THE OFFICIAL ORDER

Created a Lively Sensation Among N. Y. Steamship Agents.

IT REALLY STOPS IMMIGRATION.

Steamship Corporations Practically Compelled to Obey.

A FEW IMMIGRATION FIGURES.

Not Prevented From Going to Montreal And Crossing the Border, All Same Chinese.

New York, Sept. 3.—The cholera has had one very desirable effect in this country. It opens the eyes of the people to a realizing sense of the situation respecting the immensity of the steerage immigration to America, which could not be understood so well. The steamships will sustain a loss of \$2,000,000 a month, or more, while the 20 days' quarantine regulations are being carried out; and according to the estimate here today by the agent of one of the largest lines, it is estimated that during the present month about 50,000 emigrants would, were it not for the embargo, sail from the other side. The usual steerage fare is from \$18 to \$25; the average can safely be placed at \$20, which means a loss of \$1,000,000 for that class of passengers.

The president's order, as may be expected, created a sensation among the steamship agents in this city. The first intimation of it was read while the members of the continental conference were in session at their headquarters. The circular will practically stop all immigration while the cholera epidemic lasts. The agents of the steamships carrying passengers recognize this fact and will now be compelled to give up the traffic. Immigration to this port during the first six months of the present year numbered over 272,000 steerage, the number of passengers each month varying from 25,000 to 65,000.

Under this proclamation there will be a considerable decline, both to and from the United States. One agent, making a rough estimate, places the amount at \$5,000,000. Then there are hundreds of incidental expenses which must be considered. There is the feeding of the immigrants that are detained, the payment of the officers and crew while the vessels are detained, the loss of sailing, which means the loss of freight, and many other losses, making it an enormous bill, in the aggregate, for steamship companies to pay. The loss arising from the fact that fewer steerage passengers will go to the east, will be \$150,000. Next to the loss arising from the steerage passengers will be outgoing cabin passengers. The loss from outgoing steerage passengers will be \$450,000. The loss in freight business will not be as much.

"The president's proclamation will practically stop immigration to the United States," said the agent of the Guion line, "but I think it will not affect those who go to Montreal and can cross the border. My opinion is that we will not have the cholera till next spring." Agents of other lines have adopted measures, and a general order has been issued, to the effect that until further notice, no more steerage passengers will be carried from the other side.

Deserved Promotion.

Duluth Dispatch: Archbishop Ireland, it is said, has been made a cardinal, and will be sent to France as a mediator to harmonize the differences in the church in that country. A Frenchman who is not identified with any of the factions can scarcely be found, and it is believed that Archbishop Ireland is the man to do it, as the French are more friendly to the Americans than to any other nation, and this fact is said to have influenced the decision. The change will be followed by the removal of Bishop McGoldrick to St. Paul, and the appointment of a new bishop for Duluth.

Discreditable to the Country.

Baker City Democrat. We look for a reaction against the prize ring to come hard upon the heels of the New Orleans national convention of sloggers and their friends and backers. And that will be a good thing, for the prominence and favor which the ring has enjoyed in the United States for the past dozen years is discreditable to the country.

Current Topics

For the benefit of ambitious American girls it is announced that three prominent members of the new British government, Lord Rosebery, secretary for foreign affairs, Lord Houghton, viceroy of Ireland, and Mr. Asquith, home secretary, are widowers. Here are two titles and three pots of gold against several million American girls. If Great Britain wishes to cope with this problem it is evident that she must enlarge her ministry.

Mr. Corbett says he is confident he can whip Mr. Sullivan, and Sullivan is confident that he is not going to be whipped. What the sporting public now wants to know is: Which "Professor" will be a victim of misplaced confidence?

Mr. B. P. Hutchinson, late of Chicago, says that "Boston is the finest place in this country to live." We are now awaiting news of the organization of a Boston Hutchinson society.

Intelligent Voters.

East Oregonian. In the state of Mississippi there are 257,305 men over 21 years of age. Of these, 190,100 are whites, and 147,205 are blacks. The state has a new constitution which contains provisions as to suffrage that may be commended to Oregon as superior to even our Australian ballot law. This constitution limits the suffrage to those who can read and write; it requires, moreover, the payment of a heavy electoral poll tax a long time before election; and, what is more than all, it requires the voter, when he appears for registration, to be able to read and expound, to the satisfaction of the registry officials, any section or sections of the state constitution which they may indicate. The enforcement of this provision of the constitution produces a remarkable effect upon the registration, while of 147,206 blacks, only 8,615 are found to be qualified to vote.

Not so big Today.

New York, Sept. 3.—Obstreperous "Dr." Jenkins, of the health board, who yesterday tried to proclaim himself "a bigger man than Ben," by declaring that he should continue the quarantine and release vessels according to his own view of the requirements in each case, without regard to the president's proclamation, has fallen from his perch a subjugated jay, under an emphatic order from Collector Hendricks, stating that if Jenkins does not obey the president's quarantine proclamation, ships affected by it will not be allowed to land passengers or cargo.

"A Very Clever" Deal.

Montreal Dispatch. The stock brokerage firm of Nicholls & Marier were robbed of \$45,000 on the 2d. A handsome blonde drove up to the office and waved a bundle of greenbacks and beckoned to the clerk to come out. She had a five minutes argument about the discount on American silver certificates, and then drove rapidly away. When the clerk returned to his desk he found that the cash drawer had been rifled. A good-looking American who was loitering around the place for a couple of hours that afternoon has disappeared.

In sums to suit, on improved inside property. \$4,000 of Dalles City water funds apply to HUGH CHRISTMAN, 9, 2d St. Secy. Dalles Water Com.

AN ARABIAN WEDDING

Queer Customs of Adopted Citizens in Cincinnati.

THE BEER, BRIDE AND BROTHER.

A Maddening Howl, Stately Dancing, and Odd Performances.

THE SCRAPPERS ARE COLLECTING

Pool-sellers' Combination, and Preparations for Shearing of the Lambs.

CINCINNATI, Sept. 3.—An Arabian marriage, celebrated exactly as it would be in Arabia, is in progress here. It is a remarkable affair, and it requires three days to complete. The contracting parties are Raphael Latooof and Lizzie Antonius. The ceremony began at 8 a. m., in what is known as the Red Onion tenement-house, inhabited exclusively by Arabs. The bride is but fourteen years old. In opposite corners sat fifteen or twenty men, and as many women. The bride was covered with a rich scarf. From a table in the middle of the room a brother of the groom dispensed beer. All the time, the squatting men and women kept up an exasperating howling. Soon the relatives of the bride and groom appeared at the door, dressed in Arab costumes, and danced a stately minuet. Then followed all sorts of performances, wild shrieking, beating of heads, burning of incense, bowing under colored lights, and accompanied all the while by the maddening howling. An immense crowd of spectators was on the outside, and a squad of police was kept busy.

Lamb Shearers Gathering.

New Orleans, Sept. 3.—The great prize fight next week is attracting an unusual swarm of "sporting" men from all portions of the continent. From now on every train will be crowded. Steady betting continues at the pool rooms, and two institutions of that kind are open for the purpose of shearing the lambs, and it is expected that large sums of money will be lost and won on the result of the fights. For instance, they are ready to pay out \$8,840 on the Corbett, Skelly and McAuliffe combination, \$3,000 on the Corbett, Skelly and Myer combination, \$4,200 on the Sullivan, Dixon and Myer combination, which seems to be favorite. Two-dollar mutuels opened this morning. Odds were posted on the start 4 to 1 on Myer, 3 to 1 on McAuliffe, 5 to 1 on Dixon, 6 to 1 on Skelly, and even money on Sullivan, and 2 to 1 on Corbett.

A Point for Future Prosperity.

Sciò Press. If Oregon and Washington produced all the butter, cheese, eggs and poultry, swine products and beet sugar required for home consumption, a shortage of the wheat crop, such as exists the present year, would have very little effect upon the entire region, taken as a whole.

The Argument Used

BY the makers of the second-class baking powders to induce the dealer to push them off on Royal consumers is that they cost less than Royal and afford the dealer much more profit.

But you, madam, are charged the same price for them as for the absolutely pure Royal, which is perfectly combined from the most highly refined and expensive materials. The lower cost of the others is caused by the cheap, impure materials used in them, and the haphazard way in which they are thrown together.

Do you wish to pay the price of the Royal for an inferior baking powder, made from impure goods, of 27 per cent. less strength? If you buy the other powders, insist upon having a corresponding reduction in price.
