THE DALLES - OREGON
SATURDAY - JUNE 4, 1892

A Queer Odor. Mr. Grumpp - What's that queer odor? Smells like burning lye. Mrs. Grumpp - Don't know. Haven't put anything in the fire except a few of your old love letters. - New York Weekly.

A Whist Story. The latest whist story comes from Waramang, well authenticated. The dealer held all the trumps but the ace, and the player with the ace was so paralyzed with learning the state of affairs that he revoked and gave away the game in the deal. - New York Sun.

A Delightful Picnic for a Woman. What a delightful day one could spend rambling in the great cabinets at Windsor castle, where are stored away all the gowns that Queen Victoria ever wore. For the queen's robes are never sold or given away, despite the energetic attempts which have been made from time to time to induce the attendants to part with some of these thousands of gowns, which their wearers has probably forgotten that she ever possessed. The coronation robes, bridal gowns, resplendent garments of state, and royal ceremonial, worn in the old days before the magnificence of queenliness was forgotten in the sorrow of widowhood. What will become of these relics when the long reign is ended and the enormous cabinets are made ready for the new queen's arrival? - London Letter.

Points for the Suburban Resident. It is better to let the heels of your shoes go unblackened than to miss a train.

It does not pay to invest in accident insurance policies. The accident always happens to some other train than the one in which you are traveling. Late to bed and early to rise will shorten the road to your home in the skies.

Always try to eat at least one meal each week with your family. It keeps up the acquaintance and conduces to sociability. - Chicago Tribune.

Enticing Lobsters to Death.

In the neighborhood of the Bermudas the sea is extremely transparent, so that the fishermen can readily see the horns of lobsters protruding from their hiding places in the rocks at considerable depths. To entice the crustaceans from these crannies they tie a lot of snails in a ball and dangle them in front of the cautious lobster. When he grabs the ball they haul him up. - Interview in Washington Star.

Sir W. Aitken, professor in the Army medical school, has called the attention of the government to the condition of the British army, and asserted that it was largely made up of boy soldiers, who have not reached complete physical development as regards the bones, muscles or internal organs.

The subterranean rivers of the world, of which the one in the Mammoth cave, of Kentucky, is usually reckoned as the most unique, are generally set down in lists of natural curiosities as being the greatest wonders in the line of waterways.

A hundred years ago the Russian tongue was spoken by nearly 31,000,000 and the Spanish by more than 28,000,000. Even the Italian had three-fourths as large a constituency as the English, and the Portuguese three-eighths.

A wonderful artesian well is in flourishing activity at Huron, N. D. It throws a stream 100 feet high, and the flow is estimated at from 8,000 to 10,000 gallons a minute.

A missionary has studied and committed to writing the vernacular of the natives of the MacDonnell range, South Australia.

Bad Blood.

Impure or vitiated blood is nine times out of ten caused by some form of constipation or indigestion that clogs up the system, when the blood naturally becomes impregnated with the effete matter. The old Sarsaparilla attempt to reach this condition by attacking the blood with the drastic mineral "potash." The potash theory is old and obsolete. Joy's Vegetable Sarsaparilla is modern. It goes to the seat of the trouble. It arouses the liver, kidneys and bowels to healthful action, and invigorates the circulation, and the impurities are quickly carried off through the natural channels. Try it and note its delightful action. Chas. Lee, at Beamish's Third and Market Streets, S. F., writes: "I took it for vitiated blood and while on the first bottle became convinced of its merits, for I could feel it was working a change. It cleansed, purified and braced me up generally, and everything is now working full and regular."

A Necessity.

The consumption of tea largely increases every year in England, Russia, and the principal European tea-drinking countries. But it does not grow in America. And not alone that, but thousands of Europeans who leave Europe ardent lovers of tea, upon arriving in the United States gradually discontinue its use, and finally cease it altogether. This state of things is due to the fact that the Americans think so much of business and so little of their palates that they permit China and Japan to ship them their cheapest and most worthless teas. Between the wealthy classes of China and Japan and the exacting and cultivated tea-drinkers of Europe, the finer tea and a ready market. The balance of the crop comes to America. Is there any wonder, then, that our taste for tea does not appreciate? In view of these facts, is there not an immediate demand for the importation of a brand of tea that is guaranteed to be uncolored, unmanipulated, and of absolute purity? We think there is, and present to you Beech's Tea. Its purity is guaranteed in every respect. It has, therefore, more inherent strength than the cheap teas you have been drinking, fully one third less being required for an infusion. This you will discover the first time you make it. Likewise, the flavor is delightful, being the natural flavor of an unadulterated article. It is a revelation to tea-drinkers. Sold only in packages bearing this mark.
