WEDNESDAY - JULY 6, 1892

LOCAL RECENTS.

Jollify.
Ring the bells.
Blow the whistles.
Get out and shout.
The Cascade locks will now be finished
in two years.

Why not have a little bit of a blow
out tonight. A sort of jollification
meeting.

Mrs. Mary Laughlin leaves today to
take up her summer residence on Long
Beach, Ilwaco.

There are some attractions in Pease
& Mays' new ad this afternoon. Briggs
can't keep everything for the windows—
see.

Read and reflect over the new ad. of

Only exclusive boot and shoe house in

The Fourth of July celebration com-
mittee wish to hold their final meeting
this evening, audit bills, and adjourn
sine die.

Mrs. Frank Sels, daughter of Capt. J.
W. Lewis, who has been visiting her
parents in this city, returned to her
home in Canyon city yesterday.

Mr. M. J. Anderson, of Dufur, is in
the city today. He bears evidence of
close contact to the flames, while assist-
ing at the Dufur fire on Monday.

The murderer Wilson has been located,
and if alive, possibly has been captured
before this. Probably Fum Kelly will
not interest himself in the future safety
of the scoundrel as he did in the past
week.

County court is in session today with
a full bench, commissioners Kincaid and
Barnfield sitting with Judge Blakeley.
But little if any record work has been
completed today, but the court is getting
into business trim.

The 4 p. m. yesterday's passenger, and
the 3 a. m. today's passenger, came in at
7:15 this morning. Time was lost by a
burned bridge east of Huntington.
These newfangled smoke stacks appear
to be an expensive luxury.

One of the curiosities of life is to wit-
ness a quarrel between a deaf and dumb
couple. They more than make up in
gestures what they lose in words. And
their actions certainly speak their anger
more forcibly than mere words could.

Stock Commissioner Roberts, for
Wasco county, tendered his resignation
today to the county court. Hon. W. H.
H. Dufur, for fourteen years largely iden-
tified with stock interests, is a candi-
date for the position, and has a very
substantial non-partisan application in
support of his claim.

County Clerk J. B. Crossen was served
last evening with the legal documents
notifying him that James M. Hunting-
ton is to contest the right to possession
of that position. The document is a
voluminous one, and recites that in
nearly every precinct in the county
errors were made. According to Mr.
H.'s statement, he was elected by a
very large majority.

The river is slowly receding.
Salmon fishing is improving up this
way this week.

Mr. P. M. S. Briggs returned from
Chehalis today.

Of course you will see the democratic
candidates photo today, on the second
page.

Mount Hood Hose team entertained
their friends last evening in several
bumpers of extra dry Mumm.

Don't get alarmed if the fire bells ring
out tonight about 9 o'clock. It will be
simply joyousness over the final assur-
ance that the cascade locks is to be
finished.

A dispatch was sent to Washington
immediately, extending grateful thanks
to the delegation in Oregon for their
untiring efforts in behalf of an open
river.

The Dalles citizens band will enlighten
an open air meeting tonight, on Court
street, in rejoicings over the assurance
that the cascade locks will be completed
by contract within two years at least.

Julius J. Wiley took hold this morn-
ing as steward at the Umatilla house.
Julius is a very careful and painstaking
caterer, and will fill the bill to a notch
in this hospitable caravansary.

Deputy U. S. Marshal A. G. Johnson
had a very unpleasant duty to perform
last week. He took D. W. Aldridge,
former editor of the Prineville News, on
a warrant issued out of the United States
court to Portland on an indictment
found against him and charging him
with having published and mailed ob-
scene literature. Aldridge was fined \$50.

The Water Commission.

The water commissioners met today
at their office on Court street, and reor-
ganized for the coming year.

C. L. Phillips was chosen president,
and Hugh Chrisman, secretary.

Dr. O. C. Hollister, J. O. Mack, W. A.
Wilson and Hugh Chrisman will
hereafter act in the places filled pre-
viously by Messrs. Hugh Glenn, A. S.
Macallister, M. T. Nolan, and Max
Vogt.

Mr. Vogt having tendered his resigna-
tion the place was filled by appoint-
ment of Mr. Hugh Chrisman. The
others are new members, elected at the
recent city election.

The new board consists of Messrs. J.
C. Nickelsen, H. C. Neilsen, Hugh
Chrisman, J. O. Mack, Dr. O. C. Hol-
lister, C. L. Phillips and W. H. Wilson.

Mr. Wilson has not yet qualified, how-
ever, and Mr. Macallister will hold over,
until he does.

A Serious Accident.

Geo. Pierce, who was nearly killed by
the explosion of giant powder with
which he was celebrating the 4th at
Hood River, was a night watchman in
the employ of N. P. R. Co., and as such
entitled to benefits of the hospital. It
was certainly, in his case, a very fortu-
nate circumstance. He was accompan-
ied to St. Vincent's hospital Monday
evening, by Dr. Logan, of this city.

His left hand was blown off, and the
lower third of the fore-arm had to be
amputated. The right hand palm was
badly lacerated, and the center finger
blown off. One eye seems to be gone,
and he may possibly lose both. He was
considerably burned on the chest. It is
a very unfortunate case.

The free silver enthusiasts are not in
exact harmony over the situation.

Current Topics.

All leaves of absence in the house
were revoked yesterday, except for sick-
ness.

Efforts are being made to unite the
democratic and peoples party of Iowa,
by giving the peoples party the elector-
al ticket and the democrats the state
ticket. The object is to help throw the
election into the house, which it is
thought would elect Cleveland.

John Thomas, once a wealthy farmer
of Ada county, Idaho, informed the as-
sessor that he should hereafter refuse to
pay taxes on his ranch. Every winter
for the past four or five years the Boise
river has played great pranks with Mr.
Thomas' land, and now he has but
twenty acres left from a whole half sec-
tion.

Yesterday the university of Dublin
began the celebration of the 300th anni-
versary of the founding of Trinity col-
lege by Queen Elizabeth, with a recep-
tion to guests and delegates from all
countries. The occasion has probably
never been surpassed in this generation
as a gathering of men distinguished in
letters and science.

The weekly report of the Oregon
weather bureau says: "Rain is badly
needed especially for late sown grain,
corn and gardens. The total wheat
crop of Oregon in 1891 was fourteen mil-
lion bushels, this year it will not be
over ten million bushels. The nearest
to a failure is in parts of Morrow, Gil-
liam, Sherman and Wasco counties,
where, in localities, not much more
than seed will be secured."

The London Star says that if the av-
erage of yesterday's gains are main-
tained it will give the liberals a majority
of 150 in the next parliament, while
there is practical certainty the average
will be greater. Gladstone is jubilant
over the results, especially the return
of John Bruce, liberal, from Greenock.

Returns show the election of ninety-five
conservatives, forty-nine liberals and
thirty-nine liberal unionists. The net
gain for the liberal party and Irish home
rule is eight seats.

A St. Petersburg dispatch says the
cholera is advancing toward Moscow. It
has appeared on the other side of the
Volga, in Samaria. The mortality is
increasing at Baku and suburbs. The
hospitals are totally inadequate to care
for the numbers sick. Medicines and
disinfectants are only obtainable at an
exorbitant price, and the streets are be-
ing sprinkled with petroleum as a disin-
fectant. Steamers have withdrawn
from the Baku route on account of
the epidemic. The Russian frontier is
closed against goods and passengers by
way of Ouzamanda. Twenty new cases
are reported at Saratoka. The disease
is spreading at Astrakhan. At
Romanoff, and there is disquieting
news from Rybinsk. The greatest vigil-
ance will be necessary if cholera spreads
to the shores of the Black sea, as there
is every prospect of the present epidemic
following the course the disease took in
1831 and 1847.

Change of Business.

Having disposed of all our stock in-
terest and good will in the business of
Orchard & Co., grocery, crockery and
glass ware, in The Dalles, Or. This is to
notify all parties concerned that the
firm of C. L. Richmond & Co., will con-
tinue in business at the old stand, who
will collect and pay all bills of the past
firm. We recommend our patrons to
continue business with the new firm as
above.

Safe at Last.

Col. N. B. Sinnott received a dispatch
from Hon. Binger Hermann today which
settles the cascade locks question. It
says:

WASHINGTON, July 6.—River and har-
bor bill finally passed today. Cascade
contract and appropriation retained.
Ship railway rejected.

BINGER HERMANN.

Before the chalk on THE CHRONICLE
bulletin board was dry, a crowd col-
lected and many congratulations were
expressed.

The Dalles may now be practically
considered at the head of navigation for
whaleback steamers.

The biggest flouring mill in the world
will now go up here and numerous
other leading industries will soon make
this a center of business, attractive
alike to the investor and home builder.

The Tygh Hill Road.

Superintendent T. J. Driver was in the
city yesterday, and from him we learned
that he has expended \$317.00 over and
above the sums collected to complete the
Tygh Hill grade. It is admitted by
everybody who has given the subject
any attention whatever that Mr. Driver
has done more work for the money he
had than was ever done before, and files
of THE CHRONICLE prove that the work
has been of lasting benefit to all. Mr.
Driver invites an inspection of his work,
and his accounts, and while he can show
that every dollar has been judiciously
expended, and that it was necessary for
him to expend over \$300.00 of his pri-
vate funds and labor to make the road
available, it seems to us he should be
reimbursed, and that an additional \$200
should be subscribed toward turn outs
on the grade. Wherever he calls upon
the public to represent this subject, we
bespeak for him an audience.

Greeting.

ism, has become editor of the Dalles

influential republican paper.

A Hunting Item.

Texas Siftings. "Is the coon a smart
animal?" asked a stranger of old Si
Jackson on Onion Creek, near Austin,
Texas. "Talk about coons being smart. I
should say dey was smart." "Well how
smart are they?" A coon played me the
meanest trick you ever heered tell on. I
foun' a hole whar de coon went inter de
groun' and I waited dar all day long to
shoot dat coon, and when he did come
out he was a polecat."

How Much a Horse Eats.

A horse consumes every year the prod-
uce of six acres in oats and hay, and
may be said to consume one-sixth of
what he cultivates. If a horse is kept
hungry for any length of time, he will
afterward devour his food so voraciously
as to distend his stomach and endanger
an attack of staggers. —London Tit-Bits.

Great Coal Development.

An extraordinary development is tak-
ing place in the coal fields of West York-
shire, England, and it is expected that
the mines of that region will reach an
annual capacity of 20,000,000 tons within
the next three years. —New York Jour-

Two Brothers in a Battle.

War means not only public but private
calamity. Through its means nations
are convulsed and family relations se-
vered. During the Peninsular war one of
the generals observing the numerous
cavalry against which his brigade had
to contend, advised the officers in com-
mand not to weaken their ranks by con-
ducting prisoners to the rear, but after
disarming them to let them proceed of
their own accord. It was not uncon-
mon, therefore, to see groups of French
dragoons riding quietly to the rear, look-
ing for some one to take them in charge.

It happened, at one time, that a cer-
tain Hussar, having taken a prisoner
ordered him also to fall back, but the
man, having ridden some little distance
as directed, suddenly applied spurs to
his horse and made a detour to his
regiment. The Hussar, observing this,
as quickly pursued, overtook him and
shot him dead.

Having secured his rein, he conveyed
him some little distance to the rear and
proceeded to take off the dead man's
valise. There, on overhauling its con-
tents, he found a letter from his own
father, which proved that it was his
brother who had fallen by his hands.

Stupefied with horror, he sat motion-
less and speechless for some minutes
then big tears rolled down his cheeks,
and he exclaimed, "The king has com-
manded, and God will forgive me!"

He put spurs to his horse and rushed
headlong into battle. That very day he
was killed near the spot where he had
innocently shot his brother.—Youth's
Companion.

Newspapers of the World.

The number of newspapers published
in all countries is estimated at 41,000, of
which number about 34,000 appear in
Europe. Germany leads the European
list with 5,000, then comes France with
4,100, England with 4,000, Austria-Hun-
gary with 3,500, Italy with 1,400, Spain
with 950, Russia with 800, Switzerland
with 450, Belgium and Holland with
300 each, and the rest are published in
Portugal, the Scandinavian and the Bal-
can countries.

The United States has 13,000 news-
papers. Canada has 700 and Australia also
has 700. The people of the United States
therefore read and support about as
many newspapers as England, France,
Germany and Russia combined.—Paper.

The Rosemary at a Wedding.

In the island of Crete, it is said, a
bride dressed for the wedding still calls,
last of all, for a sprig of rosemary to
bring her luck. And now we come to
find rosemary in close association with
both marriage and death, just as the hy-
acinth was, and perhaps still is, among
the Greeks. It is interesting to trace
the connection by which the same plant
came to have two such different uses.—

Good Effects of Turpentine.

As an inhalation turpentine has proved
of great service in bronchitis, pneu-
monia, pleurisy and other throat and
lung affections. If you have a cough
sprinkle a little on a handkerchief and
hold it to your mouth and nose for a
few minutes, breathing the vapor, and
note the relief. —New York Journal.

Mr. W. M. Terry, who has been in the
drug business at Elkton, Ky., for the
past twelve years, says: "Chamber-
lain's Cough Remedy gives better satis-
faction than any other cough medicine I
have ever sold." There is good reason
for this. No other will cure a cold so
quickly; no other is so certain a pre-
ventive and cure for croup; no other
affords so much relief in cases of whoop-
ing cough. For sale by Blakeley &
Houghton, druggists.
