The Chinese of this city have gone into the business of producing vegetable forks. Geo. McKinney left one at this office today, four-tined, of the onion variety.

There was a long procession of wind passed through The Dalles yesterday. It took it four hours to pass the Umatilla house corner, traveling at the rate of seven miles an hour.

The coroner jury empaneled in the post mortem case met last evening pursuant to adjournment, but as no returns had been received from the chemist, adjourned until Friday next.

A San Francisco house, writing for information (without a stamp for reply, of course) concerning the whereabouts of a recent employe of the writer, respectfully referred to the registers of the Pacific Northwest penitentiaries. They ought to be able to find him in some one of these, if justice holds its own.

Last week one day the express delivery wagon stopped at the residence of Mr. Norman and left a package labeled Bird. As Norman had the promise of a rare bird from a friend who had gone east he thought the feathered songster had arrived. So it had, but it don't sing—it was a big fat frog.

Eugene city has a queer law. Listen to this notice by the city marshal: "Notice is hereby given to all property holders that they are required to cut all thistles on their property, and in the streets adjoining, immediately. If they neglect so to do, the thistles will be cut by the marshal, at the expense of such property holders."

Secretary J. A. Armstrong, of the Moro meeting of the peoples party, held on the 16th, sent us a set of resolutions, one of which "denounces the laws of any state of this union that permits corporations to employ Pinkerton forces to butcher men who labor for bread in mills and mines." Most anybody, of any party, would stand in with such a proposition as that.

Mayor Mays arrived in the city yesterday from his Antelope farm. He says the Saturday shower spread out over an expanse of at least 100 miles. He has a header at work in a barley tract near Dufur which will thresh from thirty to thirty-five bushels per acre safely, that three weeks ago was pronounced actually of so little value that it was hardly considered fit for hay. The highest hills are our most productive lands this year.

It is said that Wasson, the Polk county farmer, who lost his orchard by an application of kerosene is alone to blame for it. He took the recipe literally, like the fellow who swallowed the leech. He was told to apply it. He simply swallowed it. Wasson read the recommendation to use kerosene to destroy borers, and accordingly procured a small syringe and loaded it up with the inflammable fluid, injecting a small quantity into the opening made by borers in the roots, having first dug away the earth to expose the roots. He has abundant proofs that the borers are dead in 522 peach and prune trees, chiefly prunes, but unfortunately the 522 trees are all dead, dried and shriveled up.

**THE PRICE OF WHEAT.**

The Necessity of the Times Demand That Prompt Measures be Taken.

The last years crop of wheat in the Inland Empire has been nearly all disposed of. But few lots are now held for sale. The last lot purchased changed hands at 64 cents, which is equivalent to 77 cents in Portland. In the Willamette valley, between Portland and Harrisburg, there is still held probably 250,000 bushels. Of this, 175,000 bushels in the hands of half a dozen farmers. The lot could be bought up for 84 cents per bushel, but dealers are offering only 78 cents. Some desire is expressed to get the grain moved, to make room for the new crop, but millers have a large stock on hand, and are not anxious to invest. As showing how the farmers in the Inland Empire are handicapped, for want of an open river, we have been at considerable trouble to ascertain the difference against them in the matter of transportation. Duluth is 1519 miles from New York city by way of the lakes and the Erie canal. The Dalles has a straight river stretch, with the cascade locks and canal open, of but 188 miles to the seaport of Oregon—Astoria. But our grain is carried to Portland, 88 miles by rail, at a cost of 12 1/2 cents per bushel. There it is stored until convenient to ship it, or lighter to Astoria for shipment; when another tariff is taxed upon it. With the river open at the cascades, many vessels would come to The Dalles and load here direct for Liverpool. It is a fact that wheat is carried from Duluth to Liverpool by water, at 2 1/2 cents less per bushel, than The Dalles shipper pays by railroad to Portland. Here are the actual and indisputable facts. Preserve them for future reference.

	Miles.	Rate.
Duluth to Buffalo.	1025	34c
Buffalo to N. Y. via canal.	494	24c
Distance and rate.	1519	57c

Excess against the Wasco farmer.		25c

A gentleman who has carefully inquired into this subject, taking one year with another, estimates that since the farming interest of the Inland Empire has taken precedence farmers have been needlessly taxed an amount on wheat alone fully equal to the total cost of making the Columbia river open and free to craft of every class, to compete for the carrying trade of the country.

How much longer Must the people submit To this system of extortion? Capt. J. W. Lewis shows that in Wasco, Sherman Gilliam, Morrow, Grant and Cook counties there are 4,327,370 acres surveyed, and 371,800 acres unsurveyed lands. A total of 5,699,170 acres, available to settlement. Last year the Inland Empire shipped 25,000,000 bushels of wheat alone, in addition to other cereals. There were also exported from the river in the vicinity of this improvement; over 16,000,000 lbs. of wool, together with a great many other productions in proportion. To emphasize this matter, let it be understood that there is not a bushel of grain; nor a pound of wool; nor any other production for shipment from the Inland Empire; which does not have to pay its proportionate increase to the above figures as the distance increases beyond The Dalles. It is therefore plain to be seen that it is high time the people were awakened to a sense of the necessity of timely action, that this improvement may not be delayed one hour by the influence of any one man or combination of men. It is of much greater importance to the people of Eastern Oregon and Washington than the election of a president.

**Held to Answer.**

A man who gave the name of Eliza Coon, "formerly from Michigan," was brought from Linn county yesterday by Deputy Sheriff J. H. Phirman, charged with passing a bogus \$20 on Mr. Mosier last fall. [He two and companions had stopped at Mosier's over night, and after breakfast the next day tendered the counterfeit coin and received change in exchange for it to the amount of about \$18. Mr. Mosier has kept his eyes and ears open, to detect the fellow ever since. Last week he heard of him at a point near Spicer. He was caught and returned as above noted. This afternoon Justice Schutz gave him a hearing, and he was held to answer before the grand jury.

**Posson's Oregon Advertisement.**

THE CHRONICLE suggests the above name for the new seedling gooseberries on exhibition at the N. P. R. ticket office, in Portland. It is said they are of such magnificent proportion as to make even a web-foot inquire what they are. The berries are as large as plums and of excellent flavor. They were grown on the trial grounds of F. L. Posson & Son, on east side. This firm has adopted a novel way to name and advertise this berry. They promise to give \$50 to the person who shall suggest the best name for it, award to be made by a committee of three prominent citizens. Samples of the berries may be had at Posson's seed store; also blanks to fill out with name, etc. Just fill out a blank for THE CHRONICLE, Messrs. Posson, and send up a check for the name.

**Enlogy on Archbishop Ireland.**

New York, July 20.—The pope, receiving the pupils of the propaganda, delivered an animated enlogy on Archbishop Ireland yesterday, praising his many virtues, his vigor as a thinker and energy in action. The archbishop he said, was a true republican and a genuine democrat, and since leaving Rome had done good work for the church in Paris. His remarks were received with enthusiasm by the pupils. They have made a profound impression as showing the archbishop has the confidence of the holy father.

A lively runaway occurred at Hood River this forenoon. A team attached to a buggy became frightened at a kite. They left without previous warning. The driver jumped and let all strings go. In their mad flight the buggy struck the corner of a building. Mrs. Howlett and a little child who were in the buggy were here thrown out. Fortunately neither of them were hurt. The buggy was strewn all over the town.

There is certainly no baking powder so well known and generally used as the Royal. Its perfect purity, as well as its superiority in leavening power, are matters of fact no longer disputed by honest dealers or makers of other brands. Its virtues are so well known to every housekeeper that the slanders of the dishonest makers of the cheaper goods fail to touch it.

Mr. W. M. Terry, who has been in the drug business at Elkton, Ky., for the past twelve years, says: "Chamberlain's Cough Remedy gives better satisfaction than any other cough medicine I have ever sold." There is good reason for this. No other will cure a cold so quickly; no other is so certain a preventive and cure for croup; no other affords so much relief in cases of whooping cough. For sale by Blakeley & Houghton, druggists. d&w

A farmers team ran away in the east end this forenoon, wrecking things generally.

**Queer world! Queer people!**

Here are men and women by thousands suffering from all sorts of diseases, bearing all manners of pain, spending their all on physicians and "getting no better, but rather worse," when right at hand there's a remedy which says it can help them because it's helped thousands like them. "Another patent-medicine advertisement," you say. Yes—but not of the ordinary sort. The medicine is Dr. Pierce's Golden Medical Discovery, and it's different from the ordinary nostrums in this: It does what it claims to do, or it costs you nothing! The way is this: You pay your druggist \$1.00 for a bottle. You read the directions, and you follow them. You get better, or you don't. If you do, you buy another bottle, and perhaps another. If you don't get better, you get your money back. And the queer thing is that so many people are willing to be sick when the remedy's so near at hand.
