ASTORIA AGAIN AHEAD.

A mortgage for \$10,000,000 has been placed on record in Astoria, which secures \$30,000 per mile for the Astoria and Portland railway. As the company has accepted the Astoria and South coast railway, the immediate issue of \$480,000 is understood to cover that railroad which has become of increased importance as part of the Astoria and Portland system that is now under construction. This deed makes known that the Astoria and Portland railroad is about to attain transcontinental proportions. It will not alone connect Astoria with the great trunk lines; the Northern Pacific, the Southern Pacific and the Union Pacific; but will form the basis of a transcontinental system itself. Provision is made in the mortgage deed for a branch line to the manufacturing town of Oswego, and for other extensions. That these extensions will be great may be judged from the terms of the mortgage, which provides for the building of 350 miles, that being the number of miles required, at \$30,000 per mile, to consume the full amount of the issue. It is impossible to overestimate the importance of this railroad both as regards Astoria itself and the whole of Oregon. The commanding position of Astoria from a commercial point of view has long been recognized by the leading railroad men of the country. Each of the transcontinental lines has watched the designs of the others as regards Astoria. It is well known that these trunk lines are determined that no one line shall monopolize the traffic with the mouth of the Columbia. Accordingly Astoria may soon see the Northern Pacific and the Southern Pacific taking steps to gain a foothold there. Surveys have been already made for the Northern Pacific which needs only forty-seven miles of track to connect its line with Astoria. Large terminal facilities have also been reserved on the west side for this trunk line which the Astorian says is now represented there by an efficient agent. The Union Pacific which now does a large steamboat, passenger and freight business with Astoria, has a strong incentive to retain its hold. The Southern Pacific which controls the route to California will also re-appear as a claimant for the railroad business of Astoria.

Further conference on the dalles boat railway is at an end. Senator Dolph did not sign the report, but will not further prolong the fight, as he says it is useless, and he will not jeopardize the bill in which Oregon has such large interests. Our first report this morning, was to the effect that "the conference on the river and harbor bill have agreed to the only two points in dispute—the senate amendment providing for the dalles boat railroad and the lake Washington canal. The senate conference receded from both with a proviso that a board of four army officers and three civilians be appointed to re-examine both projects." This was incorrect.

British general elections opened in London yesterday with the return without opposition of Lord Randolph Churchill, conservative, from South Paddington, who represented that district in parliament, just dissolved. The district is overwhelmingly conservative and unionist, and it was thought best not to waste money in contesting the seat. Lord Randolph is not regarded as a desirable ally by many conservatives, but has personal influence they cannot ignore.

There is a vague rumor that Calvin S. Brice will not conduct the national democratic campaign this year. Brice is as dark and lowering as the inside pocket of a black alpaca coat and you can bet that Dick Croker's waistcoat covers a multitude of vengeful purposes. New York has been given to understand that if she doesn't like it she can do the other thing.

Boies has been given to understand that no recent convert to democracy is to be trusted. The probationary period exacted by democracy is two-score years and ten. Democracy has no use for material that hasn't moss and whiskers on it.
