### BAD CROP REPORTS.

The World is Calling for Gold--New Record for Silver.

NOT A RIPPLE IN THE MARKET.

Great Increase in the Money Circulation of the United States.

GOLD PAID FOR IN LEGAL TENDERS

Official Treasury Statement Concerning the American Money Circulation at Present.

New York, Aug. 15.—In view of the reports of injury to the crops abroad the apathy of foreign buyers is significant. It means that either they have large stocks of foreign wheat and are "dead broke" by losses sustained on them, or else the reports of injury are not true. Reports from Iowa, Ohio, Illinois and Kansas show that the corn has not made up any of its lost time and that the crop is fully one month behind an average year. The harvest of oats is under full headway. The crop is streaked and uneven. Kansas has an increased acreage in the three leading crops; wheat, corn and oats. The increase in winter wheat is 6.98 per cent. and spring wheat 10.4 per cent. The increased acreage in corn is 7.4 per cent. The oats acreage increase is 24 per cent. The total available stock of wheat in the United States and Canada, afloat for Europe and in Europe, as reported by Bradstreet, amounted to 98,528,000 bushels on August 1st, against 99,203,000 bushels July 1st and 85,864,000 August 1st last year. Of this amount 64,448,000 bushels were outside of America, against 63,544,000 bushels July 1 and 60,688,000 August 1st of last year. The visible supply of wheat has begun to reach the period of regular annual increase, and it may be expected to gain steadily until the 1st of January. The exports of wheat from both coasts for the week ended Thursday showed a large increase over last year for the corresponding week. The official Ohio report says that it is probable that its estimate of 35,000,000 bushels, against 45,500,000 bushels last year, is likely to be reduced by subsequent returns.

The week witnessed the making of a new record in the London market for silver, the price of bars at that centre having fallen to 38 3/4 d per ounce, which is the lowest point ever known. The depression abroad naturally created a much weaker feeling in this city, where the commercial price of bars ran off to the unprecedentedly low figure of 84 3/4. This sharp decline reduces the bullion value of the standard silver dollar perceptibly, it now being only 62.23. All commercial nations are calling for gold. La Touraine took \$1,000,000 gold, \$13,000 in silver coin, and the Elbe \$44,000 in bars. The effect of the heaviness in the markets both here and in London was reflected in a pronounced decline in the price of silver certificates. The amount of free gold held by the treasury is \$111,171,330, against \$110,811,348 on Saturday. The gold taken for shipment was paid for entirely in legal tender and treasury notes. There was not the slightest ripple in the money market during the week, and the supply of funds was in excess of the wants of borrowers. Call money was easy at 1 1/2 @ 2 per cent. and time loans were done at 2 3/4 @ 4 per cent. for sixty days to six months. The official figures of the treasury show that the money in circulation in the country on August the 1st was \$101,920,513 greater than last year, as will appear from the annexed table:

	AUG. 1, 1892.	AUG. 1891.
Gold coin	\$110,447,968	\$497,680,012
Standard silver dollars	57,081,822	56,163,679
Subsidiary silver	63,346,587	57,705,464
Gold certificates	136,861,629	115,715,289
Silver certificates	327,336,823	307,291,114
Treasury notes	101,756,201	43,684,078
United States notes	311,822,273	319,892,264
Current certificates	26,720,000	27,250,000
National bank	166,995,935	162,617,312
Total	\$1,001,949,325	\$1,500,022,512

It will astonish a great many persons to hear that, according to the census reports, the grape crop of New York brings more money than the grape crop of California. This is because the former is mainly sold for table consumption, while the latter is used for wine-making. The modus operandi of the trust, in our news columns today, explains the success of the culture.

### A Farmer's Trust.

New York Mail. Have the democracy heard of the grape trust. The growers in this vicinity have a combination. They pool their issues. All the grapes are handled by the trust or company, and an inspector first sees that they are marketable. They are then shipped mostly to Chicago, St. Louis, St. Paul and Cincinnati, in carload lots. Freight rates are low, being only eighteen cents a hundred to Chicago. At the end of a stipulated period, weekly or monthly, a division is made among the farmers, according to the amount of their product, of the proceeds of the sales. A good price for Concord, which constitute the principal part of the crop, though Niagaras and Catawas are also grown, is 2 to 2 1/2 cents a pound. All cultivation is done with horses, and it is, therefore, no more care to cultivate a vineyard than it is to cultivate a field of corn. Mr. McKinstry says that high cultivation in grape growing, as in everything else, pays, and extra care and attention will sometimes net seven tons to the acre. He has seen a half acre of Niagaras, with high cultivation, yield 12,227 pounds. The grapes are all packed in nine-pound boxes, and the average net price last year, which was low because it was a great fruit year, was fifteen and one-tenth cents for a nine pound basket to the grape grower in the Chantaqua section.

### A Break in Alabama.

Goldendale Sentinel. "Something dropped in Alabama last Monday and it seems to be still falling. It was election day and a genuine revolution seems to have taken place, the new People's Party having come to the front in a most surprising way." Yes, we heard it. The "nigger," it appears, saves civilization when he votes the democratic ticket.

Oregonian. The Birmingham Age-Herald, Alabama dem., says: "The organized democracy of Alabama takes off its hat to the black belt." What! Democratic exultation over the achievements of negro suffrage in one of the "blackest" states of the south? The democratic party has been Africanized; it is the "nigger party" now. It was "saved" through majorities in the black belt. It has been a very long time since anything so significant as this election in Alabama has appeared in our politics. As the facts come out, it is a growing surprise, it is cumulative, and while it is of no great consequence whether the state shall vote for Cleveland or Harrison or Weaver in November, it is a matter of highest interest and importance to find the democratic party forced to take a position which annuls all its demagogical pretenses about the negro vote.

### Fire at Lytle.

Leader. On Saturday morning, at about one o'clock, one of the barns of the old Lytle ranch, at the mouth of the Klickitat was discovered on fire, and did a large amount of damage before it could be subdued. The entire structure, including stables, wagon shed and grainery, together with three head of horses, a large amount of farm machinery, harness and feed was consumed. The dwelling-house was in danger for a time, but the fire fiend was brought to bay at the wood shed, a part of which was consumed. The loss amounts to about \$2,000 with no insurance.

### No Hope in Sight.

St. Louis Republic. If the worlds fair grab is not beaten in some way what hope will there be hereafter against Chicago gall?

Politicians careful of their reputations will hereafter manage to work in the expression "truly rural" when they meet a constituent. This is the true test of sobriety, and he who rolls his eyes and says "truly rural" will be a marked man.

Col. Don Dickinson having become officially connected with the management of the democratic campaign should hasten to overhaul his prediction department.

### A FACTOR IN CHICAGO

Adroit Tactics of the Friends of Convicted Anarchists.

SECURING CANDIDATES PLEDGED.

A Very Serious Danger Which now Threatens the Republic.

REPUBLICANS WILL OPPOSE IT.

Organization of an Amnesty Association to Release Convicts in Illinois. Other News.

CHICAGO, Aug. 18.—It is now clearly proven that for some time there has been a dalliance between the managers of the republican campaign and the friends of Fielden, Schwab and Neebe, who are in prison at Joliet. It has been understood that an ultimatum was given the candidate for governor to the effect that he must agree to pardon the anarchists or suffer the consequences. The tactics of the friends of the convicts is adroit. They believe that if elected the democratic candidate would certainly pardon Oscar Neebe. If they can, therefore, get an agreement from the republican candidate, they will have what is termed a "sure thing." But up to the point where information breaks off the republican candidate has avoided making a promise of a sort that might be realized on after the election. The friends of the men in prison were becoming impatient and were making threats.

At this juncture there is organized an amnesty association, with a prominent republican, who is Gov. Fifer's friend, at its head. It is not clear what the functions of the amnesty association are. Presumably the association as organized will be regarded by some as a guaranty that if Gov. Fifer is again elected he will pardon one or more of the anarchists. It may be doubted whether Gov. Fifer is a party to the arrangement. That this question of a pardon is full of worry for a governor who is a candidate for re-election is clear enough. Can the friends of Gov. Fifer hope to outbid Mr. Altgeld for the votes of the friends of Fielden, Schwab and Neebe? It would be a dangerous precedent to establish, and if undertaken would not only be risky for the party, but a menace to the safety of the republic. It is evident that Gov. Fifer has no hand in it, because if he desired to pardon the convicts and there were no difficulties in the way he could do it as readily today as he could after the votes are cast next November. It would be an outrageous thing to pardon any man from prison as the result of a political deal. But if he deserves his freedom he should receive his pardon now for the sake of justice.

### Political Movements.

WASHINGTON, Aug. 15.—At headquarters of both of the leading political parties greater activity is shown the past few days than at any time since the nominations. T. A. McKee, assistant of the republican national committee, in charge of the mailing division has a force of over fifty clerks, sending out copies of about thirty distinct publications, most of them bearing on the tariff. They have a labor chart, a map which shows the average wages paid in each state of the union. More than a million of these charts are to be circulated. Every day over 10,000 packages, containing one of each of document issued, are distributed. The democratic committee, under charge of Lawrence Gardner, is sending out tariff literature, but are diversifying it with McKinley's speech on pensions, the anti-force bill effort of Senator McPherson, Henry George's protection or free trade. During the last day or two there have been many inquiries for copies of Senator Stewart's speech on the silver bill, notwithstanding that it was delivered by a republican senator. Most of the urgent demands on the democratic committee came from the southern states, where the inroads of the party are occasioning alarm.
