. Good advice is not always kind. Sometimes it is cruel to be kind. Hope is the greatest of remedies.

The sun is a most brilliant success. It is the fast man who must go slow. The cool liar makes it red hot all summer. Piety is often knee deep.

A burnt mustache dreads the short cigar. Brains will not always tell. It sometimes keeps mum.

Some people find their choicest pleasure in looking at the dark sides of clouds. Men and women understand each other much better than they understand themselves.

What the extravagant young men really needs is a poor wifeto share his property with him. The world is a great factory in which we all spend our time riveting this and that together.

A Pointer. "I am very much pleased with Chamberlain's Cough Remedy," says H. M. Bangs, the druggist at Chatsworth, Ill. "During the epidemic of the grippe here it took the lead and was very much better liked than other cough medicines."

ICE! ICE! ICE! Having on hand a large supply of ice we are prepared to furnish our customers with ice in any quantity at a reasonable rate. We guarantee we will supply the demand without advancing prices throughout the season.

NOTICE TO ICE CONSUMERS. As manager of The Dalles Ice Co. I wish to contradict the statements that I was only acting as agent for an outside company. I own one half interest in the company, and will sell ice this year and for years to come, and should a crop of natural ice come in this locality we will put up enough to supply this city for three or four years and Spokane companies will then have to withdraw their agents from here.

The Dalles, Portland & Astoria Nav. Co. SCHEDULE. Until further notice the Regulator will make trips to the Cascades and return on Thursdays and Sundays, leaving The Dalles at 7 a. m. Excursion rates, 50 cents for the round trip.
