Mount Hood Hose company No. 4, at Mr. Burlingame gave a second sole on idents on the bluff.

Yesterday afternoon bridge 93 on the Union Pacific track near Wyeth took fire and before it was extinguished 200 feet of the bridge was destroyed. The west bound passengers, 119 in number, who arrived here at 4 p. m. were transferred to the D. S. Baker and at 7:30 the boat took them down the river to a point below the burnt bridge and transferred them to a waiting passenger train. The rebuilding of the bridge was rapidly performed, as the noon passen ger to-day came through from Portland only about 20 minutes late.

Dr. W. E. Rinehart returned this fore oon from attending the annual meeting of the State Medical Association which convened on the 14th inst. at Portland and closed last night. Dr. Rinehart not only brings home with him the presidency of the association, he having been elected to that distinguished honor, but he brings with him the pleasing information that he succeeded, after a hard struggle, in obtaining the consent of the association to hold their next annual meeting on the second Tuesday, in June, in The Dalles. The doctor on behalf of our citizens promised the 150 to 200 physicians who are expected to atbend, a right royal reception and a kindly welcome amid natures' grandest, wildest, richest scenic handicraft, in this gorge of the mountains and city at the head of havigation of one of the noblest and grandest rivers in the universe. And the citizens of The Dalles will see that the doctor's promise is kept

WASCO INDEPENDENT ACADEMY. nencement Exercises---The Gradu ates --- A Successful Year.

Commencement exercises of Wasco Independent academy began on Sunday evening with a baccalaureate sermon by Rev. G. R. Burnside, of Buffalo, N. Y. from the text-"Be ye perfect, even as your Father in heaven is perfect" Matt. 5:48. In his impressive way, Mr. Burnside set forth the "One Perfect Life" and exhorted each to do his best to imi-

The Congregational church choir contributed much to the pleasure and profit of the exercise by their excellent music. Monday, Tuesday and Wednesday were given to examinations.

The alumni gave the graduating class a supper on Monday evening, which was an occasion of much pleasure to the par-

It seldom falls to our lot to report so pleasing an event as that which took place in the auditorium of the Court Mr. R. B. Wilson, general freight house last evening, the occasion being agent of the Northern Pacific Railway the exercises of the graduating class for the year 1891-92. By eight o'clock the large hall was filled to overflowing. Mrs. Captain Lanfair leit on the Baker while those who came a little late, were unable to obtain admittance. It was with considerable pride we noticed so unable to obtain admittance and pride we noticed so unable to obtain admittance. It was with considerable pride we noticed so up he reared and here. W. D. Richards brought into town many representative citizens of our town, this morning a sample of rye grown on while a number of visitors from distant his place, that measures 7 feet and ten cities in the East, were also happily conspicuous by their presence.

The exercises began promptly at 8 bridge, came into the city last night for d'clock, and as Rev. Mr. Curtis had not the purpose of meeting friends from yet arrived, prayer was offered by Rev. George R. Burnside. Then came music After a strong argument by Senator by Mrs. Huntington, Miss Slutz, Mr.

Miss Frances Ettie Rowe followed with an excellently written essay entitled "Three Centuries of Education." After a short interval Mr. Geo. Burlin-

game sang a solo and was warmly ap-

The essay of Miss Olive Taylor, on "The Life and Times of Homer," is worthy of great praise and cannot fail to excite a deeper interest when we are told that "seven cities now claim Homer

The instrumental solo of Miss Aimee Newman also deserves a good share of our applause, while the oration of Mr. Albert Patrick O'Leary on "The Acquisition of Oregon," was the great treat of the evening.

This, by the way, is a note-worthy instance of home education in the higher branches of study. Mr. O'Leary will always be more largely indebted to the opportunities and influences of Wasco academy than to any other factor in his education. Besides an excellent standing in his classes as a student, an interest in home, history, and public affairs, take a position before the people of his native city from which he prebably will never recede.

The academy has enabled him to choose his standard, and his career as a man must be marked by the same earnest effort that gave to him his achievement as a boy.

We understand the influence of the Wasco academy is to be still further ex-Messrs. Schanno, Thornbury, Haight tended by his becoming a student of

test-drill at the hydrant corner of "The Pilgrim Teacher" and was again Union and Eiglith street last evening, generously applanded, after which the threw a stream, 11/4 nozzle, over the Rev. O. D. Taylor, president of the tops of the high poplar trees in that board of directors, made a very earnest locality. This may be considered a very address. In the course of his remarks, highly satisfactory test, and assures Mr. Taylor said he had sent down to confidence of security on the part of res- Hood River, for some strawberries a few days ago, having heard that they were larger and sweeter than our own berries refineries in Philadelphia are Germans. here at home; well, the berries came and they were excellent, being both, large and sweet, but after they were land. eaten he went out into his own garden and found berries that were larger and sweeter, and so; by way of illustration, Mr. Taylor urged upon the citizens to investigate the opportunities which our city is the proud possessor of, and that sand. when our young people arrive at an age when they seek for higher education, to give them the benefit of that which can

> be procured at home, equal to the best. In addressing the graduating class Mr. Taylor spoke with great earnestness, and in the kind words that reflected a father's love, urged upon them to follow their own better impulses as they journeyed through life, and to all of which it might be aptly said:

"This above all To thine own self be true

And it must follow, as the night the day Thou cans't not not then be false to any

In presenting the diplomas Prof. Ingalls was visibly affected, as he has no doubt had for his pupils a feeling akin to that which a father feels for his children. We heartily congratulate the professor upon his work for the past year.

A Bear Easily Caught.

A party of hunters on the Florida coast came suddenly upon a bear prowling about the wreckage on the beach. Bruin would first look at an article, then smell it, touch it with his paw and finally, after deliberately scating himself, with his hind legs projecting in front, turn his head on one side and try to crack his new acquisition with his teeth. The burlesque gravity of his manner was indescribable.

He threw away a cocoanut, as being too hard to chew, ate an orange with great satisfaction and presently discov-ered a small cask, which he endeavored to open. By dint of much biting he enlarged the bunghole so that he could insert a paw; then he held the cask on one arm and kept the other paw busy in rapid journeys thence to his mouth.

But this method of getting at the con tents did not satisfy him, and presently. standing erect on his hind feet, he inserted his nose in the barrel, and then his head. Now, a bear's nose is so sharp that it goes through a small place very easily, but owing to the heavy folds of skin about the neck, and the fact that the hair and ears are set backward, it does not possess the same facility for

Bruin was fast. He began to pull back, but as he pulled the barrel came with him, and as he rolled on his back. pawing ineffectually at its convex sides. it merely revolved about his head, as if sound of our laughter, he took fright tion. and ran, wearing the cask on his head like a helmet.

Up the hill he rushed, lost all sense of up he reared and began growling and waving his paws, but was speedily released by one of the negroes, who broke the barrel with a blow from his club and scattered the mackerel with which it had been filled.

The bear rewarded him for this serv ice with a blow of the paw which laid him on the sands, and in another second was himself stretched there by the discharge of two rifles.-Wild Sports in

Durability of Ancient Ink.

The labor required in making the man nscript books of ancient days was far beyond the understanding of the men of the present day who possess all the modern adjuncts to that art. As these books were intended to last for many years, answering the same purpose as our printed tomes, the great desideratum in their preparation was durability. As a natural consequence, those who made them not only selected the best quality upon, but also paid particular attention to the quality of the ink used in such work.

That they were successful in making the latter is evidenced by the fact that in the majority of instances the char-acters inscribed on the most ancient manuscribed on the most ancient manuscript rolls now preserved in the Britism museum and elsewhere are very legible, the ink being bright and black and showing but little evidence of its great age. It is supposed that the superior quality of lampblack, prepared in a manner now unknown, was the true cause of this beautiful and lasting color of the ink in greating. of the ink in question.-Detroit Free

Home From a Foreign Land.

NEW YORK, June 17 .- Among the recent arrivals from Europe are Mrs. Robert T. Lincoln, wife of the United States minister to England, and Mrs. Warner Miller. The courtesies of the port were extended to both ladies. The vessel did not reach her North river pier until nearly 5 o'clock and they were probably the only passengers whose baggage received the attention of the customs inspector. Mrs. Lincoln was accompanied by her daughter and was met at the pier by her-son-in-law. "I have nothing to say for publication," she said pleasantly, "except that I have had a rather rough voyage. I shall be in New York about three weeks and shall spend about four months in America before returning to England."

Notice is hereby given that sealed proposals for the construction of wooden steps or stairs from the foot of the bluff at the south end of Laughlin street to the top of the bluff, will be received at the office of the Recorder until four o'clock, of Thursday June 30th, 1892. Plans and specifications may be seen at the Recorder's office. The council reserves the right to reject any and all bids. By order of the common council of Dellas City. FRANK MENEVEE.
