Rainmaking by Faith Some forty years ago, on a clo Sabbath morning, the president of Ober lin college, Professor Phinney, walked briskly to the chapel—there had been a distressing drought—and began the service with an extremely fervent prayer for rain. The prayer was long, and be-fore it was finished the skies began to darken, and almost before the congregation was dismissed a copious rain began to fall. The suggestive fact in this felation is that President Phinney had been observed during the morning to give very watchful attention to the barometer.-H. Chandler in Science.

Rain Without Clouds. We have it on the authority of Sir J C. Ross that in the south Atlantic it rained on one occasion for over an hour when the sky was entirely free from In the Mauritius and other parts of the southern hemisphere this is not a rare occurrence; but in Europe it is, and the greatest known length of its duration was ten minutes at Constantinople.-All the Year Round.

Origin of Two Weller Stories Many of Dickens' stories referred to events much spoken of at the time. The story of the marbles was doubtless founded on a tale then current, and the tragedy of the man who killed himself after eating muffins was an elaboration of the account of the suicide of the Hon. Mr. Damer, who destroyed himself after a surfeit of crumpets. — Notes and

The old idea of 40 years are was that facial eruptions were due to a "blood humor," for which they gave potash. Thus all the old Sarssparillas contain potash, a most objectionable and drastic mineral, that instead of decreasing. actually creates more eruptions. You have no ticed this when taking other Sarsaparillas than Joy's. It is however now known that the stomach, the blood creating power, is the seat of all vitiating or cleansing operations. A stomach clogged by indigestion or constipation, vitiates the blood, result pimples. A clean stomach and healthful digestion purifies it and they disappear. TEMPLE LODGE NO. 3, A. O. U. W.—Meets at K. of P. Hall, Corner Second and Court after the modern idea to regulate the bowels and after the modern idea to regulate the bowels and attended to the digestion. The effect is immediate atimulate the digestion. and most satisfactory. A short testimenial to contrast the action of the potash Sarsaparillas and Joy's modern vegetable preparation. Mrs. C. D. Stuart, of 400 Hayes St., S. F., writes: have for years had indigestion, I tried a popular Sarsaparilla but it actually caused more pimples to break out on my face. Hearing that Joy's was a later preparation and acted differently, I tried it and the pimples immediately disappeared."

A Necessity.

of tea largely increases every year in England, Russia, and the principal Enrocountries. But it does not grow in America. And not alone that, but thousands of Europeans who leave Europe ardent lovers of tea, upon arriving in the

United States gradually discontinue its use, and finally cease it

This state of things is due to the fact that the Americans think so much of business and so little of their palates that they permit China and Japan to ship them their chespe and most worthless teas. Between the wealthy classes of China and Japan and the weathy classes of China and Japan and the exacting and cultivated tea-drinkers of Europe, the finer teas find a ready market. The balance of the crop comes to America. Is there any wonder, then, that our taste for tea does not appreciate?

In view of these facts, is there not an immediate demand for the importation of a

brand of tea that is guaranteed to be un-colored, unmanipulated, and of absolute purity? We think there is, and present Beech's Tea. Its purity is guaranteed in every respect. It has, therefore, more in-herent strength than the cheap teas you have been drinking, fally one third less being required for an infusion. This you will discover the first time you make it. Likewise, the flavor is delightful, being the natural fisvor of an unadulterated article. It is a revelation to tea-drinkers. Sold only in packages bearing this mark:

Oregon,

The Gate City of the Inland Empire is situated at the head of havigation on the Middle Columbia, and is a thriving, pros perous city. ITS TERRITORY.

It is the supply city for an extensive and rich agricultural and grazing country, its trade reaching as far south as Summer Lake, a distance of over two hundred miles.

The Largest Wool Market. The rich grazing country along the eastern slope of the Cascades furnishes pasture for thousands of sheep, the wool from

which finds market here. The Dalles is the largest original wool shipping point in

America, about 5,000,000 pounds being shipped last year.

ITS PRODUCTS. The salmon fisheries are the finest on the Columbia, yielding this year a revenue of thousands of dollars, which will be more

than doubled in the near future. The products of the beautiful Klickitat valley find market here, and the country south and east has this year filled the warehouses, and all available storage places to overflowing with their products.

It is the richest city of its size on the coast and its money is scattered over and is being used to develop more farming country than is tributary to any other city in Eastern Oregon. Its situation is unsurpassed. Its climate delightful. Its possibilities incalculable. Its resources unlimited. And on these
