An Aluminium Boat.

I have just returned from a trip to Germany and Switzerland, and while in the latter country I witnessed a sight which was of itself sufficient to pay me for my journey. It was nothing less than the launching of the first boat ever built of aluminium. This took place some weeks ago on Lake Zurich, a body of water which has become celebrated as a birthplace of new departures in shipbuilding. It was there that the first aluminium launch ever constructed made its maiden trip, and also where the first successful electric boat was launched. Put this last achievement, the successful trial of the first boat in the world ever built entirely of aluminium, will make Lake Zurich justly famous. This boat is not a large affair. It resembles in appearance and size the small mahogany launches, and in fact its motive power is an engine of this kind, which has an improved device whereby the flame can be maintained while the boat is not in motion. At a distance the boat has no unusual appearance. It is only on near approach and close examination that a person would notice that the boat was not painted gray, but was made of a white, shining metal. Inside everything has this silver white color, for even the seats, gunwales and handrails are made of this beautiful and un tarnishable metal. Whoever a polish is given, the surface looks like pure silver. Not only are the ribs and plates, made of aluminium, but the castings of the engine, the rudder and even the tiller ropes are made of the same metal. The entire amount of aluminium used is a little less than 600 pounds, while the total weight of the boat, including the wood, iron and copper parts, is 970 pounds. The launch will hold from eight to twelve people. One of equal size built of wood and iron would weigh from 1,400 to 1,700 pounds.—Interview

Women.

The common afflictions of women are sick-headaches, indigestion and nervous troubles. They arise largely from stomach disorders. As Joy's Vegetable Sarsaparilla is the only bowel regulating preparation, you can see why it is more effective than any other Sarsaparilla in those troubles. It is daily relieving hundreds. The action is mild, direct and effective. We have scores of letters from grateful women.

THE DALLES, Wasco County, Oregon. The Gate City of the Inland Empire is situated at the head of navigation on the Middle Columbia, and is a thriving, prosperous city. ITS TERRITORY. It is the supply city for an extensive and rich agricultural and grazing country, its trade reaching as far south as Summer Lake, a distance of over two hundred miles. The Largest Wool Market. The rich grazing country along the eastern slope of the Cascades furnishes pasture for thousands of sheep, the wool from which finds market here. The Dalles is the largest original wool shipping point in America, about 5,000,000 pounds being shipped last year. ITS PRODUCTS. The salmon fisheries are the finest on the Columbia, yielding this year a revenue of thousands of dollars, which will be more than doubled in the near future. The products of the beautiful Klickitat valley find market here, and the country south and east has this year filled the warehouses, and all available storage places to overflowing with their products. ITS WEALTH. It is the richest city of its size on the coast and its money is scattered over and is being used to develop more farming country than is tributary to any other city in Eastern Oregon. Its situation is unsurpassed. Its climate delightful. Its possibilities incalculable. Its resources unlimited. And on these corner stones she stands.

The DAILY CHRONICLE is published every evening in the week (Sundays excepted) at \$6.00 per annum. The WEEKLY CHRONICLE on Fridays of each week at \$1.50 per annum.
