SOLE AGENT FOR THE

All Watch Work Warranted.

Jewelry Made to Order.

138 Second St., The Dalles, Or.

FOR CHURCHES.

Superior in tone to Pipe Organs,
easier played and cheaper, are the
ESTEY PHILHARMONICS.

REAL MERIT

Pills? NO!!
If you take pills it is because you have never
tried this.

S. B. Headache and Liver Cure.

It works so nicely, cleansing the Liver and
kidneys; acts as a mild, physic without causing
pain or sickness, and does not stop you from
eating and working.

To try it is to become a friend to it.
For sale by all druggists.

Notice: Sale of City Lots.

Notice is hereby given, that by authority of
Ordinance No. 23, which passed the Common
Council of Dalles City, June 30th, 1892, entitled
"An Ordinance entitled an Ordinance to provide
for the sale of certain lots belonging to Dalles
City," I will on Tuesday the 16th day of August,
1892, sell at public auction to the highest bidder,
all of the following described lots and parts of
lots situated in (Cities Addition to Dalles City,
to-wit:

70 feet off from the south side of Lot No.
1, Block 18; Seventy feet off from south side of
Lot No. 2, Block No. 18; the south one-half of
Lot No. 3, 4, 5 and 6, in Block No. 18; Lots Nos.
2, 4, 5, 6, 7, 8, 9 and 10, in Block No. 19; and
Lots Nos. 7, 8, 11 and 12, in Block No. 14.
The appraised value of said lots and parts of
lots which will not be sold is fixed as
follows, to-wit:

| | |
|--|----------|
| 70 feet off from the south end of Lot No. 1, in Block No. 18. | \$125.00 |
| 70 feet off from the south end of Lot No. 2, in Block No. 18. | 125.00 |
| The south one-half of Lot No. 3, in Block No. 18. | 100.00 |
| The south one-half of Lot No. 4, in Block No. 18. | 100.00 |
| The south one-half of Lot No. 5, in Block No. 18. | 100.00 |
| The south one-half of Lot No. 6, in Block No. 18. | 100.00 |
| Lots numbered 2, 4, 5, 6, 7, 8, 9 and 10, in Block No. 19, and Lots numbered 7, 8, 11 and 12, in Block No. 14, each ap- praised at. | 100.00 |

Each of said lots will be sold upon the lot,
respectively, and none of them shall be sold for
a less sum than the value as above stated.
One-third of the price bid on any of said lots
shall be paid in cash at time of sale, one-third
on or before one year from date of sale, and one-
third on or before two years from date of sale,
with interest at the rate of ten per cent. per
annum upon deferred payments, payable
annually.
The sale will begin with the first lot herein
above mentioned at ten o'clock a. m. August 16,
1892, and continue with each lot in the order as
herein named until all of said lots shall be sold.
Dated this 11th day of July, 1892.

THE TRAIN ROBBERS.

Surrounded With a Prospect of Capture,
Perhaps Today.

GEORGE CONANT UNDER ARREST.

His Nonchalant Way of Telling How
he Made His Funds.

SAID HE HAD A PATENT AIR BRAKE.

The Guards Intend to Hold Him More
Securely Than His Predecessor
Grat Dalton.

VISALIA, Cal., Aug. 9.—News was re-
ceived yesterday that the train robbers
are surrounded ten miles from Oroso,
and will be taken dead or alive today,
unless they should escape further into
the mountains. John Sontag, one of the
gang, stopped at the New Redley hotel
July 22d and was very talkative and as-
tonishingly profane. He spent the even-
ing in the hotel, drinking beer. A drum-
mer for a shoe manufacturer in San
Francisco was there. Sontag made him
drink till they emptied four bottles.
Sontag told Landlord Ayres he was
going to Squaw valley to join his brother,
and then they were going shooting.
Conant, who is in jail here is kept care-
fully guarded. After their experience in
the escape of Grat Dalton, the officers
keep the prisoner on a ball and chain
whenever he is admitted to the corridor
for air, and no one but officials are per-
mitted to talk with him. He retains his
cool, polite demeanor, and answers all
the questions put to him by the officers
and detectives in the same nonchalant
manner as when he was first interro-
gated. An important discovery has
been made at the Evans house in the
shape of four pieces of fuse, such as is
used in exploding dynamite cartridges.
Around these pieces were wrapped the
business cards of a laundry in Man-
kato, Minn., the home of George Con-
ant. In the light of recent events the
cynical humor of a remark once dropped
by Conant is becoming appreciated.
He was a free spender of money, and one
evening, while he was playing billiards
at the Palace hotel here, a bystander
asked him: "Where do you get so
much money? You don't seem to
work for it." "Oh," he said with a
laugh, "I have a patent air brake for stop-
ping trains, which I've been out intro-
ducing, and it's a great success." When
asked what he had been doing during
his absence this spring he said: "I've
been over the mountains introducing my
patent air brake." It is believed now
that his patent air brake consisted of a
shotgun and dynamite bombs.

Parliament Opened.

LONDON, Aug. 9.—The Queen's speech
was read to parliament yesterday. The
speech said that, as the business of par-
liament was practically completed be-
fore the dissolution under the proclama-
tion of June 28th, it is not necessary
for parliament now to continue the ses-
sion at this unusual period of the year.
Hope was expressed that when parlia-
ment meets at the customary season it
will again direct attention to measures
of social and domestic improvement.
The last portion was greeted with groans
by the liberals. Barton, conservative
member for Midarmagh, moved an ad-
dress in reply to the Queen's speech.

To be Tested.

Portland Telegram. County Judge
Moreland has purchased at sheriff's
sale several large mortgages on which
the owners have declined to pay taxes.
The county now holds these mortgages
by virtue of the sale, and Judge More-
land will apply the legal test to the
question as to whether or not the hold-
ers must pay any taxes on them. The
question to settle is whether the mort-
gage tax law is worth anything. The
supreme court will have to adjudicate the
matter. Should the county win, it will
be of great advantage to those who are
compelled to bear the burden of tax-
ation.

Cosmopolitan Klamath.

Star. Carloads of Iowa pork continue
to arrive in Oregon. Corn is cheap in
Iowa, but Klamath county don't care.
We raise our own pork, and let the Iowa
corn rustle.

What is Needed.

Waterville Democrat. An open river to
the sea is what eastern and central
Washington wants, and not a big ditch
on the sound.

Mills Started Up.

Duquesne, Pa., Aug. 8.—At 6 o'clock
yesterday morning between 500 and 600
men, acting unanimously, as previously
agreed to, effectually broke the strike
in the Carnegie mill at this place. They
returned to work in a body and the sol-
diers are not required to protect them.
The repair men had the mill ready for
running. Steam was turned on and the
several departments returned almost
full and began to turn out finished
steel. There were many members of
the new Amalgamated lodges, which
were formed here since the strike began,
among those who went back to work
and they did it openly and without fear
of what their companions would do.
There was no disorder at all.

The Campaign Committee.

CHICAGO, Aug. 9.—The republican
campaign in the west will be directed
from here, subject to the national exe-
cutive committee, by W. J. Campbell, of
Illinois; J. N. Huston, of Indiana; E.
Rosewater, of Nebraska; R. G. Evans,
of Minnesota; H. C. Payne, of Wiscon-
sin. Campbell will be chairman. The
committee will have supervision of the
cavass over the west, especially in In-
diana, Illinois and Wisconsin. W. O.
Bradley, of Kentucky, member of the
executive committee, will have charge
of the southern states, and J. H. Manley
and Sam Fessenden of New England.
The Pacific coast has not yet been pro-
vided for.

Conquest of Riot by Law.

PITTSBURG, Aug. 9.—When asked
what was the plan of his company to-
ward the Homestead strikers, Mr. Love-
joy said: "We have started in on his
conquest of riot by law, and it will be
carried to a finish. There would have
been more informations before this but
for the fact that many of the strikers en-
gaged in the riot have run away. Mean-
while evidence against them is being
gathered, and when they return infor-
mations will be made against them, and
they will be arrested. If they don't
come back they will be followed up till
they are arrested, and brought back for
trial."

All Good Judges, But

Klamath Star. A Portland editor
says any man that votes for protection
in Oregon has hardly as much sense as a
sheep! Portland editors are all good
judges of sense, but the glasses through
which some of them look at the subject
are often a little too full.

Positive Proof of Insanity.

Klamath Star. The fact that Wilson
the murderer, became his own execu-
tioner is positive proof that he was in-
sane. A murderer too delirious to put
his hoe into the long and easy row of
technicalities, neither knows nor cares
how rocky his hoeing is.

You Put up the Gold.

Review. English analysts say that
there is not a trace of gold in the Keeley
cure. We fear that our British cousins
will never understand American humor.
You see Keeley puts up the bichloride,
and his patients put up the gold.

Denver is Thronged.

DENVER, Aug. 9.—Over 250 trains,
loaded with passengers, have arrived in
this city with comparatively little con-
fusion, since Saturday last, and it is es-
timated there are 100,000 strangers in
the city today.

Fossil News and Notes.

Our regular correspondent at Fossil
says the fire, of which a full account was
published last week, has accented the
wish of the people for a system of water
works there. The only wonder is that
the whole town was not destroyed.
Preparations were immediately begun to
rebuild most of the burnt district.

Eugene H. Evans of Crook county, a
prominent educator, was in Fossil last
week, on business connected with the
schools. Fossil has a enviable reputa-
tion for good educational advantages,
which it will do well to guard against
losing. Prof. T. L. Donoho, of Hood
River, will make an application for the
principalship at Fossil.

ABSOLUTELY PURE

WATER V. RAIL ROUTES

Advantages Conferred Upon the People
by the Erie Canal.

BENEFITS BY ALL WATER ROUTES.

An Array of Facts and Figures That
Cannot be Disputed.

APPLICABLE TO THE COLUMBIA.

An Aggregate Saving to be Divided Be-
tween Producers Amounting to
\$135,800,000.

BUFFALO, Aug. 9.—All parties inter-
ested in water transportation will be
edified by the statements of Edward P.
North, concerning the operations of the
Erie canal last year. Mr. North says:
"Although, on account of the practice
of vessels going up light, only about
30,299,006 tons of freight were trans-
ported during the season. They were
carried an average distance of 266 miles;
so that, multiplying the tons carried by
the distance in miles, we have more
than seventeen thousand million ton-
miles, or a freight distribution equal to
almost one-fourth of the ton-mileage of
all our railroads. This lake freightage
has been done at an average charge to
shippers of 1.3 mills per ton-mile. The
shipments by railroads, on the con-
trary, are averaged by the Interstate
commerce commission at 9.22 mills per
ton-mile; so that there was a saving on
each ton transported by this water-road
over the average charges by railroad,
for an equal distance, of \$14.48, or an
aggregate saving, to be divided between
the producers and consumers of this
country, of more than \$135,800,000. As
the government has appropriated not
quite \$30,000,000 for the improvement
of the great lakes, their harbors, and
the rivers that run into them, the peo-
ple of this country received, through the
cheapened distribution made possible
by this expenditure in the single year of
1891, four and a half times the total
cost of the improvements; or, to state
the advantages of this improved water-
way in another way, the cost of lake
freight was six and one-half per cent.
of the value of the goods transported;
whereas, if they had been transported
at the average charge for railroad
freight, the cost would have been fully
forty-six per cent. of their value. This
percentage would have obviously taken
so large a part of the value of a consid-
erable proportion of the goods that the
labor and profits of their production
and distribution must have been lost to
the community, if dependence had
been placed on railroads alone."

Big Works at Niagara.

NIAGARA FALLS, Aug. 9.—It is stated
that one of the largest brass and copper
mills in the world is to locate here, and
that preparations have already been
made for the erection of the plant which
will occupy fifteen acres of ground. The
site has been secured and will front on
Buffalo street. The main building, ac-
cording to the plans will be 200x300 feet
in size and three stories high. The new
company is one of the largest concerns
in France and it is expected several
hundred men will be employed in the
mill here. The engineer of the company
has been in the city some time prepar-
ing plans, but the matter has been kept
very quiet for some reason.

The Fossilsters.

Review. Among the historical relics
to be exhibited at the world's fair is the
chair occupied by Thomas Jefferson when
writing the declaration of Independence;
the table on which it was signed; the
silver inkstand used on that occasion;
Jefferson's sword; his thermometer and
a lock of his hair. Yet a democratic
majority in congress was pig-headed in
opposition to doing anything for the
fair. Jeffersonian democracy is evidently
on the wane.
