RESULT OF PECK'S REPORT.

The democracy are far more concerned over Commissioner Peck's report on labor statistics, in which he dealt the democratic free-traders a hard blow, than the public generally are aware of. Peck is one of Senator Hill's proteges and was with the senator on his southern trip. There seems to be little doubt that Hill is largely responsible for the report. Democrats in the east are unwilling to believe that Hill means to stab the democratic party in the back at a critical moment, but they think they see in the report an effort on the part of Hill to compel the Cleveland men to come to some sort of terms and make concessions by which Hill may be assured of a voice in the distribution of the federal patronage in the empire state in case Cleveland is elected. Unless some sort of an agreement be made to this effect before the election Senator Hill will find himself absolutely powerless to control a single appointment. Mr. Cleveland is stubborn, as usual, and objects strenuously to making any deal with Hill, and this is said to be the sum and substance of the difficulty which now confronts the democrats of New York. It is admitted that a few more states like that of Commissioner Peck will do incalculable injury to the democratic party in that state, but the democrats believe that in due time Senator Hill will be reconciled by being conceded the control over the patronage of the state and will come into line enthusiastically for the ticket. At present he is supposed to be trying to bring Cleveland to terms. Senator Hisecock, when asked about the political conditions in New York, said that there was little doubt that President Harrison would carry the state by a larger majority than he did four years ago. The senator said there was no doubt that the democratic party was hopelessly divided in that state, and unless harmony was secured before November there would be a political landslide in New York similar to that which first brought Grover Cleveland into prominence in national politics, but that the landslide this time would be in the direction of the republicans.

Prof. Eigenmann, who is gathering specimens of fish for the British museum, is at present seeing the Columbia and Umatilla rivers, where he has found a new kind of fish never seen before. They are almost transparent and none are over two inches in length. Prof. Eigenmann, during the summer, has secured almost all the rivers of British Columbia west of Winnipeg, and has secured many valuable specimens, but he considers this latest find the most important made in several years.

Joseph H. Misner, of Portland, who for several years was deputy sheriff in P. M. Kelley's office, has been appointed to represent Oregon at the convention of the Boys' and Girls' National home and employment association, State superintendent E. B. McElroy has also been appointed to represent the state. This convention will meet at Des Moines on the 21st.

Whether or not some of those suspicious illnesses on board incoming Atlantic steamers were cases of true cholera, it is apparent that the patients died speedily and painfully. It makes little difference to a dying man whether it's cholera, or cholerae, or mere colic that's troubling him.

We are well aware that the lexicographers permit the usage, but none the less we wish that the women now prosecuting the dress reform movement would not talk of "healthy costumes." The inference that some costumes are not healthy, and have tuberculosis or bacilli, is hard to avoid.

It is a poor day for magazine literature when a new monthly does not enter the lists. What to do with our magazines will soon become as agitating a question as the one, "What to do with our daughters," and it is hoped publishers will cry halt before long.

Salmon City has a curiosity in the shape of a Chinese cowboy who swears and rides with the best of them. He created quite a sensation the other day by riding a bucking cayuse through the streets of the town.

Plain enough—the way to a clear complexion, free from blotches, pimples, eruptions, yellow spots, and roughness. Purify your blood, and you have it. With pure, rich blood, an active liver, good appetite and digestion, the hue of health follows. Doctor Pierce's Golden Medical Discovery gives you all of them. It is the blood-purifier. There's no lack of them, but there's none like this. It's guaranteed to accomplish all that's claimed for it. In all diseases arising from torpid liver and impure blood, it benefits or cures, or the money is refunded. With an ordinary medicine, it couldn't be done. But this isn't an ordinary medicine.

It is the **cheapest** blood-purifier sold, through druggists, because you only pay for the good you get.

Can you ask more? The "Discovery" acts equally well all the year round.

A Reliable Man.

M. J. Griner, a Justice of the Peace at Print, Michigan, says one bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy saved his life. He had been down with bloody flux for three weeks when he commenced using this medicine. It soon cured him, and he believes saved his life. He also says it saved the lives of three railroad men in that vicinity. "Squire Griner is a reliable and conscientious man, and whatever he says can be depended upon.
