HEARTED PRISONERS."

Unfounded Assertion that the Coeur Alene Prisoners in Boise are Abused.

BUFFALO, N. Y., Aug. 22 .- Trains are now moving pretty regularly and the strike may be considered at an end, with no point gained. The switchmen in the Buffalo yards are undoubtedly defeated. They know it themselves, but still cling to the conviction that something will yet happen. Their faith is in their leaders. They hope the firemen may come out, and yet the mass of them, while hoping, have little knowledge of the progress of official diplomacy and they are dumbly waiting an issue. The question now is: Will the great majority of these strikers realize the true situation? When they realize the fact that it is the higher priced labor dictating the strikes, and compelling the lowest priced laborer to bear the burden, they will be infinitely better crime committed. The "belief that public could not mistake it. Grand Master Sweeny had cause to order out the switchmen and hoped they would win," will not suffice before a competent court in the state of New York. This strike has been defeated, primarily because the strikers have been manipulated by secret associations, as despotic, tyrannical and oppressive as was ever exercised by any aristocracy in history. It has been stated that the whole number of men personally interested in the question of wages in this to one thousand, and that the leaders were the highest priced laborers, the ar-istocracy of the association.

recent finds of gold by the professional pocket hunters, stated that the finds refair success, finding several pockets, the largest containing \$50 and another \$20. Connor also tried his hand and was rewarded with the finding of several deposits. Others too, have of late experimented with the new system, ambng them M. Alexander, who has become quite an expert, and had it not been that he met with an accident just prior to the finding of the \$140 pocket the other day by Messrs. Pitts and Wells, he would have been in the division of the treasure. Now, that the water supply for placer mining at Auburn is about exhausted for the season, it may be expected that almost the entire population of that camp will be out scouring the hills for gold deposits.

Portland Fruit Market.

Friday, Aug. 19 .- Fruit dealers all wore smiling countenances yesterday. The market took a sudden spurt and the surplus vanished rapidly. Prices were again lifted to published quotations, and for the present all goes well. A carload of watermelons, another of peaches, both from Oregon, and a car of assorted fruits were received during the day. The new arrivals were choice and will have a good effect on the market. The same prices will rule today, but next week there will probably be changes all along the line. Nearly all the fruit now on the market is from this state. Peaches watermelons and grapes are the leading articles. Vegetables were also firmer yesterday, though supplies were large. Tomatoes are improving in quality. A fine lot of Oregon tomatoes are improving in quality. A fine lot of Oregon potatoes came in during the day.

Charges of Ill Treatment.

Borse City, Aug. 22 .- The Coeur d' Alene prisoners here would like to appear in the role of martyrs, but they are too well treated, all reports to the contrary notwithstanding. The man Peter Breen, reported to have been a particular victim of cruelty at the hands of the United States marshal, is one of the very The Dalles, Or, worst men among them.

Review. Judge McConnell's term in the United States senate was not so brief that it did not enable him to demonstrate his fitness for that position. ors he found time to show both courage and energy in the discharge of his duties. He made his presence felt in the senate chamber long before many other members dared announce their senatorial THEIR FAITH IS IN THE LEADERS. existence, and that without boorishness or offensiveness. His selection by the republicans of Idaho for governor has been a wise one. Unlike many another Judge McConnell, as governor, is unlikely to display weakness or dilatory reserve in the discharge of the duties of his office. He has energy and ability. The nomination of Hon. Willis Sweet by acclamation to a second term in congress was a graceful and deserved tribute to a faithful public servant who has never yet failed to do all in his power to advance the interests of his state. Mc-Connell and Sweet will have no difficulty in carrying the state of Idaho for the republicans this fall.

Mr. Calvin Cobb, proprietor of the Boise Statesman reports an area of unexampled prosperity in the southern part of Idaho. Vast tracts of land are being reclaimed by irrigation, the mines are producing more wealth than ever before, and Boise has doubled its population in a little more than a year.
