THE DALLES OREGON

MONDAY JUNE 6, 1892

A Four-Year-Old Philosopher. Among the many anecdotes relating to the late Rev. Thomas Hill, D. D., is one told by himself. Dr. Hill and his wife awoke quite early one morning and regarded with interest a crib which contained a precocious child of less than four years. Presently the child turned her face up to the ceiling and soliloquized: "Oh, how much easier it is for a person to think than to act. Now, with a dog it is right the other way." - Boston Traveller.

Not a Five Cent Loaf. While treasurer of the Maine Central Mr. Linscott always made his own bank deposits, taking the immense amounts in bills wrapped in a newspaper under his arm as he rode up town on a street car. "Why does that old gentleman carry up that loaf of bread every day?" on one occasion inquired the conductor. The value of the loaf of bread was probably not far from \$50,000. - Lewiston Journal.

A Gentle Maiden. Friend—So Miss Beaufort refused you? De Sappe—Yes, but she did it very gently. "Expressed sorrow, eh?" "It amounted to that. While I was proposing she gently slipped out of the room and sent her mother in to talk to me about the weather." - Good News.

It is curious that Devonshire, England, is one of the few counties where the Duke of Devonshire owns no land. His estates, covering more than 198,000 acres, are scattered over fourteen counties, but Devonshire is not among them.

Mail matter is whizzed between Paris and Berlin, 700 miles, in thirty-five minutes—at the rate of twenty miles a minute. It goes through pneumatic tubes.

A Frenchman named Molesau has succeeded in isolating fluorine gas. Its affinity for other substances has heretofore rendered this extremely difficult.

Returned the Papers.

A well known gentleman in this city moved into a house that had been previously occupied by another gentleman who was a subscriber to one of the evening papers. The carrier of course continued leaving the paper for a space of a year, never having been notified of the change. The collector recently went around to collect for the paper, the bill being made out in the name of the gentleman who had subscribed. When the collector presented the bill the gentleman of the house said: "Why, my dear sir, that man has not lived here for over a year. You are at the wrong house."

"Well, has not the carrier been leaving you a copy of the paper all the time?"

"Yes, sir. But I did not subscribe, and I told the boy to quit leaving it. But he never did so."

"You have received the paper every day, haven't you?"

"Yes, sir."

"Then you ought to pay for it."

"Well, excuse me a moment," and the gentleman went into the house. Returning in a moment he lugged out a stack of newspapers half as tall as himself. "Here are your papers, sir: I have no use for them."

He had read them and carefully filed them away until the bill should be presented. The collector sent a transfer wagon to haul away a year's accumulation of papers, the pay for which he failed to get, because one man returned them and the man never received them. - Chattanooga Times.

Bad Blood.

Impure or vitiated blood is nine times out of ten caused by some form of constipation or indigestion that clogs up the system, when the blood naturally becomes impregnated with the effete matter. The old Sarsaparilla attempt to reach this condition by attacking the blood with the drastic mineral "potash." The potash theory is old and obsolete. Joy's Vegetable Sarsaparilla is modern. It goes to the seat of the trouble. It cleanses the liver, kidneys and bowels to healthful action, and invigorates the circulation, and the impurities are quickly carried off through the natural channels.

Try it and note its delightful action. Chas. Lee, at Beams's Third and Market Streets, S. E., writes: "I took it for vitiated blood and while on the first bottle became convinced of its merits, for I could feel it was working, purifying a change. It cleansed, purified and braced me up generally, and everything is now working full and regular."

A Necessity.

The consumption of tea largely increases every year in England, Russia, and the principal European tea-drinking countries. But it does not grow in America. And not alone that, but thousands of Europeans who leave Europe ardent lovers of tea, upon arriving in the United States gradually discontinue its use, and finally cease it altogether.

This state of things is due to the fact that the Americans think so much of business and so little of their palates that they permit China and Japan to ship them their cheapest and most worthless teas. Between the wealthy classes of China and Japan and the exacting and cultivated tea-drinkers of Europe, the finer teas find a ready market. The balance of the crop comes to America. Is there any wonder, then, that our taste for tea does not appreciate?
