WASHINGTON TICKET.Nelson and Doolittle Are Nominated for
Congress.

SUMMARY OF THE PLATFORM.

Anders and Scott Are Nominated for
Supreme Judges.

FAVORS THE ANTI-OPTION BILL.

The Party Pledged to a Policy Which
Will Bring an Open Col-
umbia River.

OLYMPIA, Aug. 12.—Hon. John L. Wilson, present congressman from Spokane, and W. H. Doolittle, of Pierce county, were nominated for congress by acclamation, and Anders and Scott were nominated on the first ballot for supreme judges, in the state republican convention yesterday, after the adoption of the platform, which expresses an unhesitating acceptance and adherence to the principles of the platform adopted at Minneapolis by the republican national convention of 1892; pledges a hearty support to the nominees of the republican national convention; indorses the administration of Gov. Ferry; favors the reorganization of silver upon a recognized parity with gold; calls for the allotment of lands in severally to the wards of the government; and throwing open thereafter of Indian reservations in this state to the American farmer and producer. It demands general and special appropriations for the speedy survey of unsurveyed public lands, in order that the state authorities may secure hundreds of thousands of acres granted to states; favors settlement of title of the so-called lien lands of Washington; demands proper settlement of all harbor lines, tide lands and other matters; promises needed legislation to promote the irrigation of arid lands; regulates the use of water for irrigation; favors the enactment of new and better laws; believes in the betterment of the condition of our industrial and laboring classes; believes in restraining all encroachments of any person or class of citizens upon the rights of others, and denounces introduction of imported mercenaries as seditious; asserts the ability of the state to deal with all local disturbances, and promises a prompt exercise of executive power when necessary for the protection of property; demands that the Washington delegation in congress shall use all honorable means to secure a speedy completion of the Nicaragua canal; favors eight hours for a day's labor on all public works; believes all public officials should be held to strict accountability for all official acts; urges increase in the efficiency of the common school system; favors the passage of the anti-option bill, or any other measure having for its object the prevention of gambling in farm products. The following was put through as an amendment: Resolved. That we recognize the importance to our people of the improvement of our rivers and harbors, and that we especially commend as worthy of attention of congress the Columbia river, the harbors of our Pacific coast and of Puget sound, and of the ship canal connecting Puget sound with lake Washington; that we condemn the action of the democratic house of representatives in refusing an appropriation for the opening of the Columbia river, and the Washington ship canal; and that we most heartily approve the course of Senators Allen and Squire and Representative Wilson in their advocacy of these measures; that we are heartily in favor of the speedy opening to settlement of the Puyallup and other Indian reservations in the state. The amendment was carried by a vote of 207 to 164.

Settling Old Chilian Claims.

WASHINGTON, Aug. 11.—Minister Egan has definitely agreed with the Chilian government upon a convention for the settlement of the unadjusted claims of the citizens of the United States against Chilli by means of a claims commission to meet at Washington. This action chronicles a satisfactory termination of a long-pending negotiation. No general claims convention has heretofore ever been celebrated with Chilli, and the claims of American citizens date back for more than half a century, though a large portion have their origin in the recent Chilian-Peruvian war. Much satisfaction is expressed by the state department.

SOMETHING TANGIBLE.

Major Handbury Has Received a Little
Light from Headquarters.

In reply to his note of inquiry to the chief of engineers as to the manner in which the contract for work on the cascade locks is to be let, Major Handbury has been informed that the secretary of war has decided that the act requires contracts to be entered into for the completion of each work to which they relate, and to the full amount of the estimate upon which the appropriation is based.

In the judgment of the department it was the intention of congress to have the entire work of improving the canal at the cascades of the Columbia river advertised at once, and so derive all the benefit that could be obtained by the successful contractor's having the assurance that he would hold the work to its completion. But while the whole work is to be contracted for at one time, it is not expected that the contractor will anticipate the action of congress by performing work in excess of the appropriations that may be made from time to time, unless he prefer to do so. A project for the improvement, with specifications covering the entire work and the order and time in which it should be done, is to be submitted.

The appropriation in the last river and harbor bill for the locks is \$326,250. The amount that could be expended to good advantage during the fiscal year ending June 30th, 1894, as estimated by Major Handbury, is \$1,419,250.

The clerks in Major Handbury's office have been employed in preparing the plans and specifications for the work, but it will still be some little time before they can be completed. It will probably be necessary to advertise for bids for about two months, as the work is one of great magnitude and large contractors from the east will wish to come here and look over the ground before submitting bids. They will also require time to get bids from sub-contractors for the gates, etc., before they can bid intelligently on this whole work. The new eight-hour law will also figure in the matter, and will probably increase the cost of the work 20 per cent.

It is not likely that the work on the locks will be started up nearly so soon under the new arrangement as it would under the old, but the greater speed with which it will be pushed to completion is what is looked upon to count.

Tragic Affair.

PATTERSON, N. J., Aug. 11.—Patrick Quinn, Western Union operator at Delaware station, who was shot by Hattie Acres in the telegraph office, lies in the hospital in this city in a critical condition. He has refused to make any statement except to say he will not prosecute Miss Acres, as she had cause to shoot him. He admits he had promised to marry her and wronged her. Miss Acres is in custody pending the result of Quinn's injuries. She denies she attempted suicide after the shooting, by poison. After firing the two shots at Quinn, she handed him the smoking pistol and told him to shoot her, as she did not want to live. Miss Acres is an attractive young woman, 22 years of age, and belongs to a respectable family of Cresco, Pa.

A Young Assassin.

RED BLUFF, Cal., Aug. 12.—The Daily Press published last evening the following account of a cold-blooded murder perpetrated in the Temescal canyon in this county: This morning whil' Mrs. Peter Wall and Ira Wall, wife and son of Peter Wall a prominent business man of Elsinore, were driving through the canyon, Elmer Walters, a young man who has lived in the vicinity some years, stepped to the roadside and shot both Mrs. Wall and her son. The son died instantly and the mother is badly wounded. Young Walters is one of two brothers who have been having some difficulty with the Wall family over water rights.

May Have to Swallow It.

The Brannigan contract may possibly not suit the navy department, and thus account for the milk in that cocoon. We shall hopefully bide our time however, for a few days, before calling "chestnuts" on the cascade contract.

TRAVELING IN A DORY FOR LIFE.

Report of Capt. Healy on the Cruise of
the Bear in Alaska.

RELIEF AFFORDED IN ONE CASE.

From St. Matthews Island to Hall's Is-
land in Search of Two Men Who
Were Lost.

SAN FRANCISCO, Aug. 12.—The report has just been made public of the late cruise of the revenue steamer Bear, in Alaskan waters by Capt. Healy. The Bear touched at St. Matthews island June 3d and took off a man named Peter Viani, who was in dire distress from lack of proper provision. He said two other men named Fred Burns and J. B. Pulsford, who had been left on the island with him, started in a dory May 4th, for Hall's island, since which time he has heard nothing from them. The Bear visited Hall's island, but did not find them. Tracks were found of their camp, which appeared to have been abandoned three weeks previous. Captain Healy says he thinks the men must have drowned at sea by the capsizing of their boat.

Result of Being in a Hurry.

WASHINGTON, Aug. 11.—Considerable disappointment is felt at the postoffice department over the unexpected omission from the sundry service bill of an appropriation of \$5,000 which has been asked for to enable the sixth auditor's office of the treasury department, which audits postmaster's accounts, to employ 20 people for six months, at the rate of \$500 per year, to assort several million paid money orders which have accumulated and are accumulating in the office, and which, in their present state, prevent the settlement of thousands of postmaster's accounts. The fact that no provision has been made for their employment was not discovered until yesterday, when it was found necessary to rescind all action in this respect.

Grand Master McCurdy.

DENVER, Aug. 12.—Hon. Hugh McCurdy, of Corunna, Mich., was yesterday elected grand master of the Knights Templar of the United States. Right Sir Judge Hugh McCurdy is a 33d degree, repute master of a grand encampment and past grand master, past grand high priest, past eminent grand commander, past most illustrious grand master of the grand council, illustrious deputy for Michigan. He was made a Mason in Birmingham lodge, No. 44, in 1850, and has risen constantly in the order since that time. He has always been a great worker in the order.

The New Cruiser Marblehead.

WASHINGTON, Aug. 12.—It has been determined by the navy department who shall christen the cruiser Marblehead to be launched at Boston today. The duty will devolve upon Mrs. Chas. H. Allen, wife of one of the contractors of the vessel. There has been some dispute as to the propriety of having a married woman christen the vessel. The usual custom has been to have the duty performed by a young maiden, but in view of the fact that the two naval vessels, the Baltimore and Raleigh, were christened by married ladies, precedents are regarded as no longer binding.

Crops in South Dakota.

SIOUX FALLS, S. D., Aug. 11.—The figures on South Dakota's prospective yield give estimates at 50,000,000 to 60,000,000 bushels of wheat, besides an immense quantity of other grain. An elevator expert places the wheat yield at 60,000,000 and the railroads place the estimate at 50,000,000 to 55,000,000.
