PRESERVE OUR FORESTS.

To the Water Drinkers of This Vicinity. Reading, this morning, an article by George G. Mackenzie on the "Pressing Need of Forest Reservation in the Sierra" in the current number of the Century, I am forcibly reminded of the equally great and apparently unheeded need of a similar preservation of the sources of our own water supply. Alrendy a vast mischief has been done. If alarm note is not immediately Collections made and proceeds promptly ded and heeded, a brief generation remitted on day of collection. sounded and heeded, a brief generation may reproduce what is now seen in de-forested Spain—water sold by the New York, San Francisco and Portcariers-that is, as far as our own water shed is concerned. These hazards have not been concealed, but are plain to every observer. The supine indifference D. P. THOMPSON. with which the general community endures a familiar and common danger, is one of the marvels of humanity. Two years ago I observed what might have been thought to be the bursting out of an active crater on the side of Mount Hood. It was but the cloud of dust caused by a flock of sheep that were herded there. To see what those sheep could accomplish in one seaone has but to look at when the band ferried across the Columbia last Sunday morning were Letters of Credit issued available in he camped but for a short time. In the morning a short thick sward covered the place, in the afternoon the wind was carrying the very soil itself far to the westward. This policy of public inaction will rapidly hasten not only the destruction of our water supply, but of our glorious mountain itself. It was sore enough when the accuracy of surveys took off some thousands of feet from that proud peak now far more than mortifying will it be to have its robe of protecting green torn from its base, by wanton destruction of its under growth and consequent exposure to forest fires, washing of the loosened soil, tumbling down of the rocks. Alas, for the ancient glory of our land ! This is no idle scare, but prompt action to arrest such wilful destruction of the property of the many -of all Oregonians, as well as of our many visitors, for the benefit of a few sheep owners, should at once be taken.

Monthly Meteorological Report.

Weather bureau, department of agriculture Station, The Dalles, Oregon, for the month o May, 1892. Latitude 45? 36' 18". Longitude 121° 12' \" west Altitude 116 feet above sea level.

A Down East Toll Bridge Sign. A few old toll bridges down east bear signs that perpetuate the memory of a curious law. These signs proclaim that all persons, save "paupers, Indians and clergymen," must pay toll in crossing the bridge. The indulgence shown to paupers and clergymen is easily understood from the practice elsewhere, but why the Indians were exempted is not

so clear, unless, indeed, it was a recog-

nition of the aboriginal right to the free-

dom of the region.-Boston Journal. Poor Doggie Was Not Steepy This story is told of a tardy pair at a formal dinner. When the company of guests had waited nearly half an hour and at last the hostess gave up the missing ones and all were seated at the table, the pair appeared. The explanation from the wife was that "it was quite too bad, but Bijou would not let us leave, and we had to wait until the lit-tle fellow was asleep."-New York

A Movable Sidewalk.

An experimental sidewalk is now in operation in Chicago. It consists of two movable platforms, 300 feet long, moving side by side in the same direction. one at a speed of three, the other at six miles per hour. It has carried 500 persons at one time, and seems, to be a suc-cess. It will be used at the World's fair. -New York Times.

Bad Blood.

times out of ten caused by some form of constipation or indiges tion that clogs up the system, when the blood naturally becomes impregnated with the effete matter. Theold Sarsaparillas attempt to reach this condition by attacking the blood with the drastic mineral "potash." The potash theory is

old and obsolete. Joy's Vegetable Sarsaparilla is modern. It goes to the seat of the trouble. It arouses the liver, kidners and bowels to healthful action, and invigorates the circulation, and the impurities are quickly carried off through the natural channels.

Try it and note its delightful action. Chas. Lee, at Beamish's Third and Market Streets, S. F., writes: "I took it for vitiated blood and while on the first bottie became convinced of its mer-ita, for I could feel it was working a change. . It cleanses!, purifled and braced me up generally. and everything is now working full and regula."

A Necessity.

of tea largely increases every year in England, Russia, and the principal Euro-Pean tea-drinking does not grow in America. And not alone that, but thousands of Europeans who leave Europe upon arriving in the United States gradu-

ally discontinue its use, and finally, cease it This state of things is due to the fact that

This state of things is due to the fact that the Americans think so much of business and so little of their palates that they permit Chins and Japan to ship them their chespest and most worthless teas. Between the wealthy classes of Chins and Japan and the exacting and cultivated tea-drinkers of Europe, the finer teas find a ready market. The balance of the crop comes to America. Is there any wonder, then, that our taste for tea does not appreciate?

In view of these facts, is there not an immediate demand for the importation of a brand of tea that is guaranteed to be uncolored, unmanipulated, and of absoints purify? We think there is, and present Booch's Tea. Its purity is guaranteed in every respect. It has, therefore, more in-

parity? We think there is, and present Bosch's Tea. Its purity is guaranteed in every respect. It has, therefore, more inherent strength than the cheap teas you have been drinking, fally one third less being required for an infusion. This you will discover the first time you make it. Likewise, the fiavor is delightful, being the natural favor of an unadulterated article. It is a revelation to tea-drinkers. Sold only in packages bearing this mark:

Daily and Weekly Editions.

THE CHRONICLE was established for the express purpose of faithfully representing The Dalles and the surrounding country, and the satisfying effect of its mission is everywhere apparent. It now leads all other publications in Wasco, Sherman, Gilliam, a large part of Crook, Morrow and Grant counties, as well as Klickitat and other regions north of The Dalles, hence it is the best

medium for advertisers in the Inland Empire. The DAILY CHRONICLE is published every evening in the week (Sundays excepted) at \$6.00 per annum. The WEEKLY CHRONICLE on Fridays of

each week at \$1.50 per annum. For advertising rates, subscriptions, etc., address

THE CHRONICLE PUBLISHING CO., The Dalles, Oregon.
