

National Republican Ticket.

FOR PRESIDENT, BENJAMIN HARRISON, of Indiana.

FOR VICE-PRESIDENT, WHITELAW REID, of New York.

FOR PRESIDENTIAL ELECTORS, J. F. CAPLES, of Portland. H. B. MILLER, of Grant's Pass. G. M. IRWIN, of Union. D. M. DUNNE, of Portland.

PATH OF THE CHOLERA.

Dispatches today indicate the near approach of the cholera, it having reached London from Hamburg, and is expected from the same source at New York within a short time. The first warnings of the London Lancet are now regarded with more significance, and that paper now takes the ground that it is the duty of the hour to prepare for the invasion, as if its coming were assured. For this reason the Lancet advises the immediate opening of training schools for cholera nurses. Unless this training is begun at once, it says, we are likely to find ourselves in the grasp of the epidemic without a staff of nurses capable of attending the sick. The paper declares that ordinary nurses cannot deal properly with cholera patients. A special training is required. In giving its reasons for predicting the entrance of the disease into England, the Lancet argues that the rapidity with which the infection has traveled, by the aid of German railways carrying Russian emigrants to the North sea, has brought us face to face with a type of the disease having all the virulence of the Asiatic form.

New York papers say all precedents of previous cholera epidemics point to a greater danger to the United States the year following an outbreak in Europe than in the same year, but the sanitary officials of the United States express the opinion that the advances made in the sanitation and the methods of disinfection, and the increased knowledge acquired of the germs of the malignant disease since the last serious cholera visitation, will enable them to break the precedents and ward off an epidemic altogether. In our southern ports, notably at Charleston, the summer quarantine, which is always strictly enforced, is in operation. One extra precaution has been taken; the quarantine station has been provided with the Hoel system of steam sanitation and disinfection, and is very complete.

All vessels arriving hereafter from these ports will be detained at all quarantine stations of the south Atlantic ports. No vessel is expected at San Francisco from any affected port before the middle of December.

Eye experts insist that people who wish to preserve their eyesight will do well to confine their reading as far as possible to round, fat-faced type, and to avoid that which is tall and thin. It was the shape of the type of the tiny edition of Dante produced at the French exposition almost as much as its minuteness which blinded some of the persons engaged in correcting the sheets. Another important point is to avoid too wide a column, or the eye is strained. The only way to neutralize the tendency to such strain is to turn the head from side to side after the manner of short sighted-people. The width of a column of reading matter ought not to exceed at the outside two inches, because that is about the natural range of the eye when the head is kept motionless.

It is stated that oil in quantities has been found at a railroad camp on the Lewis and Clarke river, on the Astoria and Portland railroad. If this proves true, the development of that section will be rapid. Surface indications point to a great oil basin in the Flathead country, and an attempt will be made to prove its existence in paying quantities.

Reports from St. Petersburg show another upward jump in the number of new cholera cases in Russia. There were yesterday 6,822 new cases, an increase of 700 over the previous day. The deaths were 2,977, an increase of 230. In St. Petersburg alone there were 103 new cases and 24 deaths.

It is McConnell against Burke in Idaho. Now watch the fur fly from the democratic tiger. It is understood that Mr. Burke desires to bet \$5,000 that he will be elected governor of Idaho. Don't do it. Better stick to the old tiger; the odds are better.

Home rule, with the 6th clause, as furnished to the press, is like the play of "Hamlet" with Hamlet left out of it. It would be a peculiar condition of home rule providing that the queen's own shall levy all the duties.

It isn't done by others—that's why the guarantee of Dr. Pierce's Favorite Prescription should command attention. It's a guarantee that means something. If the medicine doesn't give satisfaction, in every case for which it's recommended, the money is promptly refunded. Remarkable terms—but it's a remarkable medicine. All the functional irregularities and weaknesses peculiar to womanhood are cured by it. For leucorrhoea, periodical pains, weak back, prolapsus and other displacements, bearing-down sensations, and all "female complaints," it's an unfailing remedy. It is a powerful, restorative tonic and nerve, imparting strength and vigor to the whole system.

Try it, if you're an ailing woman. If it doesn't help you, you have your money back. As a regulator and promoter of functional action, at that critical period of change from girlhood to womanhood, "Favorite Prescription" is a perfectly safe remedial agent, and can produce only good results.
