A Hard Corner.

The age of 30 is a hard corner for a woman to turn, and 35 is still harder. She feels that she is fast leaving her youth behind her. But there is no reason why a woman should be faded and of the early fading of American women is found in the fact that many of them suffer from some form of female weakness or disease that robs the face of its bloom, draws dark circles about the eyes, brings early wrinkies and sallowness, and stamps the face and figure with signs of ill-health. Dr. Prices Favorite Prescription will cure all these troubles, will bring back the lost bloom, and remove the pains and ailments which make women grow old before their time. The Old Times are Not In It.

While at our other store at Big Island, Va., last April, I was taken with a very severe attack of diarrhea. I never had it worse in my life. I tried several old-time remedies, such as Blackberry Wine, Paregoric and Laudanum without getting any relief. My attention was then called to Chamberlain's Colic, Cholera and Diarrhea Remedy by Mr. R. C. Tinsley who had been handling it there, and in less than five minutes after taking a small dose I was entirely relieved.
