A Railway to the Source of the Amazon. The government of Bolivia has granted to Fernando Cerdena, an Argentine engineer, an important concession for the construction of a railway from Oruro, Bolivia, to the head of navigation on the Amazon river, in the heart of the rubber region of Bolivia. The construction of this road will connect the interior regions of Bolivia with the Atlantic, and thus give cheap transportation to Europe.

The government of Bolivia has guaranteed Senior Cerdena 6 per cent. interest annually for twenty years on the capital invested. This gives him nine miles on each side of the proposed line from which to take materials for construction purposes, and in addition has granted him 100 square leagues of land, to be taken at intervals from the territory adjacent to the road. - London Engineer.

A Precaution Against Influenza. Of all the precautions taken against the spread of influenza none are more thoroughly good in intention than those which have been adopted at Dover. The authorities there have posted up notices to the effect that a penalty of five pounds will be inflicted upon persons exposing themselves in public places when suffering from the malady. But it is disputed whether the malady is contagious, though that it is so has become the general belief. - London Tit-Bits.

Fifty-one Pearls in His Oyster. Fifty-one pearls, eight of them pale and almost white, the others brown or black, were found in an oyster served on the half shell to a customer at Tomlinson's restaurant yesterday. The customer tried to eat the oyster. Supposing it to be full of gravel he made the interesting discovery. - Potstovon Cor. Philadelphia Record.

Bad Blood.

Impure or vitiated blood is nine times out of ten caused by some form of constipation or indigestion that clogs up the system, when the blood naturally becomes impregnated with the deleterious matter. Teobol's Sarsaparilla attempts to reach this condition by attacking the blood with the drastic mineral "potash." The potash theory is old and obsolete. Joy's Vegetable Sarsaparilla is modern. It goes to the seat of the trouble. It arouses the liver, kidneys and bowels to healthful action, and invigorates the circulation, and the impurities are quickly carried off through the natural channels.

Try it and note its delightful action. Chas. Joy, at Benish's Third and Market Streets, S. F., writes: "I took it for vitiated blood, and while on the first bottle became convinced of its merits, for I could feel it was working a change. It cleaned, purified and braced me up generally, and every thing is now working full and regular."
