**THE DALLES SHIPMENTS.**

Reports of wheat shipments from The Dalles during the seasons of 1890 and '91 show a big increase in the business of the place, which is not apparent to the casual observer. To illustrate: In 1890 the total shipments of grain, flour, feed and mill stuffs was 462,150 pounds. Last year it was, of wheat alone, 10,313,295 pounds, requiring 516 cars for transportation. In 1891 3,000,000 pounds of wool was shipped from The Dalles; this year it will exceed 5,000,000 pounds. Careful estimates place the prospective shipments of wheat from The Dalles this year at 90,000,000 pounds, an increase of 79,224,555 pounds over the aggregate shipments of the two previous years. That does not look very much like a crop failure this year, does it? The gentleman from whom these facts are obtained, has based his calculations upon a very careful survey of the situation. It is quite refreshing to be able to furnish such data as this at the present time, in view of the contrary statements sent abroad concerning the crops of Wasco and Sherman counties.

Albert Koble, agent of the California state board of horticulture, was sent to Australia to collect parasites that would destroy the scale bug, which is such a pest in California. He has returned, and was very successful. He brought up a large number of parasites which the state board of horticulture will distribute, and he thinks by their means will be able to eradicate the scale bug in California. "The phylloxera is very bad all over Australia. Down there they do not know anything about resistant stock and their only cure is to tear up the whole vineyard. All over the blight is playing terrible havoc with the fruit. In Fiji the coconut palms and the banana trees are all eaten up, and the same can be said in a measure about Tonga, Tongatapu and Samoa. The leaves are eaten off the trees and the fruit fall to the ground. The orange trees in many instances have been attacked by the scale and the quantity of fruit exported from the islands has fallen off very much."

Goldendale, a fine little city of 900, and back of her a large portion of Klickitat county, shipping 500,000 bushels of wheat, with immense natural resources, is clamoring for a railroad. She has no connections with the outside world by rail, and this fact is keeping her from developing into a hustling young giant, while thousands of acres of land which, under irrigation, would prove fruitful, are still untouched by the plow. Hay and produce are among the more profitable products of the county, while the assessor's books show that there are over 12,000 horses and mules in the county, valued at more than \$250,000; over 46,000 sheep, valued at \$115,000; over 12,000 cattle, valued at more than \$180,000, and more than 6,000 hogs.

Astoria has a flour mill. It is not of the latest and most approved pattern, with a full roller process and middlings purifier attachment, but is of the antique order. The student of ancient history would recognize it as one of the household articles in common use at the time Pharaoh's daughter adopted Moses, but this mill was imported from China by Sun Yuen Lung, a Chinese merchant of Ocosta, for the purpose of grinding rice. It is not stated whether he will do custom work for the natives and take toll, or simply keep it for his individual use.

If Cyrus W. Field, had not believed in life insurance he would have died a bankrupt. When he came home from his trip around the world ten years ago his yearly income was \$300,000. It is doubtful whether his five children will succeed to anything but his life insurance of about \$275,000.

Wheat is reported as being quoted at 65 cents per bushel in Corvallis, 64 cents in Albany and 63 cents in Salem, but as yet very little is coming in from the surrounding district.

A tin lode of considerable value has been located in the mountain south of Cle-Elum.

**"It makes me tired!"**  
People ask me—is marriage a failure? Of course 'taint; 'spose I don't know my biz—what am I here for? If the women only keep healthy they keep in good spirits and cupid is in demand. Let every enfeebled woman know this—there's a remedy that'll cure her, the proof's positive.  
Here's the proof—if it doesn't do you good within reasonable time, report the fact to its makers and get your money back without a word—but you won't do it!  
The remedy is Dr. Pierce's Favorite Prescription—and it has proved itself the right remedy in nearly every case of female weakness. It is not a miracle. It won't cure everything—but it has done more to build up enfeebled and broken-down women than any other medicine known.
