The Evolution of the Sword.

As men in early times fought hand to hand, the oldest specimens of the sword are short; in fact, the sword is probably but an evolution of the club, which at first made of hard wood was gradually sharpened on one and then on both sides, so as to inflict a more deadly wound. Even today we find some savage races employing wooden weapons. Wood gave way to stone, which in turn was displaced by bronze, iron and finally steel.

The sword increased in length as men became more civilized and showed a disposition to fight farther away from each other, which required more dexterity in the use of the weapon. Some specimens we have of swords of the Middle Ages are almost if not quite as long as the warriors who wielded them. During the Fifteenth century the science of fencing was invented, when the sword in the form of a rapier reached the highest point of development. - Kate Field's Washington.

Unasked Sympathy.

I cannot touch a piece of velvet with my fingers or permit the furry side of a peach skin to touch my lips without experiencing immediately a sort of cold chill all over my person. It is not so very severe, but it is unpleasant. Still I would prefer to live forever under the ban of such a chill than to be compelled to meet once a day one of those obnoxious bundles of insincerity and pretense, the unctuous and effusive chap who thinks you are not properly treated and never loses an opportunity to tell you so. Of course I am aware I am not properly appreciated, but I detest being told of the fact by another person, who never lifts a finger in my behalf, and who only wags his tongue in my favor when I am by to see him do it. - Detroit Free Press.

CONSTIPATION.

Afflicts half the American people yet there is only one preparation of Sarsaparilla that acts on the bowels and reaches this important trouble, and that is Joy's Vegetable Sarsaparilla. It relieves it in 24 hours, and an occasional dose prevents return. Verifier by permission to C. E. Elkington, 125 Locust Avenue, San Francisco; J. H. Brown, Petaluma; H. S. Winn, Geary Court, San Francisco, and hundreds of others who have used it in constipation. One letter is a sample of hundreds. Elkington writes: "I have been for years subject to bilious headaches and constipation. Have been so bad for a year back have had to take a physic every other night or else I would have a headache. After taking one bottle of J. V. S., I am in splendid shape. It has done wonderful things for me. People similarly troubled should try it and be convinced."

Joy's Vegetable Sarsaparilla

Most modern, used effective, largest bottle. Same price, \$1.00, as for \$5.00.

A Necessity.

The consumption of tea largely increases every year in England, Russia, and the principal European tea-drinking countries. But it does not grow in America. And not alone that, but thousands of Europeans who leave Europe ardent lovers of tea, upon arriving in the United States gradually discontinue its use, and finally cease it altogether.

This state of things is due to the fact that the Americans think so much of business and so little of their palates that they permit China and Japan to ship them their cheapest and most worthless teas. Between the wealthy classes of China and Japan and the exacting and cultivated tea-drinkers of Europe, the finer teas find a ready market. The balance of the crop comes to America. Is there any wonder, then, that our taste for tea does not appreciate?

In view of these facts, is there not an immediate demand for the importation of a brand of tea that is guaranteed to be uncolored, unmanipulated, and of absolute purity? We think there is, and present Beech's Tea. Its purity is guaranteed in every respect. It has, therefore, more inherent strength than the cheap teas you have been drinking, fully one third less being required for an infusion. This you will discover the first time you make it. Likewise, the flavor is delightful, being the natural flavor of an unadulterated article. It is a revelation to tea-drinkers. Sold only in packages bearing this mark:

THE DALLES,

Wasco County, Oregon.

The Gate City of the Inland Empire is situated at the head of navigation on the Middle Columbia, and is a thriving, prosperous city.

ITS TERRITORY.

It is the supply city for an extensive and rich agricultural and grazing country, its trade reaching as far south as Summer Lake, a distance of over two hundred miles.

The Largest Wool Market.

The rich grazing country along the eastern slope of the Cascades furnishes pasture for thousands of sheep, the wool from which finds market here.

The Dalles is the largest original wool shipping point in America, about 5,000,000 pounds being shipped last year.

ITS PRODUCTS.

The salmon fisheries are the finest on the Columbia, yielding this year a revenue of thousands of dollars, which will be more than doubled in the near future.

The products of the beautiful Klickitat valley find market here, and the country south and east has this year filled the warehouses, and all available storage places to overflowing with their products.

ITS WEALTH.

It is the richest city of its size on the coast and its money is scattered over and is being used to develop more farming country than is tributary to any other city in Eastern Oregon.

Its situation is unsurpassed. Its climate delightful. Its possibilities incalculable. Its resources unlimited. And on these corner stones she stands.

The DAILY CHRONICLE is published every evening in the week (Sundays excepted) at \$6.00 per annum. The WEEKLY CHRONICLE on Fridays of each week at \$1.50 per annum.
